## CHAPTER 5: OUTCOMES DESCRIPTION

Describe the work environment you have experienced (in terms of people interactions, facilities available and maintenance, clarity of job roles, protocols, procedures, processes, discipline, time management, harmonious relationships, socialization, mutual support and teamwork, motivation, space and ventilation, etc.)

This short term internship is very useful & meaningful to improve our communication skills & to build friendship with the co-student. We have class room facilities in forest department. We have to attend the office from 10AM to 5PM. They conduct classes & provide not only basic knowledge but also practical knowledge which helps us to understand about the forest department.

We conduct awareness programme in villages to create awareness among villagers about the forest & its resources.

Our office helps us to gain knowledge which may help in career & future job planning in forest department.

Group discussion & team work help us to improve the communication & to enhance the stage.

Describe the real time technical skills you have acquired (in terms of the job-related skills and hands on experience)

We learned to build block hill domes with barrel concrete which can be easily constructed by unskilled labour.

We learned about data entry

We acquire knowledge in nursery management preparing nursery bed, potting, pre-treatments for seeds, preparation of primary beds.

Shifting plants into bags.

We acquire knowledge in usage of mist chamber loth houses & cooling systems

We know about different forest law and forest act that helps to protect the forest areas.

**Describe the managerial skills you have acquired (in terms of planning, leadership, team work, behaviour, workmanship, productive use of time, weekly improvement in competencies, goal setting, decision making, performance analysis, etc.**

In this project our mentor divides us  
as groups & appointed a leader for each group.  
We all attend the classes & clarify our doubts regard-  
ing the timings of our leader our leader is always  
supportive & friendly to clarify our doubts. We  
all are equally share our thoughts in group discus-  
sion.

We also give wise ideas in case of  
planning trips. We arrange our own vehicles by  
team work. We thoroughly submitted our class  
reports by teams working week by week we improve  
our communications & it helps us to become  
little more competitive in crack our goals.

This leadership helps me in good decision  
making which are acceptable by all our team mem-  
bers.

**Describe how you could improve your communication skills** (in terms of improvement in oral communication, written communication, conversational abilities, confidence levels while communicating, anxiety management, understanding others, getting understood by others, extempore speech, ability to articulate the key points, closing the conversation, maintaining niceties and protocols, greeting, thanking and appreciating others, etc.)

As I complete this internship, it helps me to improve myself in communication.

The leadership helps me to improve my oral communication which include stage fear.

It helps me to improve my writing skills.

Es grammar skills, as I have to write my own report.

This leads to friendly conversations about the classes. As a leader it helps me to control my anxiety & improves my understanding abilities & in getting understood by others.

The group discussions & debates help have to start & end a conversation with good getting & self introductions.

Describe how could you could enhance your abilities in group discussions, participation in teams, contribution as a team member, leading a team/activity.

I improved by communication abilities as a leader. Due to proper explanation & group discussions it leads to easy acceptance of my team members about my thoughts & decisions, and also they give good ideas than me. I agreed with them as it gives improves my spontaneity without any personal issues.

My team mates are always supportive & took me backwork in this successful completion of project.

I hope this leading nature helped me to manage a good ~~no~~ team in job life.

Describe the technological developments you have observed and relevant to the subject area of training (focus on digital technologies relevant to your job role)

DNA are increasingly used in forensics for surveillance & mapping.

Scientific forestry is a new development in forestry. It is the practice of conservation & management of forests based up on science & is the science of forest & plantation techniques management.

Transplantation of old trees from one place to another helps to reduce tree loss & improve the economy.
