ACKNOWLEDGEMENT

I would like to express my gratitude to all those who gave me the possibility to complete this Community Service Project. Special thanks to Mentor D.RAVINDRA sir who help me in stimulating suggestions and encouragement to complete this project.

I would like to thank all the staff from the department of Botany for their able guidance and support to complete this project

I would also like to express my gratitude to our principal madam for her tremendous support to complete this project.

CERTIFICATE

I certified that Tulagapu Amulya studying BSc Cbz group has completed and submitted the project report on "FOOD HABITS" further partial fulfillment of the requirements for the award of Bachelor of science under my supervision during the academic year 2022-2023.

INTRODUCTION

Food habits and Nutritional Problems:

Food is essential for all humans for survival. Food Habits and imbalanced intake of diet by an individual results in the malnutrition or cause of many health problems. Especially women, children and pregnant women must be always cautious to take proper food intake with essential nutrients. Because poor diet and disease are caused by food insecurity. Somet by causing diarrhoea and other illness.

There is a saying 'you are what you eat' seems to be proven true. It is important to know what food to eat in order to stay healthy. Health depends to a large extent on Nutrition and Nutrition on food we take. Hence Nutrition and Health are two sides of the same coin and food is the most important factor for health and fitness.

Healthy Food Habits:

Healthy Food habits includes a variety of foods in adequate amounts and correct proportions to meet the requirements of all essential nutrients such as proteins, carbohydrates, fats, vitamins, minerals, water and fibre. This also includes proper Schedule for the intake of light and heavy foods, when to take and when not to take, health condition of the individual. For example person who is suffering from kidney stones should not often take calcium rich foods. We have to take foods that suits our age and health. The most common eating idiosyncracies include skipping meals, consuming fast foods in a routine way, avoiding fruits, and vegetables, frequent snacking. Hence it is essential for each and every individual to adopt proper food habits.

OBJECTIVE

The aim and objective of this project is to find out in a closed community about the following food habits and to analyse whether they are adopted to healthy food habits and if not to incorporate sound eating habits by creating awareness in them to recognise good eating habits followed with regular exercise.

- About the type of foods most people are interested to take.
- Food intake in regular Time intervals.
- Main meal in view of the majority of the people.
- Whether interested to take fresh food or cooked & preserved food.
- Taking fresh fruits and vegetables.
- Sweets /junk foods.
- Whether drinking sufficient quantity of water.
- Regular weight check up.
- Monitoring individual food behaviour.
- Any form of eating disorders.
- Effect of socio-economic status on food habits.

METHODOLOGY

1. Study site :

The place selected for the project was comes under 8th ward kanimetta village,ponduru mandal and srikakulam district. Approximately 29 families were covered under this ward. This is a rural area with 75% of people were farmers. This area is used for the cultivation of rice and vegetables

2. Quantitative study :

The quantitative study of my project includes about the number of children, youngsters,elder women and men, pregnant women, people with physical and mental ailments, their food intake based on quantity per day and their food habits.

3. Qualitative study:

The qualitative study was carried out based on their cultural pattern of food habits among various socio-economic, educational and age grou

4. Data Collection :

Initially socio-economic survey and other background survey was done and the data was collected from them.

Secondly their food habits data was collected from the initially prepared questionnaire which consists of 14 questions to know about their food habits, cooking methods, storage food,time intervals followed,and how much expenditure was spent on food,in detail.

SOCIO-ECONOMIC SERVEY

AWARENESS REPORT:

PROBLEMS IDENTIFIED

- * Uneven roads in every street
- * Water problems in every Street
- * Improper drainage system

EFFECTS FACED BY PEOPLE

- * Because of having uneven roads there are so many vehicles are damaged , not only that but also oldaged people are getting hard to walk on these roads.
- * There is a need of water to everyone but in our village there are no proper gov.tap connection to each house but some are having them. Mostly people in my ward are not having gov. tap connection.
- * There are so many problems are taking place on having improper drainage system.

SUGGESTIONS

At first , I

would like to explain all about those problems and I said to them as you should complaint to the Valenteer to clear these problems and the valenteer said that all those problems will be cleared by our sarpanch and secretary.I told them that we have to maintain a proper usage of them neetly.

FOOD HABITS PROJECT SURVEY

PROJECT REPORT

I'm T.Amalya studying first Bsc Cbz group. My project is on "FOOD HABITS" that what type of food is present in regular diet, how many times they taking food, how much percentage of vegetables, fruits, sweets and meet products consists in their diet, different food items that cause food allergies. I conduct survey in our Village and ask different questions about their meal at morning, lunch and dinner. I asked their opinions about affects of healthy diet and healthy and unhealthy foods in their point of view.

CONCLUSION

I'm T.Amulya studying in B.sc first year Cbz group.I had completed the community service project on "FOOD HABITS" in our Village and submitted the report to my mentor.My project is about the food habits of our Village people.I conducted questionnaire to different age groups people about their regular diet.Most of the old aged people considered lunch as their main meal of the day. They taking food only two times per day due to digestive problems. We find out the major problem facing by our villagers and dropped the Sarpanch attention towards the problem by conducting awareness program in our Village.

It was interesting to carry out this project to know about different opinions, food habits and problems of our villagers. Finally I believe that my project is complete under vision of my mentor. thank him for his guidance and support.

.Amulya
