

College Distinctiveness

Tap and Train

The ultimate goal of an institution is to train every student to be a responsible citizen and eminent personality. As a part of this the institution keenly focuses on the holistic development of the students and provide them with every opportunity and resource to facilitate their overall development. Our college implements University curriculum through well planned and effective teaching learning activities blended with latest pedagogy approaches. Social skills are nurtured through various activities conducted by different clubs of the institution. Our institution has vision to mould and empower students in the pursuit of knowledge, values and social responsibility and help them to achieve excellence in various fields and also preparing them to face global challenges. Our institution also established the distinctive approach towards the comprehensive vision by modelling it by means of various programmes. To organize such training programmes the institution needs financial resources which is a tuff job for a government institution. Yet Government degree college is its own mark of tapping every funding organization that extends financial support to the institution to organize such academic training programmes. Govt. Degree college (M) has its mark in tapping the funds from National Organizations like Indian Science academy, A.P. Cost-Science Expo. The institution organized the programmes in the academic year 2021-22, by raising the funds upto 3/8 lakhs from different organizations mentioned above.
