REQUEST LETTER

From
Dr. Y. POLI NAIDU,
Incharge of Zoology,
Govt. Degree College For Men,
Srikakulam.

To
Dr. P. Surekha,
Principal,
Govt. Degree College For Men,
Srikakulam.

Subject: Request to Conduct Capacity Building Program on Health and hygiene 07 days from 02.01.2023 to 09.01.2023.

Respected Madam,,

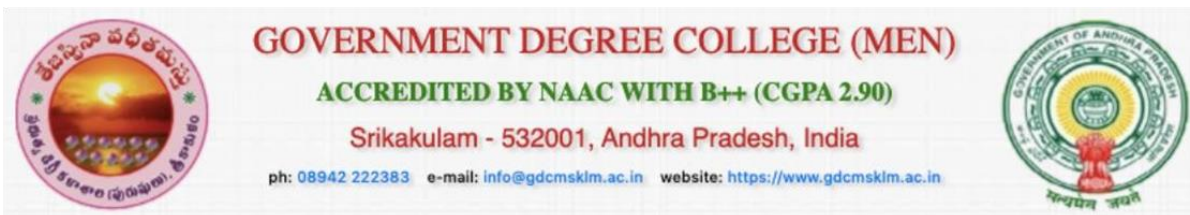

I am writing to request your approval to conduct a Capacity Building on Health and hygiene 07 days from 02.01.2023 to 09.01.2023. This program aims to enhance their understanding and best hygiene etiquettes in our Zoology students. The program will contribute to raise awareness and promote hygiene practices within student communities, leading to a reduction in the incidence of preventable diseases. We believe this initiative will greatly benefit our students and contribute to their academic growth in addition to health benefits.

Thank you for considering our request.

Sincerely,

Incharge, Department of Zoology

Capt. Dr. Y. POLI NAIDU
M.Sc, Ph.D

Report of the Program

The significance of health hygiene cannot be overstated, especially in preventing the spread of diseases and promoting overall well-being. This report provides an overview of a capacity-building initiative aimed at enhancing knowledge and skills in health hygiene practices.

Objective: The primary objective of the capacity-building program was to educate and train participants on various aspects of health hygiene, including personal hygiene, sanitation, infection control, and public health measures.

Conducted a thorough needs assessment to identify gaps and challenges in health hygiene practices. Developed a comprehensive curriculum covering key topics such as hand hygiene, food safety, waste management, and environmental sanitation. Incorporated interactive learning methodologies including group discussions, role plays, and demonstrations to ensure active engagement and knowledge retention. Conducted pre and post-training assessments to measure the effectiveness of the program.

Participants: The capacity-building program targeted 'Students from Rural background'

Syllabus/Topics covered : Personal Hygiene: Emphasized the importance of regular handwashing, oral hygiene, and personal grooming practices by Dr.Y.POLI NAIDU Lecturer in Zoology, Environmental Hygiene: Highlighted the significance of maintaining clean surroundings, proper waste disposal, and sanitation facilities by Sri S.RAVI BABU Lecturer in zoology Infection Control: Provided insights into infection prevention measures, including the use of personal protective equipment and disinfection protocols by Smt. V.HARATHI and Behavioral Change: Promoted behavior change strategies to encourage adoption of healthy hygiene practices at individual and community levels by Dr.Y.POLI NAIDU Lecturer in Zoology.

Outcomes: Increased Knowledge: Participants demonstrated a significant improvement in understanding health hygiene concepts and practices.

Improved Skills: Participants acquired practical skills in handwashing techniques, sanitation management, and infection control measures.

Behavioral Change: Observations indicated a positive shift in behavior towards adopting healthier hygiene habits. The program contributed to raising awareness and promoting hygiene practices within communities, leading to a reduction in the incidence of preventable diseases. Encourage research and innovation to develop effective and sustainable solutions for improving health hygiene.

It has made significant strides in enhancing knowledge, skills, and awareness among participants. However, continued efforts and collaboration are essential to sustain these gains and address persisting challenges in promoting healthy hygiene practices.

We extend our gratitude to all the participants, trainers, and stakeholders who contributed to the success of this capacity-building initiative. This report serves as a testament to the importance of investing in

health hygiene education and underscores the collective responsibility in safeguarding public health through proactive measures and sustained action.
