

Model Program Book

SEMESTER INTERNSHIP

Designed & Developed by

**ANDHRA PRADESH
STATE COUNCIL OF HIGHER EDUCATION**

(A STATUTORY BODY OF GOVERNMENT OF ANDHRA PRADESH)

PROGRAM BOOK FOR
SEMESTER INTERNSHIP

Devupalli. Keerthika.

Name of the College : Government Degree College (men)
Srikakulam

Registration Number : 2022001056007

Period of Internship :

7th Dec 2022 - 18th March 2023

Name & Address of the Internship Institute : Government General
Hospital (GGH) Srikakulam

DST-B.R.Ambedkar University

An Internship Report on

Medical field

(Title of the Semester Internship Program)

Submitted in accordance with the requirement for the degree of
5th Semester III CBMB

Under the Faculty Guideship of

D. Ravindra

(Name of the Faculty Guide)

Department of
Govt. degree college (men) SKLM

(Name of the College)

Submitted by:

Devupalli. Keerthika

(Name of the Student)

Reg.No: 2022001056007

Department of Microbiology

Degree college (men) Srikakulam

(Name of the College)

Student's Declaration

I, DEVUPAULI KEERTHIKA a student of B.S.C III year Program, Reg. No. 2022001056007 of the Department of CBMB. GDC(MFN) College do hereby declare that I have completed the mandatory internship from 07/12/22 to 18/03/2023 in Govt. General Hospital (Name of the intern organization) under the Faculty Guideship of D.Ravindra (Name of the Faculty Guide), Department of BOTANY, Govt. degree college (MFN) SKIM (Name of the College)

D.Keerthika
(Signature and Date)

Official Certification

This is to certify that DEVUPALI KEFERTHJA (Name of the student) Reg. No. 202201056007 has completed his/her Internship in Gr-6A-H Skim (Name of the Intern Organization) on Medical (Title of the Internship) under my supervision as a part of partial fulfillment of the requirement for the Degree of B.Sc Microbiology, in the Department of Govt. degree college (Name of the College).

This is accepted for evaluation.

(Signatory with Date and Seal)

Endorsements

Lecturer in SCIENCE
Govt. Degree College
SRIKAKULAM

Faculty Guide

Head of the Department

Principal **PRINCIPAL**
Government Degree College (Men)
SRIKAKULAM

Certificate from Intern Organization

This is to certify that DEVIYANI BEERTHAKA (Name of the intern)
Reg. No 2022001056007 or GDC (Mew) (Name of the
College) underwent internship in Govt General Hospital (Name of the
Intern Organization) from 7-12-2022 to 18-3-2023

The overall performance of the intern during his/her internship is found to be
Satisfactory (Satisfactory/Not Satisfactory).

Dr. K. SARADAMBA, M.D
Professor & HOD
Department of Bio-Chemistry
Government Medical College, 5/20
Authorized Signature with Red Seal

Page No 19/21

Acknowledgements

This hospital in we are highly obligated to respected to Dr. Shri Pora Bhaskar. Commissioner for providing a great opportunity for internship.

We are grateful to our Dr. P. Sudertha principle GDC [men] Sriukakulam for her sincere encouragement towards internship.

We are thankful to sri B. Mohan Rao coordinate for internship & his continuous coordination and communication with students.

We are grateful to D. Ravendra lecturer in Botany class mentor for his continuous monitoring for his continuous monitoring for the entire internship.

RMO Assistant professor, HOD and lab technician of GATH thank you so much for giving the opportunity to complete my internship at GATH. I have learnt so much and appreciate the time you spent leading my new skills.

Contents

- 1) title page.
- 2) An internship report.
- 3) Instructions to students.
- 4) student declaration.
- 5) official certification.
- 6) certificate from intern organization
- 7) Acknowledgements
- 8) chapter -1 - Executive summary.
- 9) chapter -2 - overview of the organisation.
- 10) chapter -3 - Internship Part.
- 11) chapter -4 - Activity log book from 1st week to 15th week.
- 12) chapter -5 - Internship outcomes description.
- 13) student self evaluation.
- 14) evaluation by the supervisor.
- 15) Internship photos and videos
- 16) Internal & external evaluation.

CHAPTER 1: EXECUTIVE SUMMARY

The internship report shall have a brief executive summary. It shall include five or more Learning Objectives and Outcomes achieved, a brief description of the sector of business and intern organization and summary of all the activities done by the intern during the period.

