Community Service Project

Government Degree Collage (Men),
Srikakulam

-A PROJECT REPORT

ON COMMUNITY SERVICE

Submitted in the partial fulfillment of the requirements for the award of degree of B.Sc By

KARAKA. DHANALAXMI

Enrollment Number : 2222001050020

Semester : II year B.Sc (MPCS)

Batch : ~~2022~~ - 2025

under the supervision of

Dr. Gus Jayapala

Lecturer in physics

Government Degree College (M), Srikakulam

Phone Number : 9032977713

Website : www.gemskim.ac.in

CERTIFICATE

Certified That This project report "WATER FACILITIES
-And DRINKING WATER AVAILABILITY" being submitted by
K. Dhanalaxmi in partial fulfillment of the requirement
for the award of Bachelor of science in physics Department
Honours is the record of Bonafide
work done by them under the supervision during
the academic year 2022-2023

Project guide

Dr. GVS Jayapala.
Lecturer in physics
Physics Dept
GID (Men) SKLM

DECLARATION

I here by declare that the community service project report entitled "WATER FACILITIES AND DRINKING WATER AVAILABILITY" submitted by me to the Govt. Degree College (MEN) SKLM. is partial fulfillment of the requirement for the award of the degree of B.Sc (M.P.C.S) is a record of bonafide project work, carried out by me under the guidance of Ravikumar sir. I further declare that the work reported in this project has not been submitted and will not be submitted, either in part or in full, for the award of any other degree in this institute (or) university

ACKNOWLEDGMENT

I would like to express my gratitude to all those who gave me the possibility to complete this community service project. Special thanks to my mentor

Sir whose help to stimulating suggestions and encouragement helped me to complete the project

I would like to thank all the staff from the department of physics for their able guidance & support to complete the project. I would like to extend my gratitude to our principal madam for her tremendous support in completing the project.

WHAT IS MEANT BY COMMUNITY

SERVICE PROJECT

Community service is work done by a person or group of people that benefits others. It is often done near the area where you live, so your own community reaps the benefits of your work. You do not get paid to perform community service. Through sometimes food and small gifts like a t-shirts are given to volunteers.

Community service can help any group in need: children, senior citizens, people with disabilities, English language learners. Such as those at a shelter and it can be used to improve places such as local parks, historic buildings or service areas as well.

Community service is often organized through a local group such as a place of worship, school (or) non profit organization.

* Need/Importance about CSP :=

Community Service has a number of important benefits engaging in community service provides students with the opportunity to become active members of their community and has a lasting, positive impact of society at large

Community service or volunteerism enables students to - acquire life skills and knowledge as well as provide a service to those who need it most. These are some of the common benefits of participating in community service program

* Psychological benefits :=

Volunteering increases overall life satisfaction and helps you feel good about yourself because you are helping others. It can also help to decrease stress and ease depression.

* More Benefits in C.S.P project

* Social Benefits :-

Volunteering engages students with the community, creates bonds with the population being served and increases social awareness and responsibility.

Cognitive Benefits :-

Volunteering helps students enhance their personal knowledge, grow from new experience and develop better interpersonal communication skills.

Participating in community service not only makes a difference to the organization and people being served but also makes a difference to every student's career prospects.

Participating in CSP activities helps to enhance students' resume by allowing students to obtain work-related skills prior to graduation, builds good reference for employers in regards to community involvement and provides a forum to network with future potential employers.

Executive Summary

Community programs can expand the opportunities for youth to acquire personal and social assets and to experience the broad range of features of possible developmental settings.

The activities I performed in the community service on socio-economic survey and water facilities and drinking water availability. The activities are of great significance as they effected the surroundings a lot, it also developed a mind set of "cleaning our surroundings helping animals and planting more and more trees" in the minds of the people who acknowledged my work.

First I performed socioeconomic survey in my village. No. of family members are living how many members studying, genders for each person, study and profession in the family members all details are collected status details, health details, other details.

Later ask about which type of Govt. Schemes received like Jagananna vidhya deenata etc. finally asked any problems faced in the village in this last question many of the families faced more over mosquitoes problem from drainages.

COMMUNITY BASED WATER RESOURCE MANAGEMENT

6. Develop community level water supply management system which include management of water resources and assets

7. Identify community level risk control measure to manage water resources this includes contingency options and water privatization

8. ongoing monitoring and evaluation of community water supply.

