Instructions to Students

Please read the detailed Guidelines on Internship hosted on the website of AP State Council of Higher Education <https://apsche.ap.gov.in>

1. It is mandatory for all the students to complete 2 months (180 hours) of short-term internship either physically or virtually.
2. Every student should identify the organization for internship in consultation with the College Principal/the authorized person nominated by the Principal.
3. Report to the intern organization as per the schedule given by the College. You must make your own arrangements for transportation to reach the organization.
4. You should maintain punctuality in attending the internship. Daily attendance is compulsory.
5. You are expected to learn about the organization, policies, procedures, and processes by interacting with the people working in the organization and by consulting the supervisor attached to the interns.
6. While you are attending the internship, follow the rules and regulations of the intern organization.
7. While in the intern organization, always wear your College Identity Card.
8. If your College has a prescribed dress as uniform, wear the uniform daily, as you attend to your assigned duties.
9. You will be assigned a Faculty Guide from your College. He/She will be creating a WhatsApp group with your fellow interns. Post your daily activity done and/or any difficulty you encounter during the internship.
10. Identify five or more learning objectives in consultation with your Faculty Guide. These learning objectives can address:
 - a. Data and Information you are expected to collect about the organization and/or industry.
 - b. Job Skills you are expected to acquire.
 - c. Development of professional competencies that lead to future career success.
11. Practice professional communication skills with team members, co-interns, and your supervisor. This includes expressing thoughts and ideas effectively through oral, written, and non-verbal communication, and utilizing listening skills.
12. Be aware of the communication culture in your work environment. Follow up and communicate regularly with your supervisor to provide updates on your progress with work assignments.

13. Never be hesitant to ask questions to make sure you fully understand what you need to do your work and to contribute to the organization.
14. Be regular in filling up your Program Book. It shall be filled up in your own handwriting. Add additional sheets wherever necessary.
15. At the end of internship, you shall be evaluated by your Supervisor of the intern organization.
16. There shall also be evaluation at the end of the internship by the Faculty Guide and the Principal.
17. Do not meddle with the instruments/equipment you work with.
18. Ensure that you do not cause any disturbance to the regular activities of the intern organization.
19. Be cordial but not too intimate with the employees of the intern organization and your fellow interns.
20. You should understand that during the internship programme, you are the ambassador of your College, and your behavior during the internship programme is of utmost importance.
21. If you are involved in any discipline related issues, you will be withdrawn from the internship programme immediately and disciplinary action shall be initiated.
22. Do not forget to keep up your family pride and prestige of your College.

Acknowledgements

This school internship report is the result of an end a way two pm four months it would not have been possible without the participation assistance of numerous brave and courageous people along the way. This I have to thank them all.

First and foremost I would like to give special gratitude to my parents who gave me an opportunity to keep my step ahead.

I am indebted to my college teachers and the Principal for their vision, encouragement and enclosing rigorous interest in the internship.

I extended my gratitude to my classmates and specially to our group members with whom I started our my duck days together we started our academic and social problems.

Special thank must be given to the teachers and students of mpaps school of ~~madde~~ ^{navidi valasa} ~~puttuga~~ in their feed back, love and support with which i achieved skills and development. Last and most importantly. I would like all those who made this report possible and home a great with their kind assistance.

Contents

chapter - 1 :- Executive summary

chapter - 2 :- overview of the organization

chapter - 3 :- Internship Post

chapter - 4 :- Weekly report and activity log

* Activity log for week - 1 and weekly report

* Activity log for week - 2 and weekly report

* Activity log for week - 3 and weekly report

* Activity log for week - 4 and weekly report

* Activity log for week - 5 and weekly report

* Activity log for week - 6 and weekly report

chapter - 5 :- outcomes description

* Describe the creative technical skills you have

* Describe the managerial skill you have acquired

- * Describe how you could improve your communication skills.
- * Describe how you could enhance your abilities
- * Describe the technological development you have observed and relevant to the subject area of training.

CHAPTER 1: EXECUTIVE SUMMARY

The internship report shall have only a one-page executive summary. It shall include five or more Learning Objectives and Outcomes achieved, a brief description of the sector of business and intern organization and summary of all the activities done by the intern during the period.

I worked in the internship in the department education. I visited the place is Apaps school of mandi valasa street, Srikakulam. I choose education development to know the current status of the education and difference forms past few years. I spent a day with idren and. I learn & observed many things.