The leaving and that are medical department in that at we went to the RIMS hospital for the internship training and have allotted on the lab department as lab assistant and have leaved some work.

- 1) Sample collection.
- 2) Blood test.
- 3) Giving report for the test
- 4) connecting saline bottle to the patients
- 5) B.P checking to the patients.

Activities done by me in the internduring the point months:-

HOD of lab department allotted to the ICU ward we have leaved there and also they allotted to the Sample point and we have learned here how to collect the blood sample. We have learned a lot of all the blood test by using their standard experiments.

CHAPTER 2: OVERVIEW OF THE ORGANIZATION

Suggestive contents

- A. Introduction of the Organization
- B. Vision, Mission, and Values of the Organization
- C. Policy of the Organization, in relation to the Intern role
- D. Organizational Structure
- E. Roles and responsibilities of the employees in which the intern is placed.
- F. Performance of the Organization in terms of turnover, profits, market reach and market value.
- G. Future Plans of the Organization.

- > Future plans of the organization.
- > Performance of the organization in terms of turnover over profit and market value.
- > Roles and responsibilities of the employees in which the intern is placed.
- > Organizational structure.
- > Policy of the organization in relation with the intern role.

CHAPTER 3: INTERNSHIP PART

Description of the Activities/Responsibilities in the Intern Organization during Internship, which shall include - details of working conditions, weekly work schedule, equipment used, and tasks performed. This part could end by reflecting on what kind of skills the intern acquired.

They allotted as to different wards in our hospital in lab department they used different equipment in different tests. In sample department they used the equipment is collecting the sample. In ICU ward we have observed that they maintain records. we may in every tests of the work in each department find we have learned how to insert the syringe and collect the blood.

This will be useful to us that how to test blood in the lab and we may this as the one of currying to know the knowledge on medical.

That they use for in the lab department in the another labs.

ACTIVITY LOG FOR THE FIRST WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	we went to the serology lab and observed the tests done in the lab	I have learned the usage of lab equipment	Dw
Day -2	we went to the serology lab and observed the tests done in the lab.	I have learned the usage of lab equipment	Dw
Day -3	we went to the serology lab and observed the tests done in the lab.	I have learned the usage of lab equipment.	Dw
Day -4	we went to the serology lab and observed the tests done in the lab	I have observed the H.C.V test.	Dw
Day -5	we went to the serology lab and observed the tests done in the lab	I have observed the H.C.V test	Dw
Day -6	we went to the serology lab and observed the tests done in the lab	I have observed the H.C.V test	Dw

WEEKLY REPORT

WEEK - 1 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In this entire PJSK week I was allotted in the serology department it was a polite meeting with the staff in the lab. The first three days in the lab we observed the lab equipment which are used to perform various tests. We observed the centrifuge, refrigerator etc. and other instruments like micropipette, test tubes, bunnies, flasks and other glass ware etc. And the last three days in the week we observed the test procedure of HCV test in the serology lab. This test is used for initial screening for hepatitis. The test performed by enzyme immuno assay, which detects the presence of hepatitis C-antibodies in serum, the serum is separated from blood by the process centrifugation. In the internship organization they use a rapid invitro diagnostic test for HCV for qualitative detection of antibodies specific to HCV simultaneously in human serum (87) plasma.

ACTIVITY LOG FOR THE SECOND WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	we went to serology lab and observed the tests done in the lab.	I have observed the malaria test	P
Day -2	we went to the serology lab and observed the tests done in the lab.	I have observed the malaria test	P
Day -3	we went to the serology lab and observed the tests done in the lab.	I have observed the malaria test	P
Day -4	we went to the serology lab and observed the tests done in the lab.	I have observed the malaria test	P
Day -5	we went to the serology lab and observed the tests done in the lab.	I have observed the malaria test	P
Day -6	we went to the serology lab and observed the tests done in the lab.	I have observed the C.R.P test.	P

WEEKLY REPORT

WEEK - 2 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In this entire second week I was allotted in the serology department in this week we observed two tests one is the malaria test and C.R.P test in the internship organization they use malaria PF/PV Antigen, it is a rapid invitro diagnostic test for qualitative detection and differentiation of plasmodium falciparum and plasmodium vivax antigen in human whole blood. Malaria is a disease caused by a parasite. Malaria common in tropical and sub-tropical areas. So, malaria tests are regularly conducted in the organization. CRP test a reactive protein test measure the level C² reactive protein sample of your blood. CRP is a protein that your liver makes a CRP test can show whether you have inflammation in your body and how much.

