Srikakulam

A PROJECT REPORT ON COMMUNITY SERVICE

Submitted in the partial fulfillment of the
requirements for the award of degree of
B.Sc By

Name :- SAVARA. GANESH

Enrollment no :- 2222 001050044

Semester :- 2nd year B.Sc (MPCS)

Batch :- 2022 - 2025

Under the supervision of
Dr. GVS Jayapal Rao Sir.

Lecturers in physics department.

Government Degree college (M), Srikakulam.

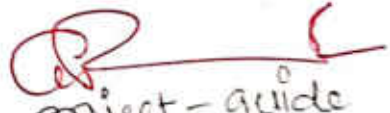

phone no :- 7673 900286

website :- WWW.gemsklm.ac.in

CERTIFICATE

Certified that this project report
"Water facilities and Drinking water availability."
being Submitted by S. Ganesh in partial fulfillment
of the requirements for the award of
Bachelors of Science in physics Department.

Honours in the record of Bonafide work
done by them under the super-vision
during the academic year 2021-2022.

project-guide
~~~~~  
Dr. GVS Jayapal Rao Sir.

Lecturer in  
physics department  
GVC(M), Srikakulam.

## DECLARATION

I hereby declare that the project report entitled "Community Service project" on water under the guidance of MR. Dr. GVS Jayapal Rao, lecturer in physics programme incharge; department of the physics.

I collect the data from mainstreet, Guddimeedaguda and Seethampeta. carried out by me under the guidance of Mr. Jayapal Sir.

## ACKNOWLEDGMENT

~~~~~

At the outset, I adore the honourable chief minister of Andhra Pradesh, Sri Y.S. Jagan Mohan Reddy who always craves for the welfare of the students of his state and who allocated a major share of the budget for education sector, and who thinks in novel way for taking the initiative to implement the community service project.

I sincerely thank Dr. Polabaskar, commissioner of collegiate education, Andhra Pradesh for his vision in implementing the community service project (CSP) in accordance with the NEP-2020, which gives the student hands on experience, to deal with the problems that confront him in his day to day life.

I am indebted to Dr. P. Surekha, principal of GPC CMJ Srikakulam for her relentless efforts in enlightening the students by conducting various workshops for effective implementation of this herculean project.

I am grateful to Dr. DVS Jayapal, lecturer in physics and co-ordinate of community service project for letting us know the importance of this project and including in us the stream of social consciousness which is very essential in our demeanour.

INTRODUCTION OF COMMUNITY SERVICE

Defining:-

Community Service is undertaken by a person or group of people that benefits others. It is often done near the area where you live, so your own community reaps the benefits of your work. You do not get paid to perform community service, though sometimes food and small gifts like a t-shirt, are given to volunteers.

Community Service can help any group of people in need: children, senior citizens, people with disabilities, English language learners and more. It can also help animals, such as those at a shelter, and it can be used to improve places, such as local parks, historical buildings or scenic areas as well. Community Service is often organized through a local group, such as a place of worship, school, or non-profit organization. You can also start your own community service projects.

MORE BENEFITS IN CSP PROJECT :- ~~~~~

Social Benefits :- ~~~~~

Volunteering engages students with the community
creates bonds with population being served and increased
social awareness.

Cognitive Benefits :- ~~~~~

Volunteering helps students enhance their personal
knowledge grow from new experience and develop better
interpersonal communication skills.

participating in community service not only makes
a difference to the organizations and people being served
but also makes a difference to every student's career
prospects.

Forms of community service

There are three types of community service and service-learning: direct, indirect and delivery advance. Once a community need is identified, the project activities that are developed will again with one or more of the types. Below are definitions and additional examples of each type of community service activities and service-learning.

You can develop direct service activities where students interact with the recipients of service or the physical environment they have targeted for improvement.

You and your chapter members in need or perhaps you can work with your community service center to create an adopt-a-grandparent program that lasts beyond FFA week.

If you don't have the ability to come in direct contact with the beneficiaries of service, you can organize an indirect service activity where students channel resources to a problem but do not interact with those being served. This can include organizing a channel food drive to donate this to a food pantry in a neighboring community or participating in community beautification project.

— ((EXECUTIVE SUMMARY)) — ~~~~~

Community programs can expand the opportunities for youth to acquire personal and social assets and to experience the broad range of features of positive developmental settings.

