## CHAPTER 5: OUTCOMES DESCRIPTION

**Describe the work environment you have experienced** (in terms of people interactions, facilities available and maintenance, clarity of job roles, protocols, procedures, processes, discipline, time management, harmonious relationships, socialization, mutual support and teamwork, motivation, space and ventilation, etc.)

An internship experience may be a requirement for a variety of different college education programmes and if you've recently completed a required internship. An internship reflection can allow you to describe your unique experience and how this experience can support your academic or professional development.

\* **Avoid unnecessary details**:- Keep your reflection paper focused on the most relevant details. For instance you can include how your experience supported your skill development and confidence in your profession, but including details about how this can help you improve your relationship with distant family might not apply to your reflection.

**Conclusion**:- Conclude your reflection with an explanation of how your internship experience can contribute to and support your overall academic achievement or professional growth. I learned how to introduce myself, tasks about my interests, knowledge and skills with entrepreneurs and as well as how to ask questions and a better understanding of the purpose not only in the co-working space, but also others in the market.

**Describe the real time technical skills you have acquired (in terms of the job-related skills and hands on experience)**

Technical skills are the specialized knowledge and expertise required to perform specific tasks and use specific tools and programmes in real world situations diverse technical skills are required in just about every field and industry there are five types of technical skills.

- 1) Programming
- 2) Digital design
- 3) Marketing strategy
- 4) Copy writing
- 5) Computer programs & software.

Acquired skills are talents and expertise often obtained through education or experience. these include soft skills as communication and hard or technical skills such as computer programming

Benefits of technical skills training knowledge in power and the more your employees know. the more your business can grow. By providing technical skills, training for your employees, you're instilling self-confidence that they have the knowledge and competence to perform their daily tasks to the best of their ability.

Must be able to apply the technical knowledge and skills required in specialist and profession job role and responsible in order to achieve the expected outputs.

Describe the managerial skills you have acquired (in terms of planning, leadership, team work, behaviour, workmanship, productive use of time, weekly improvement in competencies, goal setting, decision making, performance analysis, etc.

Simply, Managerial skills are the knowledge and ability of the individuals in a managerial position to fulfil some specific management activities or tasks. This knowledge and ability can be learned and practised however, they also can be acquired through practical implementation of required activities and tasks.

Skills management is the practice of understanding, developing and deploying people and their skills well implemented skills management should identify the skills that job roles require. The skills of individual employees and any gap between the two

\* Leadership ; leadership skills are key to successful management and a great skill-set to include on your resume.

\* Delegation

\* Empathy

\* Project management

\* Communication

\* Planning

\* Negotiation

\* Good Communication having good communication skills is probably the most important skill of all for managers to have -- good organisation.

Describe how you could improve your communication skills (in terms of improvement in oral communication, written communication, conversational abilities, confidence levels while communicating, anxiety management, understanding others, getting understood by others, extempore speech, ability to articulate the key points, closing the conversation, maintaining niceties and protocols, greeting, thanking and appreciating others, etc.,)

These are specific things to do that can improve your communication skills

- \* Listen, listen and listen
- \* Who you are talking to matters
- \* Body language matters
- \* Check your message before you hit send
- \* Be brief, yet specific
- \* Write things down
- \* Sometimes it's better to pick up the phone
- \* Think before you speak

→ \* How to improve communication skills.

- 1) Practice active listening :- effective communications are always good listeners
- 2) focus on non-verbal communication
- 3) Manage your own emotions
- 4) (Manage your) Ask for feedback
- 5) Practice public speaking
- 6) Develop a filler.

Good communication skills are essential to allow others and yourself to understand information more accurately and quickly

Describe how could you could enhance your abilities in group discussions, participation in teams, contribution as a team member, leading a team/activity.

Do's:-

- 1) Respect the contribution of other speakers
- 2) Listen well to the ideas of other speakers, you will know something
- 3) Acknowledge what you find interesting
- 4) Remember that a discussion is not a fight
- 5) Respect differing views
- 6) Think about your contribution before you speak.
- 7) Try to stick to the discussion topic.

Team work only works when team members feel like they can speak openly, share ideas without getting shut down and build on those of others, make suggestions and voice their opinions make sure. Communication isn't just flowing downwards but also upwards and between team members.

The aspects which make up a GD are verbal communication, non-verbal behaviour and confirmation to norms, decision-making ability and cooperation you should try to be as close as possible to these aspects. The participating candidates will be assessed in terms of clarity of thought, expression and language.

Describe the technological developments you have observed and relevant to the subject area of training (focus on digital technologies relevant to your job role)

Technology allows you to understand how effective your training and development is by tracking employee knowledge before and after the process

The best technology tools for workforce training

- \* Learning management systems
- \* Video content creating tools
- \* Microlearning platform
- \* Content creation tools
- \* Hosted course platforms
- \* Knowledge repositories
- \* Training tools support business.

A primary benefit of technology based training is cost-effectiveness. If an organisation is required to train multiple employees technology offers unlimited options based on relatively low-cost and employee accessibility.

Example of technological change is how mobile phones have changed and evolved throughout the years the telephone

Technical skills, sometimes referred to as hard skills, involve the practical knowledge you use in order to complete tasks. Some examples of technical skills are data analysis, web development
