Changing Dynamics of IPRs During COVID-19

With the Support of

National Intellectual Property Awareness Mission (NIPAM)

Date: 17-08-2020 & Time: 10.30 am Onwards

Resource Person

Dr. S. Tangapandian,

M. Tech & Ph. D

Dy. Controller of Patents

IP Office, Chennai

Organized by Department of Computer Science

Government Degree College (M), Srikakulam

“Lecturer on IPR Awareness” Event Organized Report

2020-2021

Name of Department/ Cell	IQAC in Collaboration with Computer Science
Name of Event Organized	Lecture on changes in IPR after Pandemic.
Title of the Event	Changing Dynamics of Intellectual Property Regime during Covid-19.
Date of Event Organized	17.08.2020
Name of the coordinator of the Event	
No. of Participant (Student +Staff)	68
Name of the Expert with designation	Sri. S. Thangapandiyan, Director, I.P. Office, Chennai.
Contact number & Address of the Expert	
Objective of the Event	The objective of the event was to raise awareness among participants about protecting innovations and intellectual property in the digital space, particularly in the context of the COVID-19 pandemic's impact on device manufacturing and technology advancements.
Description of the event	<p>On September 15, 2020, the IQAC, in partnership with the Department of Computer Science, organized a significant event titled "Changing Dynamics of Intellectual Property (IP) Regime during COVID-19." This event had a crucial mission: to shine a light on how the world of Intellectual Property Rights (IPR) changed before and after the pandemic.</p> <p>Our esteemed Chief Guest, Sri. S. Thangapandiyan, Director of the IP Office in Chennai, played a vital role in educating the participants about these substantial changes. He shared valuable insights into how the IP landscape transformed because of the pandemic's impact.</p> <p>Furthermore, we had the privilege of hosting the Principal of our Government Degree College (M), Srikakulam, as our guest, enhancing the event's significance.</p> <p>Importantly, due to the COVID-19 pandemic,</p>

	<p>several companies started producing devices like rapid COVID-19 test kits, pulse oximeters, digital thermometers, N95 masks, and innovative technologies to combat the virus. However, concerns arose about protecting their patents, licenses, and innovations. To address this, our webinar aimed to educate participants on how to safeguard their ideas and innovations in the digital space. The Chief Guest, in his session, provided guidance on the correct approach to handling Intellectual Property Rights (IPR) in this context, helping students understand how to protect their valuable innovations effectively.</p>
Outcome of the Event	<p>The event resulted in heightened awareness and knowledge among participants regarding the protection of intellectual property in the digital space, particularly in response to the COVID-19 pandemic's influence on innovation and device manufacturing.</p>
