CHAPTER 5: OUTCOMES DESCRIPTION

Describe the work environment you have experienced (in terms of people interactions, facilities available and maintenance, clarity of job roles, protocols, procedures, processes, discipline, time management, harmonious relationships, socialization, mutual support and teamwork, motivation, space and ventilation, etc.)

Internship work environment is one of the aspects of Internship of Internship quality addressed in this report. The people of MPPS school are good and very well interacted. We were given a desk for our work with basic things like chalk pieces and dusts etc. Our role is to enhance the students. Observe them and other negative. Analyse all activities by students and staffs. Our timings are from 9:00 AM to 3:30 PM.

The Head Master and the Teacher are very polite and humble to me. The students are very friendly and interactive which made me socialize with them very easily. The other interns were also very co-operative in work. We are the 60 interns as a team are very active and focussed on the work. We were also given space for our process which made our "Internship" very useful for us.

Describe the real time technical skills you have acquired (in terms of the job skills and hands-on experience)

There are many Technical skills, I have acquired from this 'Internship'

I have come to know about how to put my knowledge and skills into practice such as mentoring. I learned how to communicate and build relationship with people I worked. I learned that every department or organisation has its own culture. I quickly learned that every company has its own culture. As an intern, I discovered it essential to be enthusiastic and open to learn new skills. I learned that it is very important to communicate with teachers, and head master if at all I have any doubts.

Asking and receiving feedback is very important. It is essential to take note of both the positive and negative points for further. I learned that sometimes asking for feedback or receiving feedback is difficult to hear, but it will have a significant impact on our service and success.

Describe the managerial skills you have acquired (in terms of planning, leadership, team work, behaviour, workmanship, productive use of time, weekly improvement in competencies, goal setting, decision making, performance analysis, etc).

There are also some managerial skills I have acquired from this "Internship".

I learned how to deal with people effectively. Developing managerial skills is important to all professions. As a team, we planned about scheduling with respect to time and we all acted as a leader for every week. We changed our workplace culture for productive use of time.

We have kept notes for observing every improvement throughout the week. We all discussed about all pros and in our this journey, we also have developed our decision making skills which are very essential for further. As per the final day we have found that our performance is upgraded.

Describe how you could improve your communication skills (in terms of improvement in oral communication, written communication, conversational abilities, confidence levels while communicating, anxiety management, understanding others, getting understood by others, extempore speech, ability to articulate the key points, closing the conversation, maintaining niceties and protocols, greeting, thanking and appreciating others, etc.)

→ we have improved our communication skills a lot in this internship at MPPS school, Ghinna Jaduru, Srikokulam.

As we have been interacting with each student, we improved our communication skills as we are assigned to classroom. At 1st day, we felt some tensed, but now we are confident while communicating & conversing with other.

We also come to know that how to understand other people. We also improved our speaking skills from prepared level to extempore level. We developed ourselves from a student to an intern. We have also developed few teaching skills in our way, which made student to feel better.
