WEEKLY REPORT

WEEK - 1 (From Dt. 05/05/23... to Dt. 11/05/23...)

Objective of the Activity Done:

To collect Demography data.

Detailed Report:

In this first week, we started the Community service project in Kosakavilasa village, LN Peta is the mandal, Andhrapradesh. We selected a topic - 'E-waste Management'.

Population and other aspects like age structure, sex ratio, Literacy rate, occupational composition, family type, are the requirements under this topic.

In the first week, we collectively went to the community to overlook the conditions and situations in village. We found that, the community has own houses, own toilets and under-ground drinking water system through bore-wells.

We collectively surveyed around 25 houses in our village and collected data which are required to make demographic profile of ward from the first week data. We had a report that migrations are gradually increasing in ward to community.

Objective of the Activity Done:

Detailed Report:

Surveying & Collection of demographic data.

In this second week, we continued surveying the remaining houses in Kosakavalasa village. Our survey had ended in the weekend.

When compared to first week, we had lot of experiences with village people while conducting survey in community.

The experiences are:

- Community people are still believing superstitions.
- They do not have awareness on the social media news. They are following fake news.
- During survey, we have seen only small children, elders aged above 30 years and old aged people.
- Many young people are went to far places for education and employment.
- Still people are living in segregations as per their communities in habitat.
- There are six families who don't work, but leading their life with pension amount provided by Government.
- Agriculture, cattle rearing and daily waged work are sources of income.

Objective of the Activity Done:

Project final report writing.

Detailed Report:

In this fourth week, we gathered in college and analyzed the raw data collected during survey. The primary data was clearly and neatly observed and created tabulation of data and represented data in graphs. We made final report of our survey data and submitted in college.

First we organized the primary data collected through survey. We analyzed the raw data and made tabulation of raw data for easy understand and further study.

Then final report was made with the tabular data, graphical data, diagrammatic data and description of data.

At last we submitted our report to the college.

We have worked daily 6 hours for this project.

Totally we have worked 180 hours ($30 \text{ days} \times 6 \text{ hours} = 180 \text{ hours}$) to complete and submit of this project.

We enjoyed the process.

CHAPTER 5: OUTCOMES DESCRIPTION

Details of the Socio-Economic Survey of the Village/Habitation. Attach the questionnaire prepared for the survey.

Social - Economic Survey of Habitation:

Karakavala village is economically and socially stable village. The economic conditions of habitation are very fine as some work for living 2 to 3 families financially struggling as their disability. The habitations is socially very fine that they have coordination among them. They used to live in segments according to their communities. They collectively celebrates festivals grandly.

Questionnaires:

1. Write household details?
2. What is source of income to your family?
3. Is the house you're living in is owned or rented?
4. What is community and religion?
5. Is there availability of Agricultural land?
6. Do you have water facilities?
7. Do you have own toilets?
8. Do you have white ration card?
9. Do you have TV?
10. Is there internet available at home?

Describe the problems you have identified in the community

Problems in Community:

1. There is high chance of floods to this village during heavy rains as gets full of rain water and surplus water flows into community.
2. Treatment of upper class community people with lower class is not fine.
3. Communities are still following useless superstitions.
4. Some of peoples are not using their toilets and preferring open defecation.
5. As per global e-waste data, 44.48 million-ton global electronic waste is being generated annually.

Short-term and long term action plan for possible solutions for the problems identified and that could be recommended to the concerned authorities for implementation.

Solution for the problems:

- As many old-aged and a few middle-aged peoples in community are not doing any work. If any work is provided to them as per their capabilities, the productivity increases and it leads to rise the community economy.
- Some streets are not having street lights.
- Government should take necessary actions to end the illegal land dealing by brokers in this community.
- The solution is to stop to pass through a community.

Description of the Community awareness programme/s conducted w.r.t the problems and their outcomes.

Community Awareness Programmes:

On the community awareness programmes were conducted in Karakavalasa village on topics-

1. E-waste management.
2. Health and Hygiene.
3. Importance of education.
4. Awareness on superstitions.
5. Rural digitalization.

~~5.~~ E-waste management refers to properly disposing and managing electronic waste, including old or discarded electronic gadgets such as phones, computers and telephones.

The negative impact of electronic waste on the environment and human health and hygiene by minimizing pollution, conserving natural resources and energy and promoting sustainability.

Education awareness programme conducted to let know community about the importance of education to every person.

To remove superstitions, a programme was conducted to aware people that there is no use of superstitions.

To digitalize the village, 'Rural digitalization' programme was conducted to aware the importance of digitalization in day-to-day life.

CHAPTER 6: RECOMMENDATIONS AND CONCLUSIONS OF THE MINI PROJECT

Recommendations:

- Communities should leave superstitions.
- Women population should be ratio to be raised.
- Know a product's life span before you buy it.
- Spread the word about E-waste.
- Maintain your current electronic equipment.
- Have cooperation among communities.
- Don't give up the life for debts and useless pride in communities.

Conclusion:

E-waste management is a critical issue that must be addressed in order to protect the environment and human health.

For example, lead in e-waste can contaminate soil and water resources, causing serious harm to both wildlife and human populations.

- Main livelihood for most of them is daily-waged labour.
- Somebody has own houses.
- Major irrigation sources are bore-wells, own toilets, drinking water facilities etc.
