* Need / Importance about CSP :-

Community services has a number of important benefits egging in Community. services provides students with the opportunity to become active members to their Community and has a lasting positive impact on society at large.

Community services or volunteerism enables students to acquire life skills and knowledge to as well as provide a service to those who need it need. These are some of the common benefits of participating in a Community service program.

* Psychological benefits :-

volunteering increases own life satisfaction and helps you feel good about yourself because you are helping others it can also help's you feel to decrease stress and depressions.

* Conclusion:-

my name is K. Dharma Rao in pursuing my graduation in B.S.C M.P.C.S from Government Degree College (men) Srikakulam.

I selected "water FACILITIES AND DRINKNESS WATER AVAILIBLITY" topic as my community services project in this community. since project approached nearly 30 families for services I asked questions about for source, and available facilities that using for their daily purposes as a part of my survey I know that majority of family using ground water and community tap water. from their regular usages in today's date everyone needs a good hygienic water to be healthy.

I am very happy to doing this community services project for creating awareness towards the people.

→ for the about study in home village different houses in the village we visited in different places.

→ A log Book was mentioned to understand the water & time of visit to different residences.

* NOTE Benefits in CSP Project :-

* social benefit :-

Volunteering Engages student with the community
Creates bonds with the population being served and increases
social awareness and responsibility.

Cognitive benefits :-

Volunteering helps students enrich their
personal knowledge. grow from new experiences and develop
better interpersonal communication skills.

participating in community service not only
makes a difference to the organization and people being
served but also makes a difference to every student's

career prospects

participating in CSP activities help to enrich
student's resume by allowing students to obtain work related
skills prior to graduation build good relationship for
employees in regard's to community involvement and
provides a forum to network with future potential
employers

Diseases :-

I observed some diseases such as cholera, typhoid, malaria, is the no problems in our village.

Because of water problem some people suffer with illness due to lack of water and drinking water from ponds, lakes etc. water resources are very important we must use water resources carefully.

Precautions :-

- * we drink good water like mineral water
- * the people who use the well should observe action. precaution to ensure the quality of the water.
- * washing, clothing, & animals in the surrounding to the well should be prohibited.
- * water to the the litter, are drinking for the day, no health issues.