The activities I performed in the community service on socioeconomic survey and water facilities and drinking water availability. the activities are of great significance as they effected the surroundings a lot, it also developed a mind set of "cleaning our surroundings", helping animals and planting more and more trees" in the minds of the people who acknowledge my work.

First I performed socioeconomic survey in my village. no. of family members are living how many members studings, Genders for each person, study and profession in the family members all details are collected. and ask about social status details, economic status details, Health details, other details.

Later ask about which type of Govt. schemes received like jagamanna vidhya deevana e.t.c. finally asked any problems faced in the village. in this last question many of the family faced more over mosquitoes problems from drainages.

The second activity I performed was water facilities and drinking water facilities and drinking water availability. In this village 70% of people use ground water drinking and usage for daily life. 30% of family on using own tap with overhead.

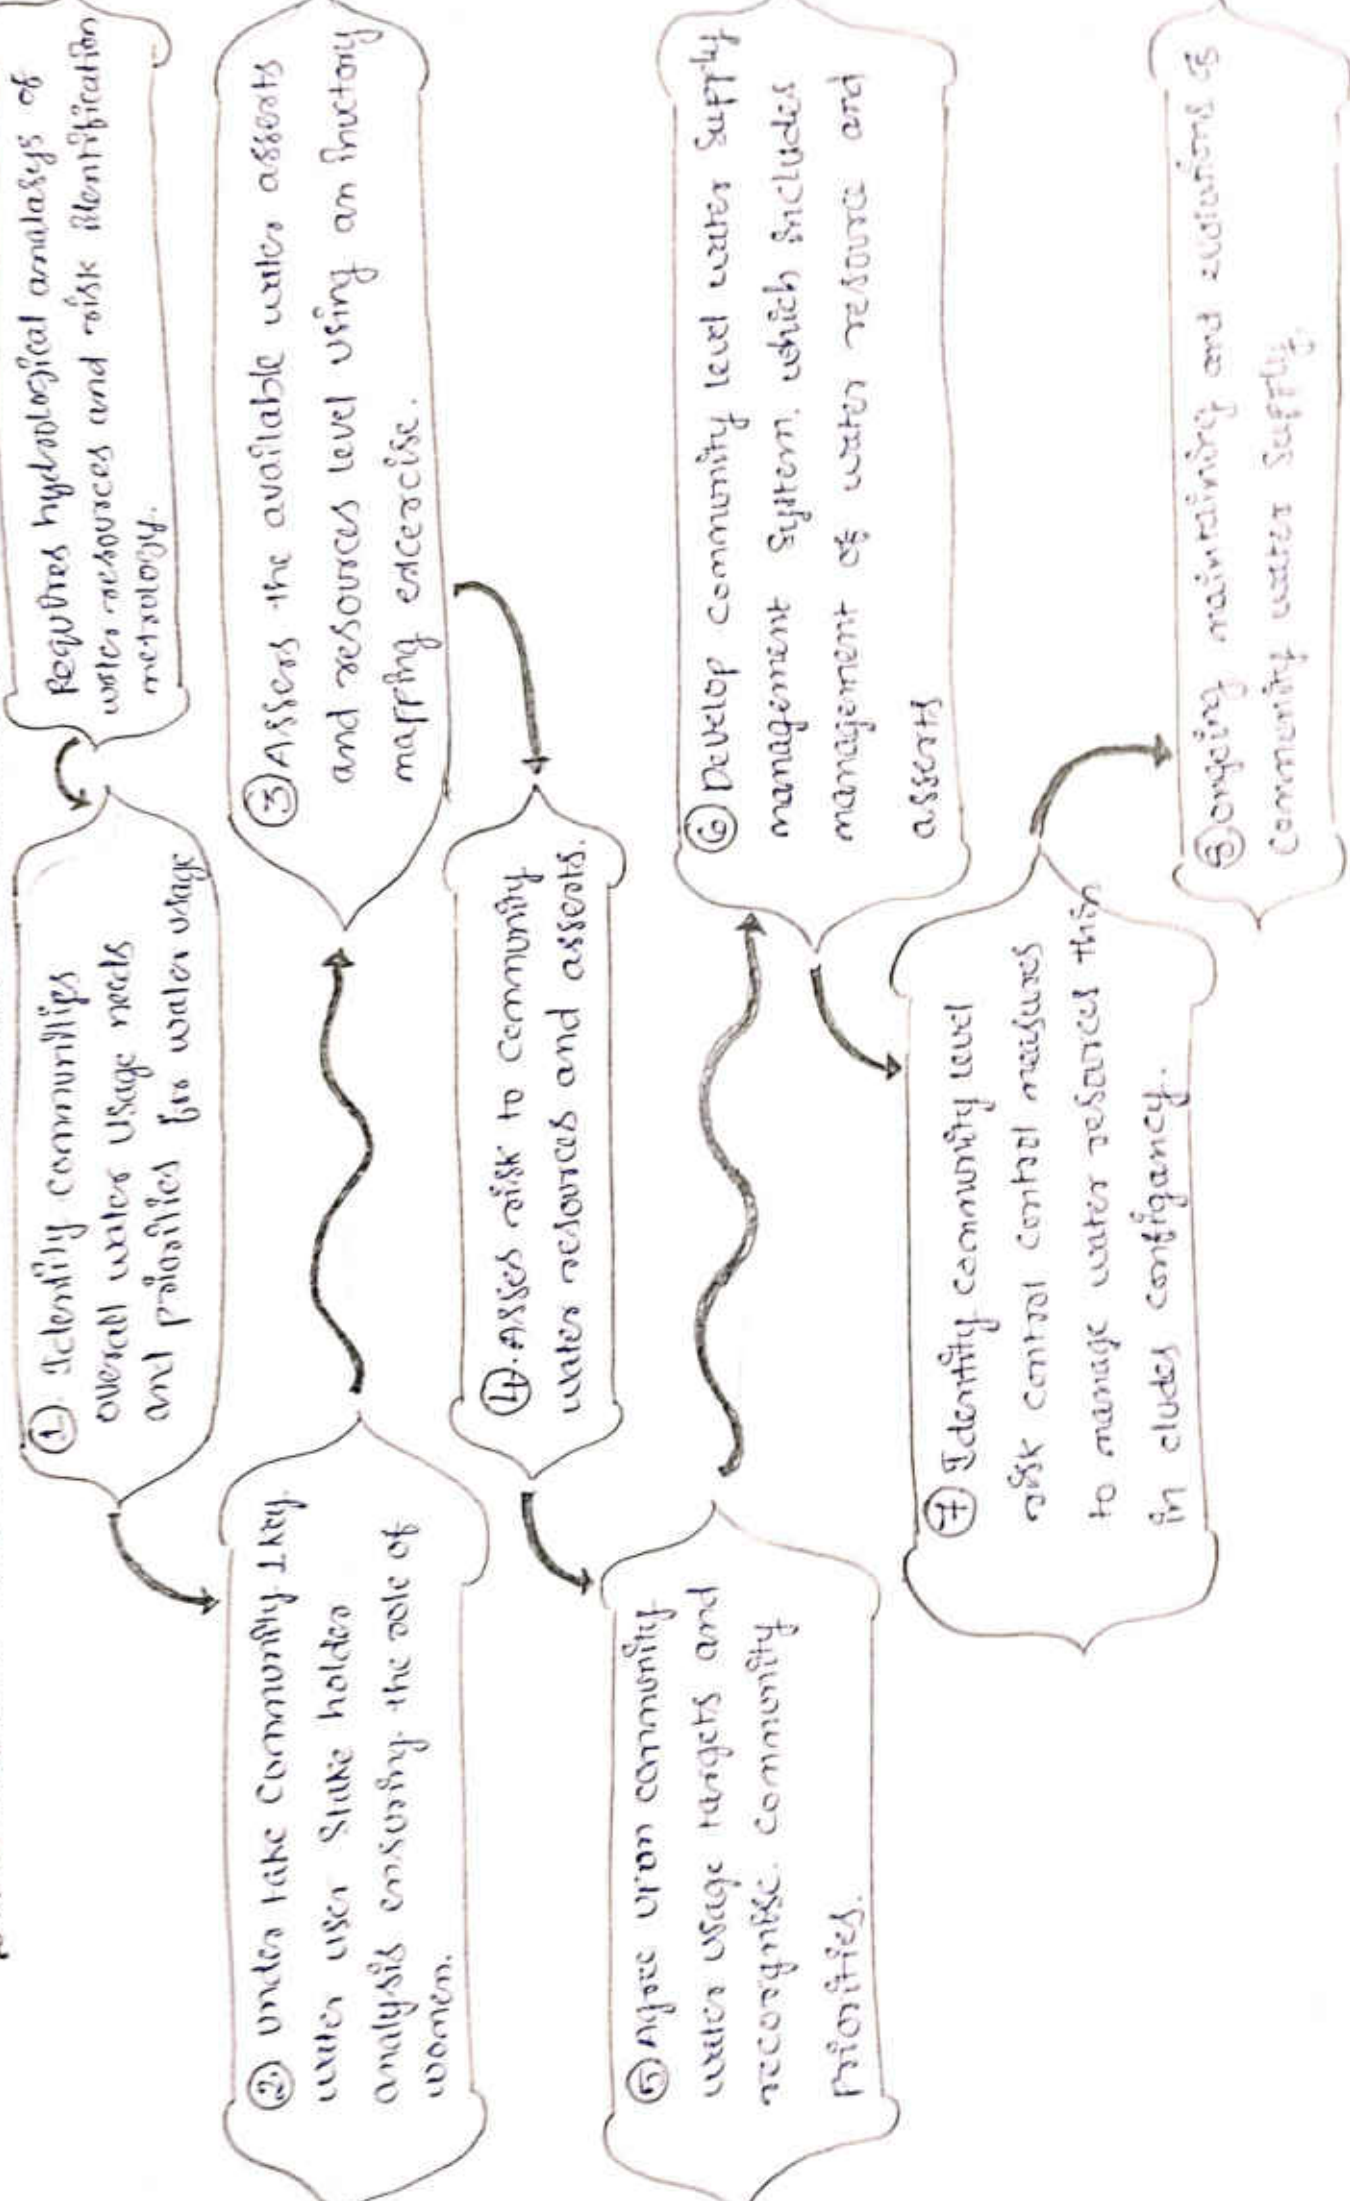

The people said that drinking water was very good. What kind of family members using for washup (or) takepath. In rural areas the people only use mostly use bucket and mug. Each family mostly used water per day atleast 100ltr. Small family will only used 50 liters per day.

In summer days the people in the village face water shortage. Normal days there is no problem with water. With help of community service project. I know the problems are in my village.

The third activity I did was do awareness in the village. I did the awareness of water saving with my friends and senior citizens.