5. Agree upon community water usage targets and recognize community priorities

4a. Review hydrological analysis of water resources and risk identification methodology

4. Asset visit to Community water resource - rules and assets

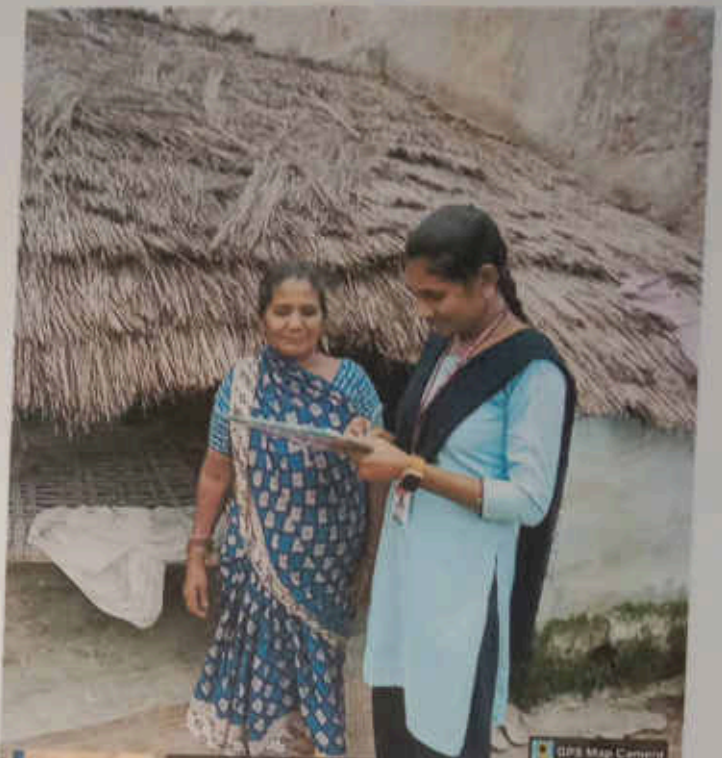

3. Assess the available water assets and resources at community level using an inventory mapping exercise

2. undertake community "key water user" stakeholder analysis ensuring the role of women is recognized in water management

1. Identify communities. Overall water usage needs and priorities for water usage - using water survey.

The second activity I performed was water facilities and drinking water facilities and drinking water availability. In this village 70% of people use ground water drinking and usage for daily life. 30% of family are using own tap with overhead

The people said that drinking water was very good. what kind of family members using for washup (or) takepath. In rural areas the people only use mostly use bucket and mug. Each family mostly used water and mug. Each family mostly used water per day at least 10ltr. Small family will only used 50 litres per day

In summer days people in the village face water shortage. Normal days there is no problem with water with help of community service project. I know the problems are in my village

The third activity I did was do awareness in the village. I did the awareness of water saving with my friends and senior citizens.

I take a few minutes to talk about ways to conserve water in your neighborhood and invite people to share the suggestions.

Observations:

I observed some diseases such as cholera, Typhoid & malaria in our village. Because of water problems, some people suffer with illness due to lack of water and drinking water from ponds, lakes etc. water resources are very important. we must use water resources carefully.

Precautions:

- * we have to drink mineral water
- * The people who are the well should observe certain precaution to ensure the quality of the water
- * washing of cloths & animals in the surroundings of the well should be prohibited.

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have:
a) Own Tap with overhead tank b) Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water b) Tap Water c) Ground Water
3. How do you evaluate the quality of your drinking water
a) Very Good b) Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c) No
5. What kind of Sewage System do you have
a) In house pit
b) Drainage System
c) Polluted Water is driven into open space i.e; Ground etc.
6. How do you wash up/take bath
a) By running water under tap b) Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a) Flush b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit d) More
9. Do you experience water shortages
a) No b) Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action c) None
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid
12. Does the water you use is a) Fluoride water b) Hard water c) None
13. How often do you clean water storage tanks per year
a) Once b) 2-3 times c) 4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/ No
15. How much water is used in your family per a day
a) 60lit b) 80lit c) 100lit d) More
16. How much water is used for drinking (only) in your total family per a day
a) 30 lit b) 40 lit c) 50 lit d) none
17. Is there any RO System (water plant) in your village: yes/ no
18. How many RO System (water plant) are there in your village :
a) 1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village
a) Pond b) Lake c) River d) a or b
20. Is your village comes under coastal area: yes/ no

Title of the Project

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have:
a) Own Tap with overhead tank b) Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water b) Tap Water c) Ground Water
3. How do you evaluate the quality of your drinking water
a) Very Good b) Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c) No
5. What kind of Sewage System do you have
a) In house pit
b) Drainage System
c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath
a) By running water under tap b) Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a) Flush b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit d) More
9. Do you experience water shortages
a) No b) Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action c) None
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid

Title of the Project

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have:
a) Own Tap with overhead tank b) Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water b) Tap Water c) Ground Water
3. How do you evaluate the quality of your drinking water
a) Very Good b) Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c) No
5. What kind of Sewage System do you have
a) In house pit
b) Drainage System
c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath
a) By running water under tap b) Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a) Flush b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit d) More
9. Do you experience water shortages
a) No b) Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action c) None
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid
12. Does the water you use is a) Fluoride water b) Hard water c) None
13. How often do you clean water storage tanks per year
a) Once b) 2-3 times c) 4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/ No
15. How much water is used in your family per a day
a) 60lit b) 80lit c) 100lit d) More
16. How much water is used for drinking (only) in your total family per a day
a) 30 lit b) 40 lit c) 50 lit d) none
17. Is there any RO System (water plant) in your village: yes/ no
18. How many RO System (water plant) are there in your village :
a) 1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village
a) Pond b) Lake c) River d) a or b
20. Is your village comes under coastal area: yes/ no
