Community Service Project

GOVERNMENT DEGREE COLLEGE (MEN),  
SRIKAKULAM

A PROJECT REPORT  
ON

-: COMMUNITY SERVICE :-

Submitted in the partial fulfillment of  
the requirement for the award of degree of B.Sc.

By

PALISETTI, ANURADHA

Enrollment Number:- 2222001050039

Semester :- II [M.P.Cs]

Batch :- 2022-2025

Under the Supervision of G.V.S Jayapala Lecturer  
in the physical Department.

GOVERNMENT DEGREE COLLEGE [MEN]  
SRIKAKULAM.

Phone No :- 7207514232

Website :- [www.g.comsklm.ac.in](http://www.g.comsklm.ac.in)

## CERTIFICATE

Certified that this project report "WATER FACILITIES" AND "DRINKING WATER AVAILABILITY" being Submitted by P. Anuradha in partial fulfillment of the requirement for the award of Bachelor of Science in physics Department.

Honours is the record of Bonafide work done by them under the supervision during the academic year 2023-2024.

PROJECT-GUIDE

G.V.S. Jayapal Rao  
Lecturer in  
physics department  
GDC (M), Srikakulam.

## ACKNOWLEDGEMENT

At the outset, I salute the honourable chief Minister of Andhrapradesh, Sri Y.S. Jagan Mohan Reddy who always strives for the welfare of the students of his state and who allocated a major share of the budget for education sector and who thinks in a novel way for taking the initiative to implement the community service project.

I sincerely thank Dr. P. Bhasakar, Commissioner of collegiate education, Andhrapradesh for his vision in implementing the community service project (CSP) in accordance with the NEP-2020, which gives the student hands on experience, to deal with the problems that confront him in his day to day life.

I am indebted to Dr. P. Suresh, principal of Government degree college (Men) Sukakulam for her relentless efforts in enlightening the students by conducting various workshops for effective implementation of this herculean project.

I am grateful to Dr. Jayapal Rao, lecturer in physics and co-ordinator of community service project for letting us know the importance of this project and inculcating in us the stream of social consciousness which

## INTRODUCTION OF COMMUNITY SERVICE

### Defining :-

Community Service is work done by a person or group of people that benefits others. It is often done near the area where you live, so your own community reaps the benefits of your work. You do not get paid to perform community service, though sometimes food and small gifts like a t-shirts, are given to the volunteers.

Community service can help only any group of people in need children, senior citizens, people with disabilities, English language learners and more. It can also help animals such as those at a shelter and it can be used to improve places such as local park, historic building of area as well as. Community service is often organized through a local group such as a place of worship, school or non-profit organization. You can all start your own community service project.

## BACKGROUND :-

Community service is a non-paying job performed by one person or a group of people for the benefit of their community or its institutions, community service is distinct from volunteering. Since it is not always performed on a voluntary basis. It may be performed for a variety of reasons.

→ It may be required by a government as a part of citizenship requirements, like the mandatory "Hand and Hitch up" services for some municipalities in Germany or generally in military service or for civil conscription services.

→ It may be required as a substitution of, or in addition to, other criminal justice sanctions. When performed for this reason it may be referred to as community pay back.

→ It may be mandated by schools to meet the requirements of a class such as in the case of service learning or to meet the requirement of graduating as class valedictorian.

→ In the UK, it has been made a condition of the receipt of certain benefits.

→ In Sweden it is a suspended sentence called

## FORMS OF COMMUNITY SERVICE

There are three types of Community Service and Service-Learnings: direct, in-direct and advocacy. Once a community need is identified, the project activities that are developed will align with one or more of the types. Below are definitions and additional examples of each type of community service and service-learning.

### DIRECT:-

You can develop direct service activities where students interact with the recipients of service at the physical environment they have targeted for improvement. You and your chapter can volunteer at a food kitchen to serve community members in need or perhaps you can work with your community center to create an adopt-a-grandparent program that lasts beyond FFA week.

### INDIRECT:-

If you don't have the ability to come in direct contact with the beneficiaries of service, you can organize an indirect service activity where students channel resources to a problem but do not interact with those being served. This can include organizing a can food drive to donate to a food pantry in a neighboring community or participating in a community beautification project.

## ADVOCACY :-

It is important to always be an advocate for the issues that inspire you. During, advocacy service activities, students bring awareness to an issue and inspire others to take action. Advocacy can also address the underlying causes of a social problem by attempting to influence policymakers & elected officials.

## Ways to participate in community service :-

There are hundreds of ways to participate in community service, depending on the skill and interests. Some community service examples include.

