CHAPTER 5: OUTCOMES DESCRIPTION

Describe the work environment you have experienced (in terms of people interaction, facilities available and maintenance, clarity of job roles, protocols, procedures, processes, discipline, time management, harmonious relationships, socialization, mutual support and teamwork, motivation, space and ventilation, etc.)

Intern's work environment is one of the aspects of intrinsic quality addressed in this report. The people at MPP School in Etchesla Mandal in Anantapur district, where I found a good interacting staff as well as an intern under learning improvement to improve our teaching techniques. We were given a desk for our work, and provided by minimal things like chalk. Our role is to enhance the students and observe them. Analyzing all activities by students and staff. Our timings were from 9:30 AM to 3:30 PM.

The headmasters and the teachers are very polite and humble to me. The students are very friendly and interactive which made me socialize with them very easily. The other interns were also cooperative in work. We are also given space for process is very useful.

Describe the real-time technical skills you have acquired (in terms of the job-related skills and hands on experience)

Where are some technical skills I have acquired from this internship

I have known about how to put my knowledge and skills into practice. As we provided a schedule to teach them, which is module where it contains Telugu, English, Maths Art and craft and a game for skills and staff at my working place. I learned that every department has its own work. I was very curious to learn to new skills from several department of the school. headmasters and the staff classifies my each and every doubt about the school.

Asking and receiving feedback is very important. It is essential to take note of both the positive and negative points for future.

Describe the managerial skills you have acquired (in terms of planning, leadership, team work, behaviour, workmanship, productive use of time, weekly improvement in competencies, goal setting, decision making, performance analysis, etc.)

There are some managerial skills I have acquired from this internship.

I learned how to efficiently deal with people and developing my managerial skills. As we provided a module by LTP programme through an app we have our assigned work to complete with respect to time that we have. We have as intern in that school. I learned to manage time and work that engaged with several department of school.

We have kept notes to not down the observations that we made everyday such as the food that they provide books and other essential for their studies. Our intern team held a meeting session to discuss several.

Describe how you could improve your communication skills (in terms of improvement in oral communication, written communication, conversational abilities, confidence levels while communicating, anxiety management, understanding others, getting understood by others, extempore speech, ability to articulate the key points, closing the conversation, maintaining topics and protocols, greeting, thanking and appreciating others, etc.)

I have huge improvement in communication skills ^{etcetera} in this internship in M.P.P. Mandal Street in Srikakulam. Dwarapuvanipeta village.

As we have been always interactive with students and staff. our communication skills improved day by day. As we feel tense to talk with initially but later we feel comfortable to talk. as we improved our communication skills writing on blackboard feels anxiety. at initial stage later we feel confident in teaching by the advices gives by the teaching staff. we have also developed few teaching skills in our internship.

Describe how could you could enhance your abilities in group discussions, participation in teams, contribution as a team member, leading a team/activity.

Team work is one of the most significant skills I have learned in my workplace.

We the interns of Municipal Elementary School in Mandal Street of Sitakulam formed as a team to enhance and improve our work in an efficient way.

Firstly all of us doesn't have any relation between each other but Gradually we became a team and each one became the leader of that team where the conduct discussions on every week to enhance the children which plays a vital role in our performance at work place.

Working as a team member and leader in the intern team, made me know about how to work to manage the team.

Describe the technological developments you have observed and relevant to the subject area of training (focus on digital technologies relevant to your job role)

The Government has taken a big leap in implementing technology in Education system to amplify digital transformation of school.

The Municipal Elementary School in Mandal Street of Srikalayan district needs in this stage of academic year.

The headmasters update the information of school through smart phone. He can faces of the students and verify their day to day attendance. And he also take photograph of the children during their lunch time of their menu and nutrient food.

The headmasters observed the teaching method in every classroom and he asked us to practice the Academic year in English medium.
