Name of the College: Government Degree College (Men), Srikakulam

Registration Number: 2222001050016

Period of CSP: 1 Month From: 9/5/2023 To: 10/06/2023

Name & Address of the Community/Habitation: Walteru.

②

Community Service Project Report

Submitted in accordance with the requirement for the degree of

Name of the College: Government degree college (Men), srirakulan

Department: Physics Department.

Name of the Faculty Guide:

Duration of the CSP: From 9-5-23 To 10-6-23

Name of the Student: G. Mounika

Programme of Study

Year of Study: 2022-2025

Register Number: 2222001050016

Date of Submission:

CERTIFICATE

Certified that this project report is "water Facilities" And drinking water availability being submitted by G. Mounika in partial fulfilment of the requirements for the award of Bachelor of science in physics Department.

G.V.S Jaipal Rao Honours in the records of Bonafide work done by them under the super-vision during The academic year

Project-guide

Lecturer in
Physics department
G.V.S Jaipal Rao
GDC(M), Srikulam

Declaration

I hereby declare that the project report entitled "Community service project" on water under the guidance of M.R.G.V.S. Jyotsna Lakshmi in Physics. I collect the data from Indiraamma and Gram waterw, santhakaviti, Srihankulam. Carried out by me under the guidance of

ACKNOWLEDGEMENT

At the outset, I adore the honorable chief minister of Andhra Pradesh, Sri Y.S. Jagan Mohan Reddy who always craves for the welfare of the students of his state and who allocated a major share of the budget for education sector, and who thinks in a novel way for taking the initiative to implement the community service project.

I sincerely thank Dr. P. B. Bhasker, Commissioner of collegiate education, Andhra Pradesh for his vision in implementing the community service project (CSP) in accordance with the NEP-2020, which gives the student hands-on experience to deal with the problems that confront him in his day to day life.

I am grateful to Dr. [Name] Lecture in physics and co-ordinate of (CSP) for letting us know the importance of this project and inculcating in us the stream of social consciousness which is very essential in our

demeanour.

My gratitude is due to the in-charge of the Department of computer science Mr. B. Raghuram sir for his supervision and inspiration attitude towards the students.

I acknowledge the patience and endurance of our mentor.

I can't forget the kind pension and empathy of the sarpanch/volunteer of walteru in making me to stand before the society as a disciplined student, for which I am due to him.

Introduction of Community Service

Defining:-

Community service is work done by a person or group of people that benefits others. It is often done near the area where you live, so your own community reaps the benefits of your work. You do not get paid to perform community service, though sometimes food and small gifts like a t-shirt are given to volunteers.

Community service can help any group of people in need children, senior citizens, people with disabilities, English language learners and more. It can also help animals such as those at a shelter, and it can be used to improve places, such as local park, historical building or science area as well. Community service is often organized through a local group, such as a place of worship, school etc.

Background:-

Community service is a non-paying job performed by one person or a group of people for the benefit of their community. Community service is distinct from volunteering. Since it is not always performed for a variety of reasons.

- > It may be required by a government as a part citizenship requirement, like the mandatory "Hand and hitch-up services" for some municipalities in Germany, or generally in lieu of military service or for civil conscription services.
- > It may be mandated by schools to meet the requirements of a class, such as in the case of service learning or to meet the requirements of graduating as class valedictorian.
- > In the UK, it has been made a condition of the receipt of certain benefits.
- > In Sweden it is a suspended sentence called "samhallstjänst" ("society service").

Forms of community service

There are three types of community service and service-learning; direct in-direct and advocacy once a community need is identified, the project activities that are developed will align with one or more of the types. Below are definitions and examples.

Direct:- you can develop direct service activities where students interact with the recipients of service or the physical environment that have targeted for improvement. you and your chapter can volunteer at a food kitchen to serve community members in need. or perhaps you can work with your community senior center to create an adopt-a-grandparent program that lasts beyond FFA week.

In Direct

If you don't have the ability to come in direct contact with the beneficiaries of service you can organize an indirect

service activity where students channel resources to a problem but not interact with those being served. This can include organizing a collect food drive to donate to a food pantry in a community beautification project.

Advocacy:-

It is important to always be an advocate for the issue that inspire you during advocacy service activities, students bring awareness to an issue and inspire others to take action. Advocacy can also address the underlying causes of a social problem by attempting to influence policymakers or elected officials.

Ways to participate in community service

There are hundred of ways to participate in community service. depending on the skills and interests some common community service Examples include:

1. Working with senior citizens: visiting to every street for giving awareness of water wastage.

2. Working with school children:

Tutoring children after school, collecting plant from various place and planted in where the water is wasting more.

3. Improving the environment:

Holding a recycling contest planting trees, creating a new trail at a nature center.

