PGCET-BOTANY

Plant Taxonomy - Practice bits-1

 Who is considered as "Father of Plant Taxonomy"? A) Bentham & Hooker B) AP de Candolle C) Linnaeus D) Engler The term "Taxonomy" was coined by A) Gaspard Bauhin B) AP de Candolle C) Linnaeus D) Turril Who coined the terms "Alpha, Beta, Gamma Taxonomy? A) Gaspard Bauhin B) AP de Candolle C) Linnaeus D) Turril Which type of Orthostichy is found in Annonaceae? A) Distchous B) Tristichous C) Polysichous D) None of these Which type of fruit is found in Annonaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these Which type of flower is found in Annonaceae? A) Callular B) Nuclear C) Helobial D) Ruminate Which type of placentation is found in Annonaceae? A) Cyclic B) Acyclic C) Helobial D) Ruminate Which type of placentation is found in Annonaceae? A) Cyclic B) Acyclic C) Helobial D) Parietal Which type of placentation is found in Annonaceae? A) Arailel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous Which type of placentation is found in Cucurbitaceae? A) Avaia B) Basal C) Marginal D) Parietal Which type of fuits found in mot of the Cucurbits? A) Pore B) Berry C) Hesperidium D) Papietal Which type of folicension of Stamens is found in Cucurbitaceae? A) Avaia B) Basal C) Marginal D) Parietal Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous B, Sargenecious C) Synandrous D) Polyadelphous <	
 The term "Taxonomy" was coined by A) Gaspard Bauhin B) AP de Candolle C) Linnaeus D) Turril Who coined the terms "Alpha, Beta, Gamma Taxonomy? A) Gaspard Bauhin B) AP de Candolle C) Linnaeus D) Turril Which type of Orthostichy is found in Annonaceae? A) Distichous B) Tristichous C) Polystchous D) None of these Which type of flower is found in Annonaceaer from the following? A) Multiple fruit B) Compound fruit C) Aggregate fruit D) Composite fruit Which type of flower is found in Annonaceaer from the following? A) Eqludar B) Nuclear C) Helobial D) Ruminate Which type of Endosperm is found in Annonaceae? A) Celular B) Nuclear C) Helobial D) Ruminate Which type of Endosperm is found in Annonaceae? A) Cyclic B) Acyclic C) Hemicyclic D) Spiral Which type of placentation is found in Annonaceae? A) Cyclic B) Acyclic C) Hemicyclic D) Spiral Which type of placentation is found in Annonaceae? A) Paraitel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous Which type of flower is found in Cucurbitaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these Which type of flower is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal Which type of fut is found in tot the Cucurbita? A) Pome B) Berry C) Hesperidium D) Pepo Which type of Sumens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous Bayaf florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these Homa my petals are reduced in ray florets? A) Achene B) Siliqua C) Cypsela D) Silicula The hair rike persistent calyx found in Asteraceae? A) Achene	1. Who is considered as "Father of Plant Taxonomy"?
