certificate

Certified that this project report "water facilities and drinking water availability" being submitted by M. Sarathbabu in partial fulfillment of the arrangement for the award of Bachelor of Science in Physical Department.

Honours in the award of B.Sc. side work done by them under the supervision during the academic year 2023-2025

Project guide

Jaipal sir

Lecturer in
Physics Department

OVCCM) Srirakulam

Declaration

I hereby declare that the project report entitled of "Community Service Project" submitted by me to MR. ~~.....~~ Jaipal Sir, programme incharge; Department of the ~~.....~~ in partial fulfillment of the requirement for award to degree of B.Sc in management

Department is a record of actual project work carried out by me under the guidance of - MR. Ravikumar Sir.

I further declare that work reported in this project has not been submitted and will not be submitted

Right in part or in full for the award of any other degree in this institute (or), any other institute (or) university.

What is meant by Community Service project

Community Service is work done by a person (or) group of people that benefit others. It is often done near the area where you live, so your own Community reaps the benefits of your work, through sometimes found and small gifts like a t-shirt are given to Volunteers

Community Service can help any group in need children, Senior Citizens, peoples with disability, english language learners and more it can also help animals. Such as those at a shelter, and it can be used to improve places such as local park historic building (or) Science area as well.

Community Service is often organized through at local group. Such as a place of worship, School (or) non-profit organization. Need important about CSP:-

Community Service has a number of important benefits engaging in Community Service Provides students with the opportunity to become active members of their Community and has a roster,

positive impact on Society of large.

Community Service (CS) Volunteering Enable students to acquire life skills and knowledge, as well as provides a service to those who need it most, there are some of the Community benefits of participating in a Community Service program.

Psychological benefits:-

Volunteering increases our all like satisfaction and helps you feel and good about your self because you are helping others it can also help to decrease stress and care depressions.

more benefits in CSP project:-

⇒ Social Benefits:-

Volunteering engages students with the Community connects bands with the population being served and increased social awareness and responsibility.

⇒ Cognitive Benefits:-

Volunteering helps students enhance their personal knowledge, grow from new experience and develop better interpersonal communication skills.

Which will further promote wellness of the nation and the world we live in.

The ways being which? helped the Society in solving problems are?

→ plantation in public parks

→ cleaning up local parks.

→ Providing food to the stray animals.