4. Helping low-income people:-

passing out food at a soup kitchens
collecting used clothes to be donated. making first aid kits for homeless shelters.

COMMUNITY-BASED WATER RESOURCE MANAGEMENT

6. Develop community level water supply management system. which includes management of water resource and assets.

7. Identify community and risk countable measure to manage water resource this includes water polarization.

8. Organizing maintaining and evolution of community water supply

5. Agree upon community water usage targets and recognise community priorities

1a. Reviewers hydrological analysis of water resource and risk identification methodology.

4. Assess risk to community water resources and assets.

3. Assess the available water and resources at community level using an mapping exercise.

2. Under the community like water user stake holders analysis evolving recognised in water.

1. Identify communities overall water usage needs and priorities for water usage.

Executive Summary

Community programs can expand the opportunities for youth to acquire personal and social assets and to experience the broad range of features of positive developmental settings.

The activities I performed in the community service on socio economic survey and water facilities. and drinking water availability. the activities are of great significance as they effected the surrounding a lot it also developed a mind set of "cleaning our surroundings, helping animals and planting more and more trees" in the minds of the people who acknowledged my work.

The first I performed socio economic survey. in my village. No of family members are living, how many members are studying, genders for each person study and profession in the family members. details are collected. and ask about social details, economic status details, Health details other details.

later, ask about which type of Govt schemes like Jagananna vidhya Deevana are you received. And finally asked any problems faced in the village. In this last question many of families faced more over Toilet problem and mosquitoes, flies problem from drainages.

The second activity I performed was water facilities and drinking water availability. In this village 70% of people use community tap of drinking and useage for daily life. 30% of family are using own tap with overhead. The people said the drinking water was very good. and the water is very tasty. In summer days the people in the village face water shortage. Normal days there is no problem of water shortage. with the help of community service project I know the want problems are in my village.

The third activity I did was do awareness in the village. I did the awareness camps about saving of water with my friends and senior citizen. I take a few minutes to talk about saving of water with me

ways to conserve water in your neighbourhood and invite people to share the suggestions.

Water awareness as being cognizant of how much water is used daily through direct use such as drinking and washing and indirect use. I did some slogans on water to give water awareness.

1. save water, save life
2. conserve water. save a million lives.
3. Think before you let it drip
4. Save blue, live green.

And finally use waste water like cleaning water for planting. plant some trees in your house. watering the plants for our daily waste water using.

Title of the Project

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have: ☒ a) Own Tap with overhead tank b) Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water b) Tap Water c) Ground Water
3. How do you evaluate the quality of your drinking water
a) Very Good b) Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c) No
5. What kind of Sewage System do you have
a) In house pit
b) Drainage System
c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath
a) By running water under tap b) Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a) Flush b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit d) More
9. Do you experience water shortages
a) No b) Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action c) None
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid NO
12. Does the water you use is a) Fluoride water b) Hard water c) None
13. How often do you clean water storage tanks per year
a) Once b) 2-3 times c) 4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/No
15. How much water is used in your family per a day
a) 60lit b) 80lit c) 100lit d) More
16. How much water is used for drinking (only) in your total family per a day
a) 30 lit b) 40 lit c) 50 lit d) none
17. Is there any RO System (water plant) in your village: yes/no
18. How many RO System (water plant) are there in your village :
a) 1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village
a) Pond b) Lake c) River d) a or b
20. Is your village comes under coastal area: yes/no

1. What type of Water System do you have: ✓
a) Own Tap with overhead tank b) Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water b) Tap Water c) Ground Water
3. How do you evaluate the quality of your drinking water
a) Very Good b) Satisfactory ✓ c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c) No ✓
5. What kind of Sewage System do you have
a) In house pit
b) Drainage System
c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath ✓
a) By running water under tap b) Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a) Flush b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit d) More ✓
9. Do you experience water shortages
a) No b) Rarely c) Almost every year d) It is constant problem ✓
10. Do you have water conservation methods: a) Pits b) Community action c) None
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid
12. Does the water you use is a) Fluoride water b) Hard water c) None ✓
13. How often do you clean water storage tanks per year
a) Once b) 2-3 times ✓ c) 4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/No ✓
15. How much water is used in your family per a day
a) 60lit b) 80lit c) 100lit ✓ d) More
16. How much water is used for drinking (only) in your total family per a day
a) 30 lit b) 40 lit ✓ c) 50 lit d) none
17. Is there any RO System (water plant) in your village: yes/no ✓
18. How many RO System (water plant) are there in your village :
a) 1 b) 2 c) 3 d) None ✓
19. What type of Water bodies are there in your village
a) Pond b) Lake c) River d) a or b ✓
20. Is your village comes under coastal area: yes/no ✓