ACTIVITY LOG FOR THE THIRD WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	We went to the serology lab and observed the tests done in the lab.	I have observed the CRP test	R
Day -2	We went to the serology lab and observed the tests done in the lab	I have observed the CRP test	R
Day -3	We went to the serology lab and observed the tests done in the lab	I have observed the CRP test	R
Day -4	We went to the serology lab and observed the tests done in the lab.	I have observed HBS-Ag test.	R
Day -5	We went to the serology lab and observed the tests done in the lab.	I have observed HBS-Ag test	R
Day -6	We went to the serology lab and observed the tests done in the lab.	I have observed HBS-Ag test.	R

WEEKLY REPORT

WEEK - 3 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In this entire third week I have observed two tests. The first three days I have observed the CRP test and the next three days observed the HBSAG test. As we observed the same test procedure in the first three days we observed the HBSAG test, is a rapid *in vitro* diagnostic test for qualitative detection of Hepatitis B surface antigen in human serum (or) plasma. It is a viral infection that attack the liver. In the internship organization they also provide free medicine and free vaccines for this infection we also observed many activities in the laboratory like clearing the lab, making records for the tests done in the whole day, uploading the tests done in the organisation to online base and observed other ~~staff~~ works done in the lab.

ACTIVITY LOG FOR THE FORTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	We went to the serology lab and observed the tests done in the lab.	I have observed the ASO test	Paro
Day -2	We went to the serology lab and observed the tests done in the lab.	I have observed the ASO test	Paro
Day -3	We went to the serology lab and observed the tests done in the lab	I have observed the ASO test.	Paro
Day -4	We went to the serology lab and observed the tests done in the lab	I have observed the widal test	Paro
Day -5	We went to the serology lab and observed the tests done in the lab	I have observed the widal test	Paro
Day -6	We went to the serology lab and observed the tests done in the lab	I have observed the widal test.	Paro

WEEKLY REPORT

WEEK - 4 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report:

In this entire fourth week we were allotted to the serology lab and we observed the ASO test in the first three days of the week. ASO test is used to measure the antibodies produced by your body as a response to the group A streptococcus bacteria. Generally, an ASO test value below 200 is considered normal and in children under the age 5, the value is below 100. In the last three days of the week we observed the Widal test. It is an advanced way to check for antibodies that your body makes against the salmonella bacteria that causes typhoid, this bacteria can spread from person to person from consuming contaminated food.

ACTIVITY LOG FOR THE FIFTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	we went to the I.C.T.C (Indiginated counselling & testing centre) department	I have observed the counsellor giving councelling to the patient.	clay
Day -2	we went to the I.C.T.C department & observed the giving counselling	I have observed the counsellor giving councelling to the patients.	clay
Day -3	we went to the I.C.T.C department & observed the counsellor giving councelling.	I have observed the counsellor giving councelling to the patients	clay
Day -4	we went to the I.C.T.C department & observed the concessing	I have observed the counsellor giving councelling to the patients.	clay
Day -5	we went to the I.C.T.C department & observed the counsellor giving councelling	I observed the counsellor giving councelling to the patient.	clay
Day -6	we went to the I.C.T.C department & observed the counsellor giving councelling	I have observed the counsellor giving councelling to the patient.	clay

WEEKLY REPORT

WEEK - 5 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In this entire week we were allotted in the T.C.T.C department. In this department we were introduced ourselves to HIV counsellor and he explained the scope of his job in the ICTC. HIV and AIDS counselling has two general aims one is the prevention of HIV transmission and the support of those affected directly and indirectly by HIV and we learned some of the counselling skills which gives us good knowledge on JCDG establishment with them, showing empathy, listening to them, non-judgmental attitude with them, follow up them and guiding them safety precautions concerning bout safe sex. Promoting behaviour changes to reduce vulnerability. These are some of counselling skills we learned.