way to provide participate in Community Service:-

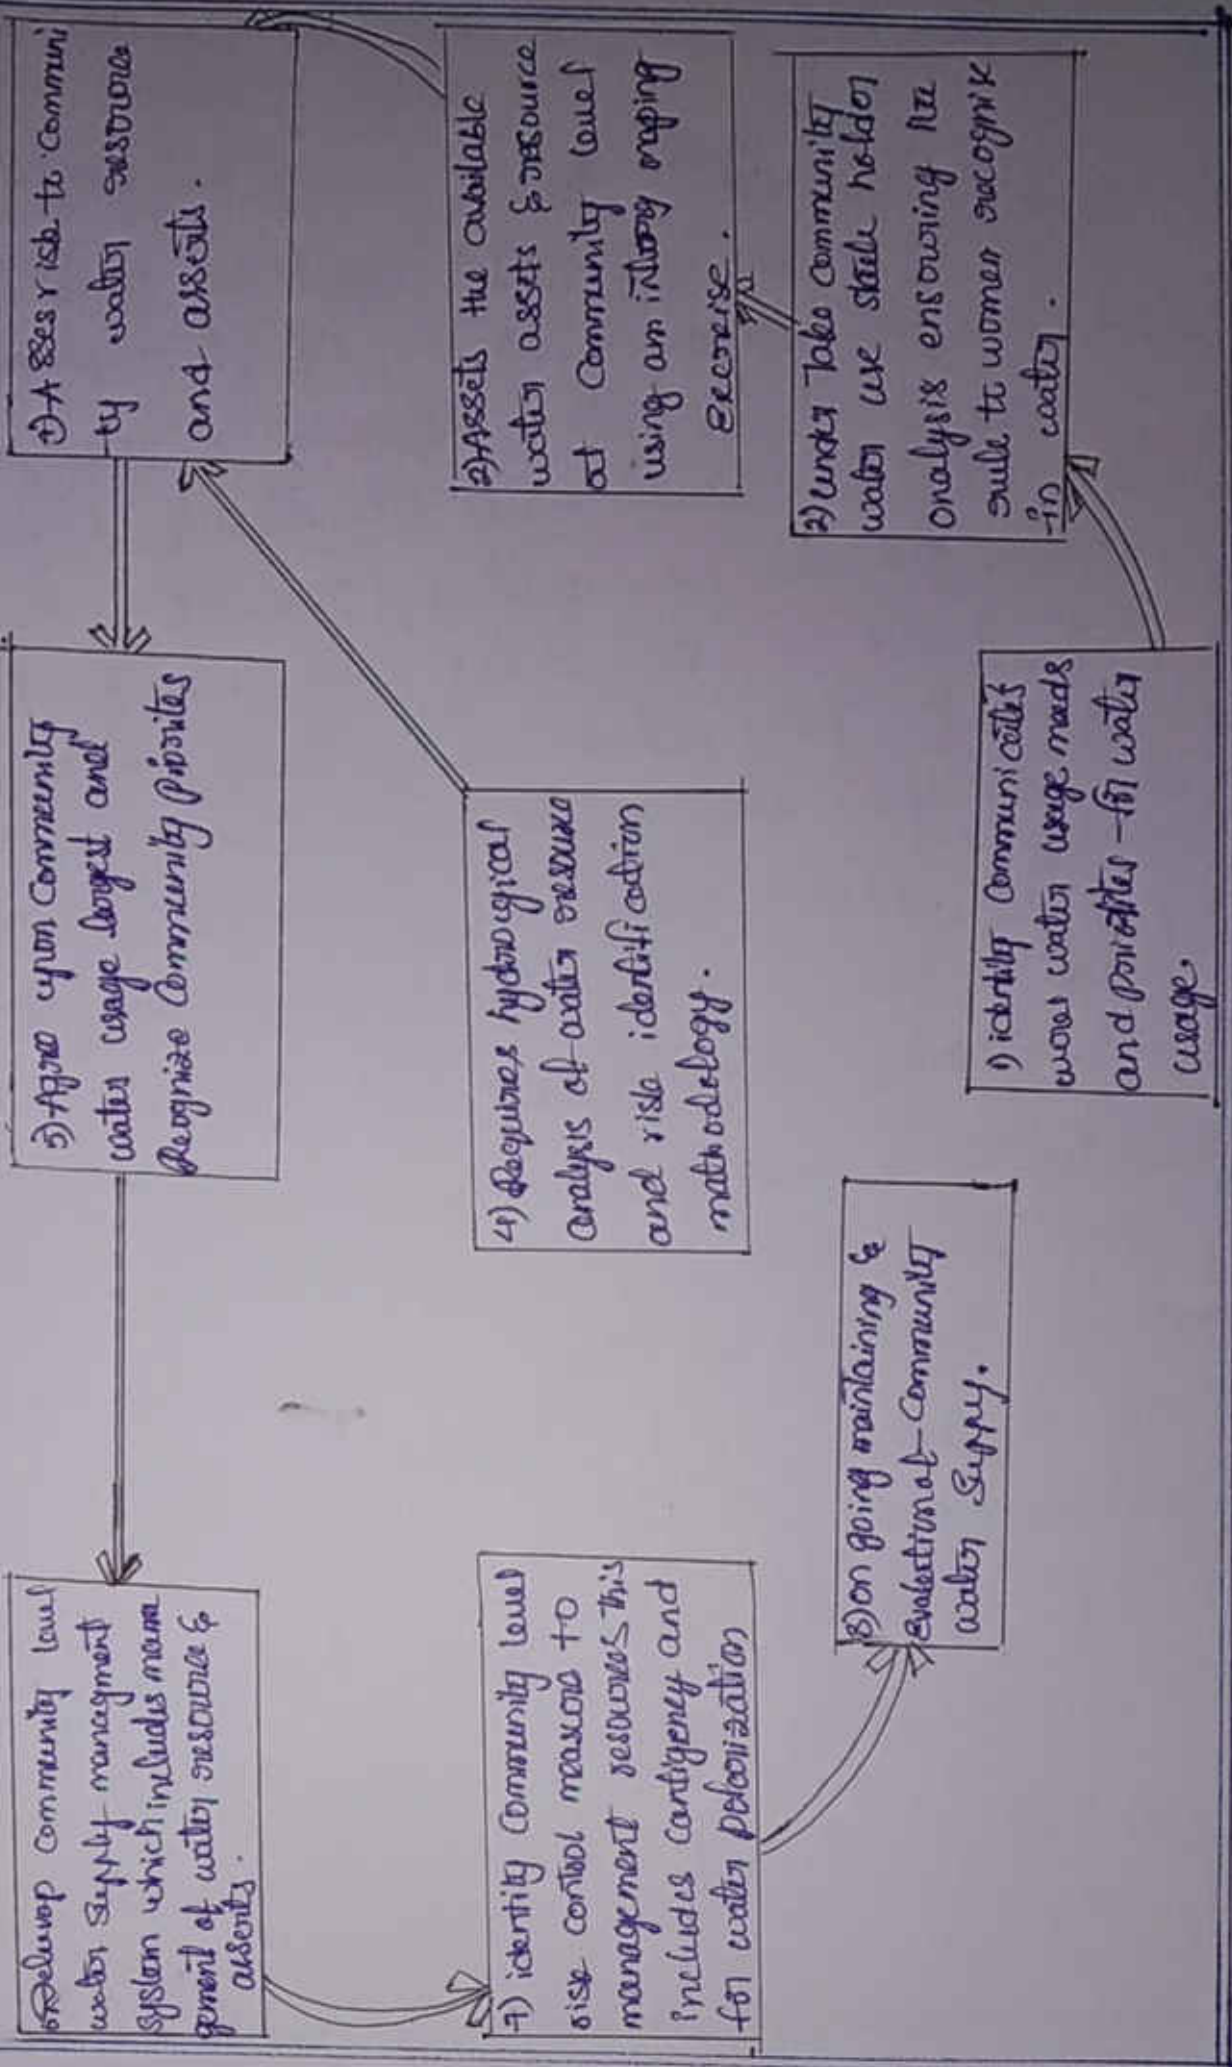

There are hundred ways to participate in Community Service, depended on the skills and interest. You can

Common Community Service Examples includes.

→ water is the driving force of all water.

→ nothing is softer (or) more flexible than water, yet nothing can resist it.

Community - Based on water Resource management

Develop community level water supply management system which includes management of water resources & assets.

Agree upon community water usage largest and Recognize Community Priorities

Assess risks to Community water resources and assets.

Identify community level risk control measures to management resources this includes contingency and for water poliorization

Requires hydrological analysis of water resource and risk identification methodology.

Assets the available water assets & resource at Community level using an inventory mapping exercise.

On going maintaining & Evaluation of community water supply.

Identify community water usage needs and priorities for water usage.

Under take community water use stakeholder analysis ensuring role to women recognition in water.

Problem Statement

major problems that today's Society and our Surroundings are facing are listed below, there are lot of many problems that are to be addressed but the problem that can be addressed and has to be solved as soon as possible are listed below.

pollution in multiple ways like air pollution, water pollution, noise pollution etc. adolescent pregnancy, access to domestic, clean drinking water, child-abuse and to domestic, clean drinking water child abuse and neglect domestic violence, drug use, pollution, mismanagement of resources, lack of funding for schools & management of resources police brutality.

I tried to solve some problems as an individual the energy and time it took was addressable but the results it should be of great significance in groups, work done, As an individual my opinion to the Society in work in groups, work done but your little efforts to the goodness of the Society will bring a drastic change in the Society as well as in the minds of the Neighbors & College.

participating in Community Service not only makes a difference to the organization and people being served but also makes a difference to every student's career prospects.

Participating in CSP activities helps to enhance student's resume by allowing students to obtain work related skills prior to employment in Community involvement, and provides a forum to network with in.

Basic ground:

Community Service is a non-paying job, performed by one person or a group of people for the benefit of their community or its institutions.

Community Service is distinct from volunteering.

Service since it is not always performed on a voluntary basis. It may be for a variety of reasons.

→ it may be required by a government as a part of citizenship requirements, like the mandatory hand and hotel - - up service for some municipalities in Germany, or generally in case of military service or for Civil Conservation Services.

→ it may be required as a substitution of, or in addition to, other Criminal Justice Sanctions. When performed for this reason, it may be ordered to as Community pay back.

→ It may be mandated by schools to meet the requirement of a class, such as in the case of Service Learning or to meet the requirements of graduating as class Valedictorian.

→ in the UK, it has been made a condition of the receipt of certain benefits.

