

✓ **Dr. S. Ramakrishna**

Lecturer in Chemistry  
GDC (M), Srikakulam

He attained M.Sc. (Chemistry) from University of Hyderabad in 2009 and obtained Ph.D. from Osmania University in 2015. He secured 1<sup>st</sup> and 2<sup>nd</sup> rank in PG Entrance Examination conducted by Andhra University and University of Hyderabad in 2007, qualified GATE and CSIR-JRF in 2009. He has more than 10 years of teaching experience at UG and PG level, published 08 research papers in reputed International Journals, his research interests include synthesis of visible light driven photocatalysts and study of pozzolanic materials. A research supervisor under Dr. BRAU, Srikakulam and a Member of Royal Society of Chemistry (RSC).

## GREEN CHEMISTRY AND NANOTECHNOLOGY (Theory & Practical)

### Salient Features

- The text book is written strictly adhering to the APSCHE syllabus.
- The text book is written in simple language, lucid style and self understandable.
- Diagrams are simple and easily reproducible.
- Chapter wise Descriptive and Multiple Choice Questions are provided.
- Experimental procedures are included.