 A) Gaspard Bauhin B) AP de Candolle C) Linnaeus D) Turril 3. Who coined the terms "Alpha, Beta, Gamma Taxonomy? A) Gaspard Bauhin B) AP de Candolle C) Linnaeus D) Turril 4. Which type of Orthostichy is found in Annonaceae? A) Distichous B) Tristichous C) Polystichous D) None of these 5. Which type of fruit is found in Annonaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 7. Which type of Endosperm is found in Annonaceae? A) Epigynous B) Hypogynous C) Perigynous D) None of these 7. Which type of Endosperm is found in Annonaceae? A) Cyclic B) Acyclic C) Hemicyclic D) Spiral 9. Which type of flower based on arrangement of floral parts is found in Annonaceae? A) Cyclic B) Acyclic C) Hemicyclic D) Spiral 9. Which type of flower based on arrangement of floral parts is found in Annonaceae? A) Cyclic B) Acyclic C) Hemicyclic D) Spiral 9. Which type of placentation is found in Annonaceae? A) Axial B) Basal C) Marginal D) Parietal 10. Which type of flower is found in Cucurbitaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of flucentation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of flucentation is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Axial B) Basal C) Marginal D) Parietal 17. Which type of Cohesion of Stamens is found in Asteraceae? A) Axia B) Basal C) Marginal D) Parietal 18. Which type of fluce is found in Asteraceae? A) Axia B) Basal C) Marginal D) Parietal 19. Which type of placentation is found in Asteraceae? <li< td=""><td>A) Bentham & Hooker B) AP de Candolle C) Linnaeus D) Engler</td></li<>	A) Bentham & Hooker B) AP de Candolle C) Linnaeus D) Engler
 3. Who coined the terms "Alpha, Beta, Gamma Taxonomy? A) Gaspard Bauhin B) AP de Candolle C) Linnaeus D) Turril 4. Which type of Orthostichy is found in Annonaceae? A) Distichous B) Tristichous C) Polystichous D) None of these 5. Which type of flower is found in Annonaceae from the following? A) Edity of Endosperm is found in Annonaceae? A) Cellular B) Nuclear C) Perigynous D) None of these 7. Which type of Endosperm is found in Annonaceae? A) Cellular B) Nuclear C) Helobial D) Ruminate 8. Which type of Blower based on arrangement of floral parts is found in Annonaceae? A) Cellular B) Nuclear C) Helobial D) Ruminate 8. Which type of placentation is found in Annonaceae? A) Cyclic B) Acyclic C) Hemicyclic D) Spiral 9. Which type of flower is found in Annonaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of flower is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 10. Which type of flower is found in Cucurbitaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of flower is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Nonadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Inisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) Axial B) Basal C) Marginal D) Parietal 17. Which type of Cohesion of Stamens is found in Asteraceae? A) Anonadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Oroma B) Marcescent C) Accrescent D) Papus 20. Which type of flower is found in Asteraceae? A)	2. The term "Taxonomy" was coined by
 A) Gaspard Bauhin B) AP de Candolle C) Linnaeus D) Turril 4. Which type of Orthostichy is found in Annonaceae? A) Distichous B) Tristichous C) Polysitchous D) None of these 5. Which type of fruit is found in Annonaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 7. Which type of flower is found in Annonaceae? A) Cellular B) Nuclear C) Helobial D) Ruminate 8. Which type of flower act C) Helobial D) Ruminate 8. Which type of flower act C) Helobial D) Ruminate 8. Which type of plower based on arrangement of floral parts is found in Annonaceae? A) Cyclic B) Acyclic C) Hemicyclic D) Spiral 9. Which type of placentation is found in Annonaceae? A) Axial B) Basal C) Marginal D) Parietal 10. Which monocot feature is found in Annonaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of flower is found in Cucurbitaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 12. Which type of placentation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of flowing flower is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) Axial B) Basal C) Marginal D) Parietal 17. Which type of furit is found in Asteraceae? A) Axial B) Basal C) Marginal D) Papus 20. Com B) Marcescent C) Accrescent D) Papus 21. Which type of furit is found in Asteraceae? A) Achene B) Siliqua C) Cyspela D) Silicula 18. Which type of Jass C) Arginal D) Parietal 21. Which type of Jass C) Accrescent D) Papus 22. Which type of Jass C) Accrescent D) P	A) Gaspard Bauhin B) AP de Candolle C) Linnaeus D) Turril
 4. Which type of Orthostichy is found in Annonaceae? A) Distichous B) Tristichous C) Polystichous D) None of these 5. Which type of fruit is found in Annonaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 7. Which type of Endosperm is found in Annonaceae? A) Cellular B) Nuclear C) Helobial D) Ruminate 8. Which type of flower based on arrangement of floral parts is found in Annonaceae? A) Cyclic B) Acyclic C) Hemicyclic D) Spiral 9. Which type of placentation is found in Annonaceae? A) Cyclic B) Acyclic C) Hemicyclic D) Spiral 9. Which type of placentation is found in Annonaceae? A) Ayaia B) Basal C) Marginal D) Parietal 10. Which monocot feature is found in Annonaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of placentation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of placentation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 14. Which type of Chesion of Stamens is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of Chesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) Axial B) Basal C) Marginal D) Parietal 17. Which type of Chesion of Stamens is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 20. Which type of Juarcest C) Acc	3. Who coined the terms "Alpha, Beta, Gamma Taxonomy?