→ in Sweden it is a suspended sentence called "Samhall stijaust" (Society Service)

Observations

① observed some diseases such as cholera, Typhoid, malaria in an village, because of water problems and drainage systems.

Some people suffer with illness due to lack of water from ponds, lakes etc. water resources are very important we must use water resources carefully.

Precautions:

- * we drink good water like mineral water.
- * the people who own the well should observe certain precautions to ensure the quality of the water.
- * washing of cloths & animals in the surroundings of the well be prohibited -

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have:
 a) Own Tap with overhead tank b) Underground water well/bore c) Community
2. What type of water do you use for drinking a) Mineral Water b) Tap Water c) Ground Water
3. How do you evaluate the quality of your drinking water
a) Very Good b) Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c) No
5. What kind of Sewage System do you have
 a) In house pit
b) Drainage System
c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath
a) By running water under tap b) Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a) Flush b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit d) More
9. Do you experience water shortages
a) No b) Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action c) No
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies Typhoid
12. Does the water you use is a) Fluoride water b) Hard water c) None
13. How often do you clean water storage tanks per year
a) Once b) 2-3 times c) 4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/No
15. How much water is used in your family per a day
a) 60lit b) 80lit c) 100lit d) More
16. How much water is used for drinking (only) in your total family per a day
 a) 30 lit b) 40 lit c) 50 lit d) none
17. Is there any RO System (water plant) in your village: yes/no

Title of the Project

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have:
 a) Own Tap with overhead tank b) Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water b) Tap Water c) Ground Water
3. How do you evaluate the quality of your drinking water
 a) Very Good b) Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c) No
5. What kind of Sewage System do you have
 a) In house pit
 b) Drainage System
 c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath
 a) By running water under tap b) Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a) Flush b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit d) More
9. Do you experience water shortages
 a) No b) Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action c) None
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid
12. Does the water you use is a) Fluoride water b) Hard water c) None
13. How often do you clean water storage tanks per year
 a) Once b) 2-3 times c) 4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/ No
15. How much water is used in your family per a day
 a) 60lit b) 80lit c) 100lit d) More
16. How much water is used for drinking (only) in your total family per a day
 a) 30 lit b) 40 lit. c) 50 lit d) none
17. Is there any RO System (water plant) in your village: yes/ no
18. How many RO System (water plant) are there in your village :
 a) 1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village
 a) Pond b) Lake c) River d) a or b
20. Is your village comes under coastal area: yes/ no

Title of the Project

"WATER FACILITIES AND DRINKING WATER AVAILABILITY"

Questionnaire for the Project

1. What type of Water System do you have:
 a) Own Tap with overhead tank b) Underground water well/bore c) Community Tap
2. What type of water do you use for drinking a) Mineral Water b) Tap Water c) Ground Water
3. How do you evaluate the quality of your drinking water
 a) Very Good b) Satisfactory c) Dissatisfied
4. Do you drink water from Outside : a) At hotels b) Other Places c) No
5. What kind of Sewage System do you have
 a) In house pit
 b) Drainage System
 c) Polluted Water is driven into open space i.e; Ground etc
6. How do you wash up/take bath
 a) By running water under tap b) Use bucket and Mug c) Shower/Sauna
7. What kind of washroom do you use: a) Flush b) Bucket/Mug c) ODF
8. How much Water do you use for a day: a) 20lit b) 30lit c) 40lit d) More
9. Do you experience water shortages
 a) No b) Rarely c) Almost every year d) It is constant problem
10. Do you have water conservation methods: a) Pits b) Community action c) None
11. Are you suffering any water borne diseases: a) Malaria b) Cholera c) Scabies d) Typhoid
12. Does the water you use is a) Fluoride water b) Hard water c) None
13. How often do you clean water storage tanks per year
 a) Once b) 2-3 times c) 4 times d) >6 times
14. Are you interested to learn Water conservation methods: Yes/ No
15. How much water is used in your family per a day
 a) 60lit b) 80lit c) 100lit d) More
16. How much water is used for drinking (only) in your total family per a day
 a) 30 lit b) 40 lit c) 50 lit d) none
17. Is there any RO System (water plant) in your village: yes/ no
18. How many RO System (water plant) are there in your village :
 a) 1 b) 2 c) 3 d) None
19. What type of Water bodies are there in your village
 a) Pond b) Lake c) River d) a or b
20. Is your village comes under coastal area: yes/ no