I take a few minutes to talk about ways to conserve water in your neighborhood and invite people to share the suggestions.

~~~~~ COMMUNITY-BASED WATER RESOURCE MANAGEMENT ~~~~~

Title of the Project

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have: ✓
a) Own Tap with overhead tank b) Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water b) Tap Water c) Ground Water ✓
3. How do you evaluate the quality of your drinking water
a) Very Good b) Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At Hotels b) Other Places c) No ✓
5. What kind of Sewage System do you have
a) In house pit
b) Drainage System ✓
c) Polluted Water is driven into open space (i.e; Ground etc
6. How do you wash up/take bath
a) By running water under tap b) Use bucket and Mug ✓ c) Shower/Sauna
7. What kind of washroom do you use: a) Flush b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit d) More
9. Do you experience water shortages
a) No ✓ b) Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action c) None ✓
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid
12. Does the water you use is a) Fluoride water b) Hard water c) None ✓
13. How often do you clean water storage tanks per year
a) Once b) 2-3 times c) 4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/No
15. How much water is used in your family per a day
a) 40lit. ✓ b) 60lit c) 100lit d) More
16. How much water is used for drinking (only) in your total family per a day
a) 30 lit b) 40 lit c) 50 lit ✓ d) none
17. Is there any RO System (water plant) in your village: yes/no
18. How many RO System (water plant) are there in your village :
a) 1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village
a) Pond b) Lake c) River d) a or b
20. Is your village comes under coastal area: yes/no ✓

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have:
a) Own Tap with overhead tank b) Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water b) Tap Water c) Ground Water
3. How do you evaluate the quality of your drinking water
a) Very Good b) Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c) No
5. What kind of Sewage System do you have
a) In house pit
b) Drainage System
c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath
a) By running water under tap b) Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a) Flush b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit d) More
9. Do you experience water shortages
a) No b) Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action c) None
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid
12. Does the water you use is a) Fluoride water b) Hard water c) None
13. How often do you clean water storage tanks per year
a) Once b) 2-3 times c) 4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/No
15. How much water is used in your family per a day
a) 60lit b) 80lit c) 100lit d) More
16. How much water is used for drinking (only) in your total family per a day
a) 30 lit b) 40 lit c) 50 lit d) none
17. Is there any RO System (water plant) in your village: yes/no
18. How many RO System (water plant) are there in your village :
a) 1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village
a) Pond b) Lake c) River d) a or b
20. Is your village comes under coastal area: yes/no

Title of the Project

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have:
a) Own Tap with overhead tank ✓ b) Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water b) Tap Water c) Ground Water ✓
3. How do you evaluate the quality of your drinking water
a) Very Good ✓ b) Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c) No
5. What kind of Sewrage System do you have
a) In house pit
b) Drainage System ✓
c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath
a) By running water under tap b) Use bucket and Mug ✓ c) Shower/Sauna
7. What kind of washroom do you use: a) Flush b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit d) More
9. Do you experience water shortages
a) No ✓ b) Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action c) None ✓
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid
12. Does the water you use is a) Fluoride water b) Hard water c) None ✓
13. How often do you clean water storage tanks per year
a) Once b) 2-3 times c) 4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/No
15. How much water is used in your family per a day
a) 60lit ✓ b) 80lit c) 100lit d) More
16. How much water is used for drinking (only) in your total family per a day
a) 30 lit b) 40 lit c) 50 lit ✓ d) none
17. Is there any RO System (water plant) in your village: yes/no ✓
18. How many RO System (water plant) are there in your village :
a) 1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village
a) Pond b) Lake c) River d) a or b
20. Is your village comes under coastal area: yes/no ✓

Title of the Project

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have: ✓
a) Own Tap with overhead tank b) Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water b) Tap Water c) Ground Water ✓
3. How do you evaluate the quality of your drinking water
a) Very Good ✓ b) Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c) No ✓
5. What kind of Sewage System do you have
a) In house pit
b) Drainage System ✓
c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath ✓
a) By running water under tap b) Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a) Flush b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit d) More
9. Do you experience water shortages
a) No ✓ b) Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action c) None ✓
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid
12. Does the water you use is a) Fluoride water ✓ b) Hard water c) None
13. How often do you clean water storage tanks per year
a) Once b) 2-3 times c) 4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/No ✓
15. How much water is used in your family per a day
a) 60lit ✓ b) 80lit c) 100lit d) More
16. How much water is used for drinking (only) in your total family per a day
a) 30 lit b) 40 lit c) 50 lit ✓ d) none
17. Is there any RO System (water plant) in your village: yes/no ✓
18. How many RO System (water plant) are there in your village :
a) 1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village
a) Pond b) Lake c) River d) a or b
20. Is your village comes under coastal area: yes/no ✓

OBSERVATION

The activities I performed in the community services on society on social economic survey and water facilities and drinking water availability. The activities are of great significance as they enhanced the surrounding a lot. It also developed a mindset of "cleaning our surroundings" without form of dumping a waste water resistance causing diseases like cholera/diarrhea etc....

Awareness on water:-

Water awareness as we such using drinking and washing and indirect use.

I awareness of water with slogans.

- * Preserve water presence like
- * Save our water bodies, Save our planet.
- * Save blue, Save green.

CONCLUSION:- ~~~~~

I had definitely learned how to be more patience and be more productive. the journey from the right beginning that is declaring how can I help the community / society to be a better place, what activities will be well studied to my surrounding keep all the facts in mind I figured out few activities, that were providing food to the stray animals, plantation in public water wastage places, cleaning level drainages.

Each activity had its challenges and impressive outcome. the satisfaction the activity providing me were at different level. Helping out society, cleaning the society, cleaning drainages, using wastage water for watering plants. Seeing my area after cleaning I finished my work gave me a great feeling. I planted flowerely plants which uses after bathing wastage water.

Apart from the water resources and cleaning process, I feed the plants with waste water of house goods. Now I have many more friends in my society.

With my friends I did a water saving project. I feed the plants with water of house goods, and awareness of water wastage, to convey that use water for your quantity don't waste water for usual purposes.

Like.

1. Turn off the water while brushing your teeth.
2. If you wash dishes by hand, don't leave the water running for rinsing.
3. Water your lawn only when it needs it.
4. And use community water service water service water correctly.
5. Check your toilet for leaks.

I am looking forward to help the society in as many ways as possible. As we know small changes make a huge difference. I will even promote the idea of community service as a general responsibility for all.