The introduction is very friendly and very suitable through this internship. I know that there are ve other decided areas which has to be improved. I interacted with the children and left them to know their problems and what they are facing through. I thought some reasons

to them and i gave few suggestions to improve them
which should be done by government there are me other
decided areas which has to be improved.

CHAPTER 2: OVERVIEW OF THE ORGANIZATION

Suggestive contents

- A. Introduction of the Organization
- B. Vision, Mission, and Values of the Organization
- C. Policy of the Organization, in relation to the intern role
- D. Organizational Structure
- E. Roles and responsibilities of the employees in which the intern is placed.
- F. Performance of the Organization in terms of turnover, profits, market reach and market value.
- G. Future Plans of the Organization.

Introduction to education means to ensure the highest levels of academic achievement for all students and it helps students develop a positive self-concept by providing knowledge about various dimensions of teaching. To provide affordable quality education, while equipping students with knowledge and skills in their chosen stream, identify hidden talents, provide opportunity for students.

Depending upon their placement & program they perform various tasks from shadowing staff to administrative assistance to taking in depth projects with fellow intern in government they provide mid-day meal system without partiality

Between the students and faculty provide the school uniform, shoes, books and bag and improve the education system in india it is a future plan/road of educational organization.

The woman capital perspective suggest a that turnover negatively affects organizational performance because of a loss of organizational memory as well as a loss of the knowledge, skill and abilities that employees have developed through experience.

Education marketing is a type of marketing that promotes valuable educational content & help institution and individual take advantage of it. Our educational world has been reshaped in the after the problems. For so many these changes will see for a longtime. many educators have continued to use apps to supplement in classroom learning as well increase the reach of apps to the students, teachers, and families for digital learning solutions.

CHAPTER 3: INTERNSHIP PART

Description of the Activities/Responsibilities in the Intern Organization during Internship, which shall include - details of working conditions, weekly work schedule, equipment used, and tasks performed. This part could end by reflecting on what kind of skills the intern acquired.

An internship is a period of the work experience offered by an educational organization for a limited period of time. Internship is used to practice for a wide range of developing skills. Internship for professional career are similar in some work. Similar to internship, apprenticeship transition students from mhrs school into the work force.

An internship consists of an exchange of service for experience between the intern and the organization. Internship is used to gain real life experience. Internship provide current colleges students with the ability to participate in a field of their choice to receive hands on learning about a particular future career preparing them for full time work and the purpose of internship is to provide the students.

With the knowledge and experience that will enable to teach and service effectively in the public schools.

Students are expected to contribute to day to day work at the organization possible internship activities include attending departmental meetings assisting a colleague with relevant talks training is based on improving the skills and knowledge of the trainee where as internship is more focused on letting the person gain practical knowledge about the field.

Practical work related to a student's field of study or career interest. An internship gives a student the opportunity for career exploration and development, and to learn new skills and interim gain practical & technical knowledge.

measurable observable specific statements that clearly indicate
I conduct formative test on 2nd class. Students require to learn
everything understand every concept I conduct formative test on 1st
and 2nd class. Exam help convincing the person of institution
in evaluating of the proficiency.

CHAPTER 5: OUTCOMES DESCRIPTION

Describe the work environment you have experienced (in terms of people interactions, facilities available and maintenance, clarity of job roles, protocols, procedures, processes, discipline, time management, harmonious relationships, socialization, mutual support and teamwork, motivation, space and ventilation, etc.)

In my internship i expose career after natives prior to graduations and integrate theory and practice. access interests and abilities in their field of study. learn to appreciate work and its function in the economy and it develops work habits and attitudes necessary for job success and develop the communication, interpersonal & develop the critical skills in the job interview process.

Build a record of work experience acquire employment contacts leading direct by to all time job following graduation from college and develop work habits and attitudes necessary for job success purpose fully reflect upon their experiences, identify goals, develop strategies and determine further actions for personal growth explore new possibilities embrace new challenges and adopt new roles.

Internship help students master professional soft skills such as communication, punctuality and time management. These are skills that are key for success at a job and college and are highly sought after by us focus on teaching not just specialist knowledge, but also the skills needed to embrace change and solve tomorrow's challenges. That's why practical experience, like an internship is incorporated into every degree. Internship offer students the chance to put what they are learning into action, in real world environment for student who are great! you will have a much clearer idea of your own strengths, weaknesses, likes and dislikes.