Title of the Project

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have: ☒ a) Own Tap with overhead tank b) Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water b) Tap Water c) Ground Water
3. How do you evaluate the quality of your drinking water
a) Very Good b) Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c) No
5. What kind of Sewage System do you have
a) In house pit
b) Drainage System
c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath ☒
a) By running water under tap b) Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a) Flush b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit d) More
9. Do you experience water shortages
a) No b) Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action c) None
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid
12. Does the water you use is a) Fluoride water b) Hard water c) None ☒
13. How often do you clean water storage tanks per year
a) Once b) 2-3 times c) 4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/No ☒
15. How much water is used in your family per a day
a) 60lit b) 80lit c) 100lit d) More
16. How much water is used for drinking (only) in your total family per a day
a) 30 lit b) 40 lit c) 50 lit d) none
17. Is there any RO System (water plant) in your village: yes/no
18. How many RO System (water plant) are there in your village :
a) 1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village
a) Pond b) Lake c) River d) a or b
20. Is your village comes under coastal area: yes/no

SOCIO – ECONOMIC SURVEY

Name of the Student : G. Mounika
Group : BSc (MPCS)
Registration Number : 2222001050016
Area of the Survey conducted: walteru

House No.	1-371	Habitat /Ward	walteru	Panchayat /Municipality	walteru
Post office	walteru	Mandal	Santhakaviti	District	Vijayanagaram

1. Household Details:

S.No.	Name of the Person	Gender M/F	Age	Education	Profession/ Employment	Income (Daily wage/Weekly/ Monthly)
1.	P. Simbachalam	M	39	10 class	labor	1500 monthly
2.	P. Meenakshi	F	28	Inter	volunteer	
3.	P. Peranayasari	F	10	5th	-	

2. Social Status details:

(i) Community: SC/ST/ BC-A-B-C-D/ OC (ii) Sub-Caste: Kalinga (iii) Religion: Hindu

3. Economic Status details:

- (i) Type of House: Hut/ Semi Pucca/ Pucca/ Apartment/ Bungalow
(ii) House status (Own/ Rented):
(iii) Drinking Water facility: Well/ Bore-well/ Govt. Tap connection
(iv) Availability of Agricultural land: Yes/ No
(v) Extent of Agricultural land: 90 cents Acres
(vi) Livestock resources: Cows — Oxen — Buffaloes — Sheep/Goats — .

(vii) Do you have own toilet? Yes/No ✓

(viii) Type Cooking fuel used: LPG/Kerosene/ Wood/ others specify _____ ✓

(ix) Do you have white Ration Card? Yes/No ✓

(x) Do you have vehicle? Two-wheeler/ Auto/ Car/ Any other vehicle ✓ cycle

4. Health Details:

(i) Ailments in family:

(ii) Treatment in which Hospital: Govt/Private ✓

(iii) Any PWD Persons in family: Yes/No ✓

S.No.	Name of the Person	Gender	Age	Nature of Disability

(iv) Do you have Govt. Arogya Sri Card: Yes/No ✓

5. Other Details:

(i) Do You have TV: Yes/No ✓

(ii) Do you have Mobile: Yes ✓

(iii) Mobile Number: 7075014133

(iv) Do you have Computer/Laptop: Yes/No ✓

(v) Is internet available at home: Yes/No ✓

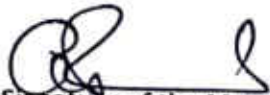

6. Any specific problems identified in the village/ Ward:

- (i) water problem
- (ii) Drainage problem
- (iii) mosquitoes problem

More Benefits in csp project:-

Social Benefits:-

Volunteering engages students with the community creates bonds with the population being served and increases social awareness and responsibility.

Cognitive Benefits:-

Volunteering helps students enhance their personal knowledge gain from new experience and keep develop better interpersonal communication skills.

Participating in csp activities helps to enhance students Resume by allowing students to obtaining work related skills prior employers in regards to community involvement and provides to form to network with allowing students.

Conclusion

I had definitely learned how to be more patient and be more productive. The journey from the right beginning that is deciding how can I help the community/society to be a better place. what activities will be well suited to my surrounding keep all the facts in mind I figured out few activities, that were providing food to the stray animals, plantation, in public water wastage places cleaning up local drainages.

Each activity had its challenges and impressive outcome. the satisfaction the activity providing me were at different level. helping out society truly set a different mind set. the day I started the project it changed my view towards the society, cleaning the society, cleaning drainages, using waste water for watering plants.

Apart from the water resources and cleaning process. I feed the plants with waste water of house, goods. Now I have many more friends in my society.

With my friends I did a water saving process. And awareness of water wastage. To convey that use water for your quantity don't waste water for unusual purposes like.

1. Turn off the water while brushing your teeth.
2. water your lawn only when it needs.
3. check your toilets for leaks.
4. And use community water service.

I am working to help the society in as many ways as possible. As we know small changes make a huge difference. I will even promote the idea of community service as a general responsibility for all.