 A) Distichous B) Tristichous C) Polystichous D) None of these S. Which type of fruit is found in Annona species? A) Multiple fruit B) Compound fruit C) Aggregate fruit D) Composite fruit 6. Which type of flower is found in Annonaceae from the following? A) Egligynous B) Hypogynous C) Perigynous D) None of these 7. Which type of Endosperm is found in Annonaceae? A) Cellular B) Nuclear C) Helobial D) Ruminate 8. Which type of placentation is found in Annonaceae? A) Cyclic B) Acyclic C) Hemicyclic D) Spiral 9. Which type of placentation is found in Annonaceae? A) Axial B) Basal C) Marginal D) Parietal 10. Which type of flower is found in Annonaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of placentation is found in Cucurbitaceae from the following? A) Egigynous B) Hypogynous C) Perigynous D) None of these 12. Which type of placentation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of flower is found in most of the Cucurbits? A) Pome B) Berry C) Hesperidium D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteracea are A) Unisexual B) Incomplet C) Zygomorphic D) All of these 15. How many petals are reduced in ray florets? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 20. Which type of flower broud is found in Asteraceae? A) Achene B) Marcentar bis found in Asteraceae? A) Axial B) Basal C) Marginal D) Papus 20. Which type of flower so flower si found in Asteraceae? A) Axial B) Basal C) Marg	A) Gaspard Bauhin B) AP de Candolle C) Linnaeus D) Turril
 5. Which type of fruit is found in Annona species? A) Multiple fruit B) Compound fruit C) Aggregate fruit D) Composite fruit 6. Which type of flower is found in Annonaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 7. Which type of flower based on arrangement of floral parts is found in Annonaceae? A) Cellular B) Nuclear C) Henoixoli D) Ruminate 8. Which type of flower based on arrangement of floral parts is found in Annonaceae? A) Cyclic B) Acyclic C) Hemicyclic D) Spiral 9. Which type of placentation is found in Annonaceae? A) Axial B) Basal C) Marginal D) Parietal 10. Which monocot feature is found in Annonaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of flower is found in Cucurbitaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 12. Which type of flower is found in most of the Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of Chesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calky found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calky found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 20. Which type of placentation is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calky found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 20. Which type of flacentation is found in Asteraceae? A) Axial B) Bas	4. Which type of Orthostichy is found in Annonaceae?
 A) Multiple fruit B) Compound fruit C) Aggregate fruit D) Composite fruit 6. Which type of flower is found in Annonaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 7. Which type of Endosperm is found in Annonaceae? A) Cellular B) Nuclear C) Helobial D) Ruminate 8. Which type of flower based on arrangement of floral parts is found in Annonaceae? A) Cyclic B) Acyclic C) Henicyclic D) Spiral 9. Which type of placentation is found in Annonaceae? A) Avial B) Basal C) Marginal D) Parietal 10. Which type of flower is found in Annonaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of flower is found in Cucurbitaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 12. Which type of flower tation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of foruit is found in most of the Cucurbits? A) Pome B) Berry C) Hesperidium D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of flacentation is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent Calva found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Papus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of flower budges to Steraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Aggretum 22. Which type of flower is found in Asteraceae? <l< td=""><td>A) Distichous B) Tristichous C) Polystichous D) None of these</td></l<>	A) Distichous B) Tristichous C) Polystichous D) None of these
 6. Which type of flower is found in Annonaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 7. Which type of Endosperm is found in Annonaceae? A) Cellular B) Nuclear C) Helobial D) Ruminate 8. Which type of flower based on arrangement of floral parts is found in Annonaceae? A) Cellular B) Nuclear C) Henricyclic D) Spiral 9. Which type of placentation is found in Annonaceae? A) Axial B) Basal C) Marginal D) Parietal 10. Which monocot feature is found in Annonaceae? A) Axial B) Basal C) Marginal D) Parietal 10. Which type of flower is found in Cucurbitaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 11. Which type of flower to found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Perietal 13. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplet C) Zygomorphic D) All of these 15. Ray florets of futit is found in Asteraceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of future is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The fair like persistent calyx found in Asteraceae is A) Coma<	