Describe the managerial skills you have acquired (in terms of planning, leadership, team work, behaviour, workmanship, productive use of time, weekly improvement in competencies, goal setting, decision making, performance analysis, etc).

Students and supervisors also stated each individual soft skills significantly higher at the end of the internship compared to the beginning of the internship. The largest differences between Pre-internship and post-internship soft skills were noted in communication.

Critical Thinking and Problem Solving Skills
Internship studies will help you think critically to provide creative solutions to work challenges. This is a skill that is highly valued and emphasized. In the field of teacher education the school internship program has an important place for the development of professional skills related to teaching work in prospective teacher to get acquainted with the realities of the teaching environment. Teaching -internship some communication skills will be tested were before you receive the internship

Students interns are given a lot of tasks and goals. and information all at once and constantly during the three to six months in the position. Organizational skills "is actually an umbrella term for a group of skills that lets you use time and resource efficiently and effectively including time management, delegation, scheduling and setting goals. The decision making process identifies one or multiple possible courses of action, gathers data and potential options. Known in everyday conversation as "social skills" "people skills" interpersonal skill add upto the ability to interact with work with others.

Describe how you could improve your communication skills (in terms of improvement in oral communication, written communication, conversational abilities, confidence levels while communicating, anxiety management, understanding others, getting understood by others, extempore speech, ability to articulate the key points, closing the conversation, maintaining niceties and protocols, greeting, thanking and appreciating others, etc.,)

communication is an important skill for every modern student to master. Advances in digital media, changing career landscapes, & greater competition in college and make improving student's communication skill a must. When it comes to acquiring English conversational skills, there's no time like the present conversation is the of the most basic and essential communication skills. It enables people to share thoughts opinions and ideas & receive them in turn.

* Body language

* Eye contact

* Summarizing

* Paraphrasing

* Responding

Young students can learn the foundational elements of conversation by working from or videos of the interactions taking place.

These can be done verbally or through written assignments that give students the chance to answer questions creatively using their own words and expressions. Students are given a presentation, apply critical thinking and problem solving in constructing effective informative & persuasive messages to various internal & external groups including but not limited to employees, clients & community members. Writing skills are utilized in email communication as well as professional report writing, both of which are common in the work place. Empathy is the ability to recognize emotions in others, and to understand other people's perspective on a situation. At its most developed, empathy enables you to use that insight to empathize someone's mood and to support them through challenging situations.

Describe how could you could enhance your abilities in group discussions, participation in teams, contribution as a team member, leading a team/activity.

Not everyone is a fan of group discussions but most would agree that group communication is an important form of communication in academic, professional and social contexts. Your communication with others is the discussion and the way you define your role in the group and effect how other perceive you. I need have a voice in those meetings. Merely telling myself to be confident and to speak up is not enough.

Don't often use qualifiers such as "I think" and "I feel" in your sentences because they imply your uncertainty about what you are suggesting. Respect the contribution of other speakers. And listen well to the ideas of other speakers.

Acknowledge what you find interesting respect differing views. Think about your contribution before you speak. Remember that a discussion is not a fight.

Describe the technological developments you have observed and relevant to the subject area of training (focus on digital technologies relevant to your job role)

The government has taken a big leap in imparting technology in education system to empty digital transformations at school.

The mpps school monidi valasa uses devices in the procedure the head master updates the information of school through smart phone. They scan the faces of the students for checking every student teacher and head master at school make their attendance through for scan method.

There is a smart TV which can be used for teaching practically for students more than academic syllabus in both telugu and english mediums. when compared to previous systems that are followed in government school now the parent system followed by our school is very enhanced, upgraded and enriched in every standing.

When students used to learn, it is also recorded under head master vision and is documented. Technological tools should be a seamless in learning situations. Students would conduct a it at the school digital library it at a remote resources are needed school digital library it at a administrative records and cafeteria food requirements would be updated automatically from entry scanning systems it perhaps the attendance software on a teacher's Personal Digital assistant.

The guide uses the term Professional development to represent learning activities of all kinds for school staff that prepare them to use technology in the school setting. Professional development includes support for teachers and staff as they apply technology to their evolving practice depending on whether they helped one to learn in that context. If research were required.

Student Self Evaluation of the Short-Term Internship