### 1. Working with senior citizens :-

visiting to every street for giving awareness of water wastage.

### 2. Working with school children :-

Subbing children after school, collecting plant from various place and planted in where the water is wasting more.

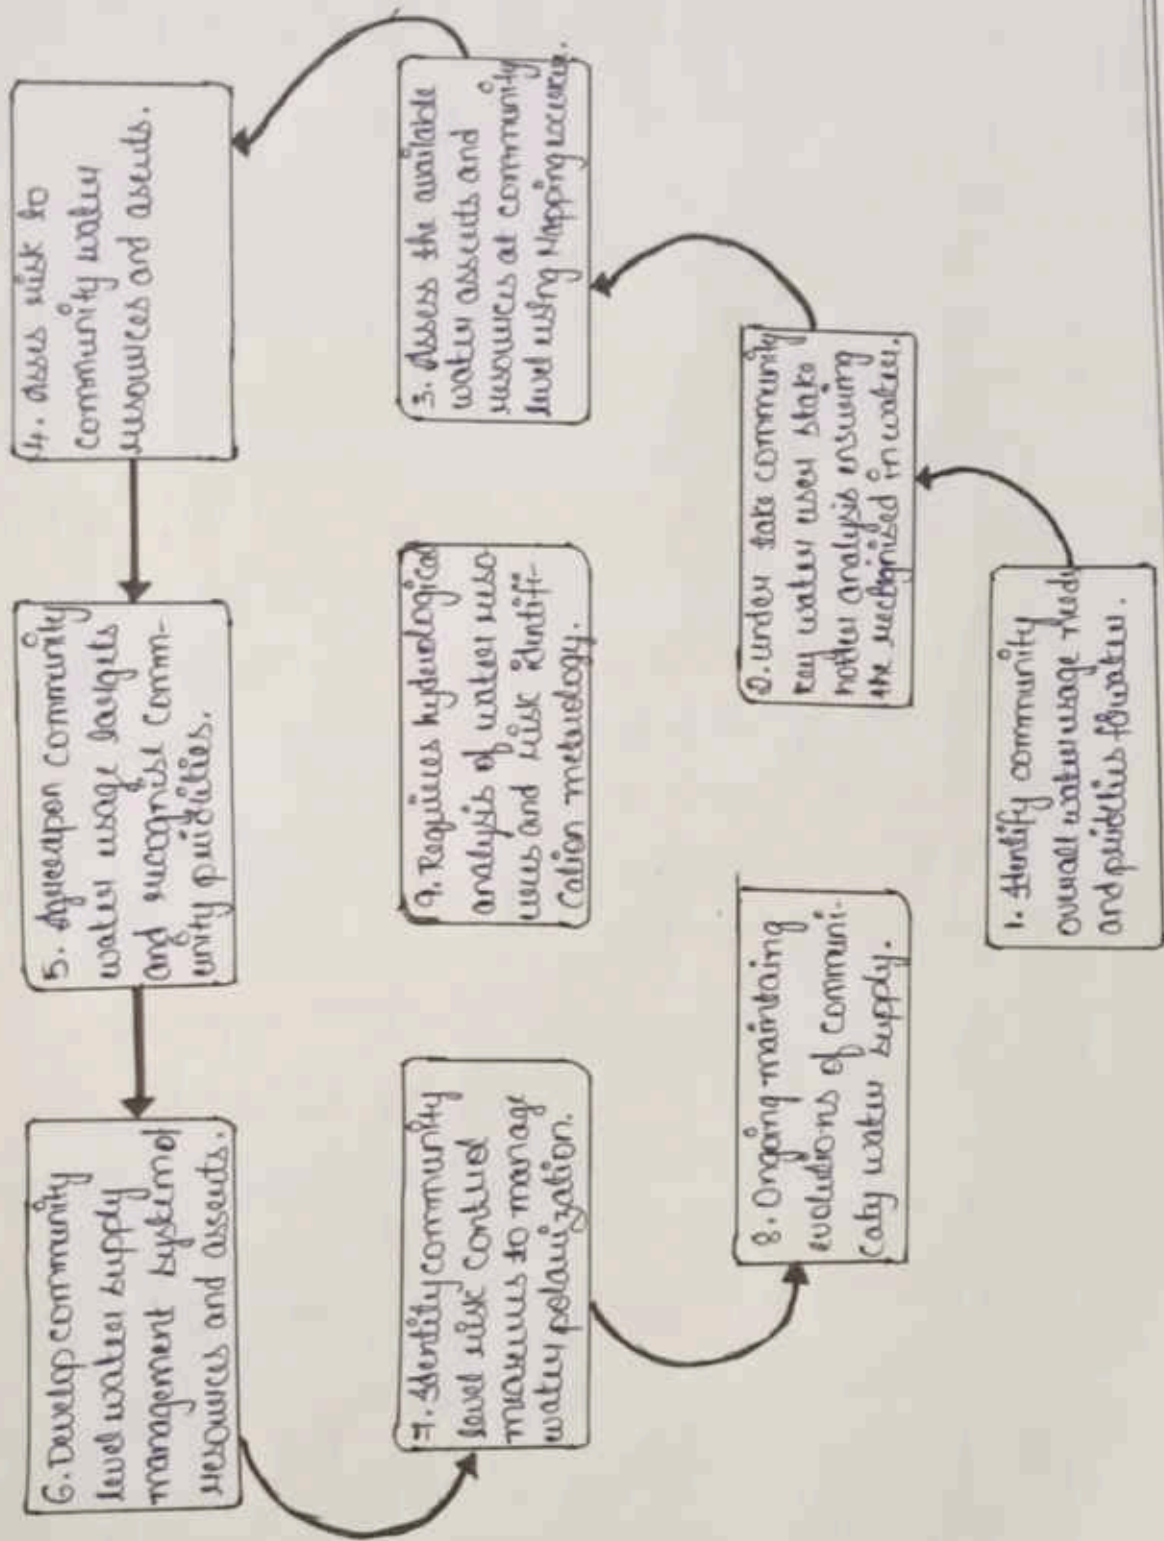

### 3. Improving the environment :-

Holding a recycling contest, planting trees at a nature centre.

### 4. Helping low-income people :-

Passing out food at a soup kitchen, collecting used clothes to be donated, making first aid kits for homeless shelters.

# COMMUNITY - BASED WATER RESOURCE MANAGEMENT :-

## EXECUTIVE SUMMARY :-

Community programmes can expand the opportunities for youth to acquire personal and social assets and to experience the broad range of features of positive development settings.

The activities I performed in the community service on socio economic survey and water facilities and drinking water availability. The activities are of great significance as they affected the surrounding area it also developed a mind set of "cleaning our surroundings, helping animals and planting more and more trees" in the minds of the people who acknowledge my work.

The first I performed socio economic survey in my village. No. of family members are living how many members studying, Gender for each person, study and profession in the family members are detail are collected. And after ask about social status detail, Economic status detail, health details, other details.

Later ask about which type of Govt. schemes received like Jagananna Vidhya Dewana etc. And finally asked any problems faced in the village. In this last question many of family faced more over mosquitoes problems from drainages.

The second activity I performed was water facilities and drinking water availability. In this village 70% of peoples use community Tap of drinking and usage for daily life.