 A) Epigynous B) Hypogynous C) Perigynous D) None of these 7. Which type of Endosperm is found in Annonaceae? A) Cellular B) Nuclear C) Helobial D) Ruminate 8. Which type of flower based on arrangement of floral parts is found in Annonaceae? A) Cyclic B) Acyclic C) Hemicyclic D) Spiral 9. Which type of placentation is found in Annonaceae? A) Axial B) Basal C) Marginal D) Parietal 10. Which monocot feature is found in Annonaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of placentation is found in Cucurbitaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 12. Which type of placentation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of fourit is found in most of the Cucurbits? A) Pome B) Berry C) Hesperidium D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of fruit is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae? A) Achene B) Marcescent C) Accrescent D) Papus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Jacentation is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 23. The hair like persistent calyx found in Asteraceae? A) Achene B) Marcescent C) Accrescent D) Papus 20. Which type of Jacentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Jacentation is found in Asteraceae? A) Axial B) Basal C) Margin	
 7. Which type of Endosperm is found in Annonaceae? A) Cellular B) Nuclear C) Helobial D) Ruminate 8. Which type of flower based on arrangement of floral parts is found in Annonaceae? A) Cyclic B) Acyclic C) Hemicyclic D) Spiral 9. Which type of placentation is found in Annonaceae? A) Axial B) Basal C) Marginal D) Parietal 10. Which monocot feature is found in Annonaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of flower is found in Cucurbitaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 12. Which type of placentation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of fruit is found in most of the Cucurbits? A) Porme B) Berry C) Hesperidium D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of Cohesion of Stamens is found in Asteraceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of fuuit is found in Asteraceae? A) Acnoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 19. The hair like persistent calyx found in Asteraceae? A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Acnphivasal B) Amphicribal C) Amphiphiloic D) Bicolleteral 21. Which type of florescence is found in Asteraceae? A) Amphivasal B) Amphicribal C) Amphiphiloic D) Bicolleteral 22. Which type of florescence is found in Asteraceae? A) Amphivasal B) Amphicribal C) Arettaceae? A)	
 A) Cellular B) Nuclear C) Helobial D) Ruminate 8. Which type of flower based on arrangement of floral parts is found in Annonaceae? A) Cyclic B) Acyclic C) Hemicyclic D) Spiral 9. Which type of placentation is found in Annonaceae? A) Axial B) Basal C) Marginal D) Parietal 10. Which monocot feature is found in Annonaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of flower is found in Cucurbitaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 12. Which type of placentation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of fuit is found in most of the Cucurbits? A) Axial B) Basal C) Marginal D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of flocension of Stamens is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae? A) Achene B) Siliqua C) Acrescent D) Papus 20. Which type of Vascular bundles are found in steraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of flowers is found in Asteraceae? A) Achene B) Siliqua C) Arerscent D) Papus 20. Which type of Jacentation is found in Asteraceae? A) Achene B) Silig	
 8. Which type of flower based on arrangement of floral parts is found in Annonaceae? A) Cyclic B) Acyclic C) Hemicyclic D) Spiral 9. Which type of placentation is found in Annonaceae? A) Axial B) Basal C) Marginal D) Parietal 10. Which monocot feature is found in Annonaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of flower is found in Cucurbitaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 12. Which type of placentation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of fruit is found in most of the Cucurbits? A) Pome B) Berry C) Hesperidium D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of fourit is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae? A) Achene B) Amrcescent C) Accrescent D) Papus 20. Which type of Vascular bundles are found in steraceae? A) Amphivasal B) Amphicribal C) Amphiphiolic D) Bicolleteral 21. Which type of inflorescence is found in Asteraceae? A) Amphivasal B) Amphicribal C) Amphiphiolic D) Bicolleteral 22. Which type of florescence is found in Asteraceae? A) Amphivasal B) Amphicribal C) Amphiphioli	
 A) Cyclic B) Acyclic C) Hemicyclic D) Spiral 9. Which type of placentation is found in Annonaceae? A) Axial B) Basal C) Marginal D) Parietal 10. Which monocot feature is found in Annonaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of flower is found in Cucurbitaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 12. Which type of placentation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of fruit is found in most of the Cucurbits? A) Pome B) Berry C) Hesperidium D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of fruit is found in Asteraceae? A) Achene B) Sliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Papus 20. Which type of Vascular bundles are found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 22. Which type of Jacentation is found in Asteraceae? A) Axial B) Basal C) Arginal D) Parietal 23. Which type of Jacentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 24. Which type of Inflorescence is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 23. Which type of inflorescence is found in Asteraceae? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 23. Which type of inflorescence is found in	
