Department of Physics

Minutes of the meeting

The members of the department of Physics met today in the department of Physics under the guidance of Sri.M.V.Satyanarayana, Incharge of the department of Physics and unanimously resolved the following.

1. Arrange a Guest Lecture on "Exploring Robotics: From Theory to Code" at Department of Physics, Government Degree College(Men), Srikakulam by Sri Venkata Satyanarayana Nemana, Senior Programmer in Defence of USA on 21/11/2023.

1.  (M.V. SATYANARAYANA)

2.  (C.M. S. Sanyal M)

3.  (R. Ravi Kumar)

4.  (Mohanarao Sami)

GOVERNMENT DEGREE COLLEGE (MEN)

Guest Lecture Announcement

Dear Students,

We are pleased to announce a guest lecture at Department of Physics, Government Degree College (Men), Srikakulam by Dr. Nemana Venkata Satyanarayana, a distinguished expert in coding and program designer who worked in USA Defence organization. Dr. Nemana Venkata Satyanarayana is an esteemed professional in the field of robotics and programming. This guest lecture aims to provide you with valuable insights into the world of robotics and hands-on guidance on writing code for robotics applications. Details of the Guest Lecture:

- Guest Speaker: Dr. Nemana Venkata Satyanarayana, USA
- Topic: "Exploring Robotics: From Theory to Code"
- Date: 21.11.2023
- Time: 10 am to 11 am
- Venue: Department of Physics, Government Degree College (Men), Srikakulam.

Benefits of Attending:

- Gain valuable insights from an industry expert.
- Enhance your understanding of Robotics etc
- Network with professionals and peers.
- Explore potential career paths and opportunities.

Note: Attendance is highly encouraged, as this guest lecture provides a unique opportunity to learn from an industry leader.

1.  (M.V. SATYANARAYANA)

2.  (Dr. G.V.S. Jayapal)

3.  (R. Ravikumar)

4.  (Mohanarao Barri)

Event Summary

Guest Lecture on "Exploring Robotics: From Theory to Code"

We are pleased to provide a summary of the recent guest lecture held at Department of Physics, Government Degree College (Men), Srikakulam on 21.11.2023. The event featured Dr. Nemana Venkata Satyanarayana, a distinguished professional in the field of robotics and programming, who shared valuable insights and practical knowledge with our students.

Key Highlights:

1. Introduction and Welcome:

- a. The event commenced with a warm welcome and introduction of the guest speaker, Dr. Nemana Venkata Satyanarayana

2. Understanding Robotics:

- a. Dr. Nemana Venkata Satyanarayana provided a comprehensive overview of robotics, exploring its applications, current trends, and the significance of robotics in various industries.

3. Programming for Robotics:

- a. The heart of the lecture focused on practical tips for writing code in the context of robotics projects. Dr. Nemana Venkata Satyanarayana delved into key programming concepts relevant to robotics applications.

4. In our pursuit of fostering technological expertise and innovation, our students have the exciting opportunity to delve into the realm of embedded real-time systems, ultimately leading to the fascinating field of robotics. By engaging in the development of real-time controllers, students can lay the foundation for their journey into robotics, gaining valuable expertise to become embedded systems engineers and proficient programmers. To facilitate hands-on learning, I am committed to providing funding for one kit and prototyping it for functionality. This initiative empowers students to explore and experiment independently. For additional assistance, feel free to reach out, although it is advisable to utilise Google search for swift and comprehensive learning. Further details about the hardware lab can be found at <https://www.vectorindia.org/hardwarelab.html>.

GOVERNMENT DEGREE COLLEGE (MEN)

ACCREDITED BY NAAC WITH B++ (CGPA 2.90)

ph: 08942 222383 e-mail: info@gdcsmkim.ac.in website: https://www.gdcsmkim.ac.in

5. Additionally, for those interested in AI/ML (Artificial Intelligence with Machine Learning) and Python coding and development, the platform chatgpt.com offers an accessible starting point. To initiate AI/ML development, login to chatgpt.com using your personal Gmail account, where you can generate Python code for various applications. Be cautious, as initial requests are free, and subsequent requests incur charges. To access a free educational login account, coordinate with the principal to demonstrate non-profit educational status. Utilising Kaggle.org, download the latest open-source Python code with test data to practise AI/ML models such as movie ratings using classifiers and sentiment analysis.
6. Install Anaconda on both Windows and Linux, along with Python3, Jupyter Notebook, and commence coding in simple Python. Gradually familiarise yourself with NLP toolkit Pandas, etc., by conducting online searches. For comprehensive understanding, it is advisable to explore C, C++, Java, MySQL, JavaScript, and HTML. This foundational knowledge will empower students to gain hands-on training, update their resumes, and pursue IT jobs. I encourage students to prioritise this foundational learning before moving on to other agendas, as it forms the basis for the SDK development environment. Furthermore, installing a variety of software tools on both Linux and Windows platforms will provide students with a diverse skill set. Let's collectively contribute to the growth of Srikakulam in the rapidly evolving IT landscape, ensuring that it secures a significant share of success in the broader IT industry. I am optimistic about witnessing the swift progress of Srikakulam in the booming IT sector and its contribution to the overall success of IT careers. For any queries, Mr. Srikar, an expert in AI/ML working in the USA, has been included in this group and can provide additional insights and answers to your questions.

Feedback:

Initial feedback from attendees has been overwhelmingly positive, with students expressing appreciation for the practical insights gained during the lecture. The interactive nature of the event facilitated a dynamic learning experience for all participants.

DEPARTMENT OF PHYSICS

FEEDBACK FORM

GUEST LECTURE ON 21/11/2023

1. Name of the Student : N. Mamatha
2. Class : B.sc [MPes] V Sem
3. Did the Guest Lecture fulfil its objective : Yes
4. Were the concepts explained in Guest Lecture useful : Yes, It is useful
5. The instructor explained the topic clearly and used relevant examples : Yes, the concept about coding and developing our skills.
6. The lecture was interactive and felt engaged : Yes, this is interactive.
7. Speaker positively influenced my view towards the topic : Yes, we learnt about the career opportunity of coding.
8. Overall Rating of the guest lecture : Very Good.
9. Suggestions if any : To development goal to future.
10. Signature of the Student : N. Mamatha.