30% of family on using own tap with overhead. The people said that drinking water was very good what kind of family members using for washup (for) take path. In rural area, the people only use mostly use bucket and mug. And each family use water per day. At least 100 litres. Small family will only used 50 litres per day.

In summer days the people in the village face water shortage, Normal days there is no problem with water. with the help of the community service project. I know the water problems are in my village.

The third activity I did was do awareness in the village I did the awareness of water saving with the friends and senior citizens. I take a few minutes to talk about ways to conserve water in your neighbourhood and invite people to share the suggestions.

Water awareness as being cognizant of how much water is used daily through direct use such as drinking and washing and indirect use, e.g:- how much water is used for the production of food items (for) clothing. I did some slogans on water to give water awareness.

1. Save blue, Live green.
2. Preserve water, Preserve life.
3. Think before you let it drip.
4. Conserve water. Save a million lives.

And finally use waste water like cleaning water for planting. plant some trees in your house, watering plants for our daily waste water using.

In this way plants can increase the water efficiency in our local areas.

## MORE BENEFITS IN Csp PROJECT :-

### SOCIAL BENEFITS :-

Volunteering engages students with the community, creates bonds with the population being served and increases social awareness and responsibility.

### COGNITIVE BENEFITS :-

Volunteering helps students enhance their personal knowledge grow from new experiences and develop better interpersonal communication skills.

Participating in community service not only makes a difference to the organization and people being served but also makes a difference to every student's career prospects.

Participating in Csp activities helps to enhance students' resume by allowing students to obtain work-related skills prized by employers in regards to community involvement and provides an opportunity to form a network with fellow students.