 9. Which type of placentation is found in Annonaceae? A) Axial B) Basal C) Marginal D) Parietal 10. Which monocot feature is found in Annonaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of flower is found in Cucurbitaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 12. Which type of flower is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of fuit is found in most of the Cucurbitaceae? A) Axial B) Basal C) Marginal D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of fruit is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of Vascular bundles are found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 22. Which type of Vascular bundles are found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 23. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphicic D) Bicolleteral 23. Which type of inflorescence is found in Asteraceae? A) Amphivasal B) Amphicribal C) Antholium D) Algerotum 23. Which type of inflorescence is foun	
 A) Axial B) Basal C) Marginal D) Parietal 10. Which monocot feature is found in Annonaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of flower is found in Cucurbitaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 12. Which type of placentation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of fruit is found in most of the Cucurbits? A) Pome B) Berry C) Hesperidium D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of fouties of Stamens is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persitent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of Vascular bundles are found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 22. Which type of Indicentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 23. Which type of Vascular bundles are found in terms of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 23. Which type of inflorescence is found in Asteraceae? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae? A) Head B) C	
 10. Which monocot feature is found in Annonaceae? A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of flower is found in Cucurbitaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 12. Which type of placentation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of fruit is found in most of the Cucurbits? A) Pome B) Berry C) Hesperidium D) Pepo 14. Which type of Chesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of fruit is found in Asteraceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of fruit is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of Vascular bundles are found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Jacentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 22. Which type of Indicention is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 23. Which type of inflorescence is found in Asteraceae? A) Amphivasal B) Amphicribal C) Amphipholic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of flower is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae? <	
 A) Parallel venation B) Fibrous root system C) Trimerous flowers D) Monocotyledonous 11. Which type of flower is found in Cucurbitaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 12. Which type of placentation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of fruit is found in most of the Cucurbits? A) Pome B) Berry C) Hesperidium D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of Cohesion of Stamens is found in Asteraceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of Cohesion of Stamens is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of Vascular bundles are found in stems of Cucurbits? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of inforescence is found in Asteraceae? A) Axial B) Basal C) Amphipholic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of filower is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) Algeratum 	
 Which type of flower is found in Cucurbitaceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these Which type of placentation is found in Cucurbitaceae? A) Axia B) Basal C) Marginal D) Parietal Which type of fruit is found in most of the Cucurbits? A) Pome B) Berry C) Hesperidium D) Pepo Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous Tay florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 Which type of fouries is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Acrescent D) Parietal Which type of Vascular bundles are found in stems of Cucurbits? A) Achene B) Basal C) Marginal D) Parietal 	
 A) Epigynous B) Hypogynous C) Perigynous D) None of these 12. Which type of placentation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of fruit is found in most of the Cucurbits? A) Pome B) Berry C) Hesperidium D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of Cohesion of Stamens is found in Asteraceae? A) Anoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of fruit is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calvx found in Asteraceae is A) Coma B) Marcescent C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of flower is found in Asteraceae? A) Head B) Capitulum C) Amphiphloic D) Bicolleteral 23. Which type of flower is found in Asteraceae? A) Head B) Capitulum C) Amphiphloic D) Bicolleteral 24. Which	
 12. Which type of placentation is found in Cucurbitaceae? A) Axial B) Basal C) Marginal D) Parietal 13. Which type of fruit is found in most of the Cucurbits? A) Pome B) Berry C) Hesperidium D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of Cohesion of Stamens is found in Asteraceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of furit is found in Asteraceae? A) Achene B) Sliqua C) Cypsela D) Slicula 19. The hair like persistent calyx found in Asteraceae is A) Achene B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of flower is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae? A) Head B) Capitulum	
