Both have inefficient areas in our world.
due to input of low income and technical solution communication.

Sustainable developing of drinking water
the dirty water has saturated over flowing on road then
it is flowing into the streets.

Feeds very bad and risk factor that may to spread of danger
and other health problem attacks.

Implementation of direct bore well recharge to get deep
connection as possible to improve the availability of water for drinking
work over of water and improve existing system in our world.