## OBSERVATION :-

The activities I performed in the community service on socio-economic survey and water facilities and drinking water availability. The activities are of great significance as they affected the surrounding a lot, it also developed a mind set of "cleaning our surroundings" without form of dumping of waste water resistance causing diseases like cholera, diarrhoea, Polio etc.

## AWARNESS ON WATER :-

Water awareness as we teach using drinking and washing and indirect use. I awareness of water with slogans like.

1. PRESERVE WATER, PRESERVE LIFE.
2. SAVE OUR WATER BODIES, SAVE OUR PLANET.
3. SAVE BLUE, SAVE GREEN.
4. CONSERVE WATER, SAVE A MILLION LIVES.

## CONCLUSION :-

I had definitely learned how to be more patient and be more productive. The journey from the night beginning that is deciding how can I help the community / society to be a better place, what activities will be well suited to my surroundings keep all the facts in mind. I figured out few activities, that were providing food to the stray animals, plantation in public water wastage places, clearing up clean drainages.

Each activity had its challenges and impressive outcome. The satisfaction the activity providing me were at different level. Helping out society truly set a different mindset. The day I started the project it changed my view towards the society, cleaning the society, cleaning drainages, using wastage water for watering plants. Seeing my area after cleaning. I finished my work gave me great feeling. I planted flowery plants which uses after bathing & cleaning waste water.

Apart from the water resources and cleaning process. I feed the plants with waste water of house goods. Now, I have many more friend in my society.

With my friends I did a water saving process. And awareness of water wastage. To convey that use water for your quantity don't waste water for unused purposes.

Like,

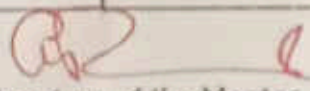

1. Turn off the water brushing your teeth.
2. If you wash dishes by hand, don't leave the water running for rinsing.
3. Water your lawn only when it needs it.
4. And use community water service water correctly.
5. Check your toilet for leaks.

I am looking forward to help the society in as many ways as possible. As we know small changes makes a huge differences. I will even promote the idea of community service as a general responsibility for all.

Title of the Project

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have:  
a) Own Tap with overhead tank b) Underground water well/bore  c) Community Tap
2. What type of water do you use for drinking a) Mineral Water b) Tap Water c) Ground Water
3. How do you evaluate the quality of your drinking water  
a) Very Good b)  Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c)  No
5. What kind of Sewage System do you have  
a) In house pit  
b)  Drainage System  
c) Polluted Water is driven into open space i.e, Ground etc
6. How do you wash up/take bath  
a) By running water under tap b)  Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a) Flush b)  Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c)  40lit d) More
9. Do you experience water shortages  
a)  No b) Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action b)  None
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid NO
12. Does the water you use is a) Fluoride water b) Hard water c)  None
13. How often do you clean water storage tanks per year  
a) Once b) 2-3 times c)  4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/No
15. How much water is used in your family per a day  
a) 60lit b) 80lit c) 100lit d)  More
16. How much water is used for drinking (only) in your total family per a day  
a) 30 lit b) 40 lit c)  50 lit d) none
17. Is there any RO System ( water plant) in your village: yes/no
18. How many RO System (water plant) are there in your village :  
a)  1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village  
a) Pond b) Lake c) River d)  a or b
20. Is your village comes under coastal area: yes/no

Title of the Project

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have:  
a) Own Tap with overhead tank b)  Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water b)  Tap Water c) Ground Water
3. How do you evaluate the quality of your drinking water  
a) Very Good b)  Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c)  No
5. What kind of Sewage System do you have  
a) In house pit  
b)  Drainage System  
c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath  
a) By running water under tap b)  Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a) Flush b)  Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit d)  More
9. Do you experience water shortages  
a) No b)  Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action c)  None
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid  NO
12. Does the water you use is a) Fluoride water b) Hard water c)  None
13. How often do you clean water storage tanks per year  
a) Once b) 2-3 times c)  4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/No
15. How much water is used in your family per a day  
a) 60lit b) 80lit c) 100lit d)  More
16. How much water is used for drinking (only) in your total family per a day  
a) 30 lit b) 40 lit c)  50 lit d) none
17. Is there any RO System ( water plant) in your village:  yes/no
18. How many RO System (water plant) are there in your village :  
a)  1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village  
a) Pond b) Lake c) River d)  a or b
20. Is your village comes under coastal area:  yes/no

Title of the Project  
"WATER FACILITIES AND DRINKING WATER AVAILABILITY"  
Questionnaire for the Project