 A) Axial B) Basal C) Marginal D) Parietal 13. Which type of fruit is found in most of the Cucurbits? A) Pome B) Berry C) Hesperidium D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of Cohesion of Stamens is found in Asteraceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of Cohesion of Stamens is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in istems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which type of inflorescence is found in Asteraceae? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 23. Which type of inflorescence is found in Asteraceae? A) Arenonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of flower is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae? A) Head B) Capitulum C) Parthenium D) All of these 	
 13. Which type of fruit is found in most of the Cucurbits? A) Pome B) Berry C) Hesperidium D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of Cohesion of Stamens is found in Asteraceae? A) An monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of fruit is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphiloic D) Bicolleteral 22. Which type of inflorescence is found in Asteraceae? A) Active B) C) Parthenium D) Ageratum 23. Which type of finderscence is found in Asteraceae? A) Amphivasal B) Amphicribal C) Parthenium D Ageratum 24. Which type of inflorescence is found in Asteraceae? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of flower is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 25. Compound head is found in 	
 A) Pome B) Berry C) Hesperidium D) Pepo 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of Cohesion of Stamens is found in Asteraceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of fruit is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 	
 14. Which type of Cohesion of Stamens is found in Cucurbitaceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of Cohesion of Stamens is found in Asteraceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of fruit is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Jactuar bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which type of inflorescence is found in Asteraceae? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of flower is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 25. Compound head is found in 	
 A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of Cohesion of Stamens is found in Asteraceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of fruit is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of flower is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 	
 15. Ray florets of Asteraceae are A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of Cohesion of Stamens is found in Asteraceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of fruit is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of flower is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 	
 A) Unisexual B) Incomplete C) Zygomorphic D) All of these 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of Cohesion of Stamens is found in Asteraceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of fruit is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 	
 16. How many petals are reduced in ray florets? A) 1 B) 2 C) 3 D) 4 17. Which type of Cohesion of Stamens is found in Asteraceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of fruit is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 	-
 17. Which type of Cohesion of Stamens is found in Asteraceae? A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of fruit is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 	16. How many petals are reduced in ray florets?
 A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous 18. Which type of fruit is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 	A) 1 B) 2 C) 3 D) 4
 18. Which type of fruit is found in Asteraceae? A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 	17. Which type of Cohesion of Stamens is found in Asteraceae?
 A) Achene B) Siliqua C) Cypsela D) Silicula 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 	A) Monoadelphous B) Syngenecious C) Synandrous D) Polyadelphous
 19. The hair like persistent calyx found in Asteraceae is A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which type of fruit is found in Asteraceae?
 A) Coma B) Marcescent C) Accrescent D) Pappus 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 	A) Achene B) Siliqua C) Cypsela D) Silicula
 20. Which type of placentation is found in Asteraceae? A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 25. Compound head is found in 	19. The hair like persistent calyx found in Asteraceae is
 A) Axial B) Basal C) Marginal D) Parietal 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 	
 21. Which type of Vascular bundles are found in stems of Cucurbits? A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 25. Compound head is found in 	
 A) Amphivasal B) Amphicribal C) Amphiphloic D) Bicolleteral 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 25. Compound head is found in 	
 22. Which exotic weed plant belongs to Asteraceae causes Asthma for Humans? A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 25. Compound head is found in 	
 A) Vernonia B) Xanthium C) Parthenium D) Ageratum 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 25. Compound head is found in 	
 23. Which type of inflorescence is found in Asteraceae? A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 25. Compound head is found in 	
 A) Head B) Capitulum C) Anthodium D) All of these 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous D) None of these 25. Compound head is found in 	
 24. Which type of flower is found in Asteraceae from the following? A) Epigynous B) Hypogynous C) Perigynous C) None of these 25. Compound head is found in 	
A) Epigynous B) Hypogynous C) Perigynous D) None of these25. Compound head is found in	
25. Compound head is found in