1. What type of Water System do you have:  
a) Own Tap with overhead tank b)  Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water b)  Tap Water c) Ground Water
3. How do you evaluate the quality of your drinking water  
a) Very Good b)  Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c)  No
5. What kind of Sewage System do you have  
a) In house pit  
b)  Drainage System  
c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath  
a) By running water under tap b)  Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use. a) Flush b)  Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c)  40lit d) More
9. Do you experience water shortages  
a) No b)  Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action c)  None
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid  NO
12. Does the water you use is a) Fluoride water b) Hard water c)  None
13. How often do you clean water storage tanks per year  
a) Once b) 2-3 times c)  4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/ No
15. How much water is used in your family per a day  
a) 60lit b) 80lit c) 100lit d)  More
16. How much water is used for drinking (only) in your total family per a day  
a) 30 lit b) 40 lit c)  50 lit d) none
17. Is there any RO System ( water plant) in your village: yes/ no
18. How many RO System (water plant) are there in your village :  
a)  1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village  
a) Pond b) Lake c) River d)  a or b
20. Is your village comes under coastal area: yes/ no

Title of the Project

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have:  
a) Own Tap with overhead tank  b) Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water  b) Tap Water c) Ground Water
3. How do you evaluate the quality of your drinking water  
a) Very Good  b) Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places  c) No
5. What kind of Sewage System do you have  
a) In house pit  
b) Drainage System  
c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath  
a) By running water under tap  b) Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a) Flush  b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit  c) 40lit d) More
9. Do you experience water shortages  
a) No  b) Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action  c) None
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid  No
12. Does the water you use is a) Fluoride water b) Hard water  c) None
13. How often do you clean water storage tanks per year  
a) Once b) 2-3 times  c) 4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/No
15. How much water is used in your family per a day  
a) 60lit b) 80lit c) 100lit  d) More
16. How much water is used for drinking (only) in your total family per a day  
a) 30 lit b) 40 lit  c) 50 lit d) none
17. Is there any RO System ( water plant) in your village: yes/no
18. How many RO System (water plant) are there in your village :  
 a) 1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village  
a) Pond b) Lake c) River  d) a or b
20. Is your village comes under coastal area: yes/no

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"  
Questionnaire for the Project

1. What type of Water System do you have:  
a) Own Tap with overhead tank  b) Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water  b) Tap Water  c) Ground Water
3. How do you evaluate the quality of your drinking water  
a) Very Good  b) Satisfactory  c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places  c) No
5. What kind of Sewage System do you have  
a) In house pit  
b)  Drainage System  
c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath  
a) By running water under tap  b) Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a) Flush  b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit  d) More
9. Do you experience water shortages  
a) No  b) Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action  c) None
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid  NO
12. Does the water you use is a) Fluoride water b) Hard water  c) None
13. How often do you clean water storage tanks per year  
a) Once b) 2-3 times  c) 4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/No
15. How much water is used in your family per a day  
a) 60lit b) 80lit c) 100lit  d) More
16. How much water is used for drinking (only) in your total family per a day  
a) 30 lit  b) 40 lit c) 50 lit d) none
17. Is there any RO System ( water plant) in your village: yes/no
18. How many RO System (water plant) are there in your village :  
 a) 1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village  
a) Pond b) Lake c) River  d) a or b
20. Is your village comes under coastal area: yes/no

Title of the Project

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have:  
a) Own Tap with overhead tank b) Underground water well/bore c)  Community Tap
2. What type of water do you use for drinking a) Mineral Water b)  Tap Water c) Ground Water
3. How do you evaluate the quality of your drinking water  
a) Very Good b)  Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c)  No
5. What kind of Sewage System do you have  
a) In house pit  
b)  Drainage System  
c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath  
a) By running water under tap b)  Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a)  Flush b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit d)  More
9. Do you experience water shortages  
a) No b) Rarely c)  Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action c)  None
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid  No
12. Does the water you use is a) Fluoride water b) Hard water c)  None
13. How often do you clean water storage tanks per year  
a) Once b) 2-3 times c)  4 times d) >6 times
14. Are you interested to learn Water conservation methods:  Yes/No
15. How much water is used in your family per a day  
a) 60lit b) 80lit c) 100lit d)  More
16. How much water is used for drinking (only) in your total family per a day  
a) 30 lit b) 40 lit c)  50 lit d) none
17. Is there any RO System ( water plant) in your village:  yes/no
18. How many RO System (water plant) are there in your village :  
 a) 1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village  
a) Pond b) Lake c) River d)  a or b
20. Is your village comes under coastal area:  yes/no