ACTIVITY LOG FOR THE SIXTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	We went to the H.I.V test lab and observed the tests done in the lab.	I have observed different types of HIV tests prepared in the lab.	Clay
Day -2	We went to the H.I.V testing lab and observed the tests done in the lab.	I have observed the comb AIDS rapid test.	Clay
Day -3	We went to the H.I.V testing lab and observed the tests done in the lab.	I have observed the comb AIDS rapid test.	Clay
Day -4	We went to the H.I.V testing lab and observed the tests done in the lab.	I have observed the comb AIDS rapid test.	Clay
Day -5	We went to the H.I.V testing lab and observed the tests done in the lab.	I have observed the MERI SCREEN rapid test.	Clay
Day -6	We went to the H.I.V testing lab and observed the tests done in the lab.	I have observed the MERI SCREEN rapid test.	Clay

WEEKLY REPORT

WEEK - 6 (From Dt..... to Dt.....)

Objective of the Activity Done:
Detailed Report: In the sixth week we were allotted in the HIV testing lab. In the day one we observed the lab equipment and other instruments. We observed different types of tests for HIV disease. The next three days we observed the comb acid test. It is a rapid, sensitive dot immunoassay test for the detection of HIV-1 and HIV-2 antibodies in human serum plasma. It is the most accurate and reliable routinely used diagnostic HIV test. In the last two days we observed another test called MELI screen HIV test, it is a single use, immunochromatographic assay for detection of antibodies specific to HIV-1 and HIV 2 in human serum, plasma and whole blood. These are the tests we observed in this week.

ACTIVITY LOG FOR THE SEVEN WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	we went to the H.I.V testing lab and observed the tests done in the lab.	I have observed the mFRI SCREEN Rapid test.	cey
Day -2	we went to the H.I.V testing lab and observed the tests done in the lab.	I have observed the mFRI SCREEN Rapid test.	cey
Day -3	we went to the H.I.V testing lab and observed the tests in the lab.	I have observed the signal HIV test.	cey
Day -4	we went to the H.I.V testing lab and observed the tests in the lab.	I have observed the signal HIV test.	cey
Day -5	we went to the H.I.V testing lab and observed the tests in the lab.	I have observed the signal HIV test.	cey
Day -6	we went to the H.I.V testing lab and observed the tests in the lab.	I have observed the signal HIV test	cey

WEEKLY REPORT

WEEK - 7 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In this entire seventh week, we were allotted to the HIV testing lab and it is in the ICRC department. In the first two days we observed the MERT screen test as described in the last week. It is a single used, immunochromatographic assay for the detection of antibodies specific to HIV-1 and HIV-2 in human serum, plasma and whole blood. In the last ~~year~~ four days we observed the signal HIV test is a glow through Immuno-dot test for qualitative detection of antibodies to HIV H₂ in serum (or) plasma, rapid visual two dots assay with inbuilt control dot. These are tests immune system and interferes with the body's ability to fight infection and disease. There is no cure for HIV/AIDS, but medications can control the infection and prevent disease progression hence may importance is given to the disease.

ACTIVITY LOG FOR THE EIGHT WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	we went to the microbiology lab and observed the tests done in the lab.	I have observed the lab equipment and the instruments in the lab.	✓AVK
Day -2	we went to the microbiology lab and observed the tests done in the lab.	I have observed the lab equipment and the instruments in the lab.	✓AVK
Day -3	we went to the microbiology lab and observed the tests done in the lab	I have observed the lab equipment and the instruments in the lab.	✓AVK
Day -4	we went to the microbiology lab and observed the tests done in the lab.	I have observed the laminar air flow chamber.	✓AVK
Day -5	we went to the microbiology lab and observed the tests done in the lab.	I have observed the incubator and autoclave.	✓AVK
Day -6	we went to the microbiology lab and observed the tests done in the lab.	I have observed the Giemsa-stain technique.	✓AVK

WEEKLY REPORT

WEEK - 8 (From Dt..... to Dt: Dt.....)

Objective of the Activity Done:

Detailed Report: In this entire eight week we were allotted to the microbiology lab and we observed all the equipment in the lab in first three days we observed the laboratory precautions equipment, and all the instruments which are used in the laboratory. A lot of instruments are used in this lab. In the next day we observed one lab equipment used in the lab called laminar air flow cabinet. It is a carefully enclosed bench designed to prevent contamination of semiconductor wafers biological sample, or any particle sensitive materials, it may have a UV-germicidal lamp to sterilize the interior before usage. In the fifth day we sterilize the interior before usage. In the fifth day we sterilize, maintain microbiological cultures cell cultures. The cultured microorganisms in the laminar air flow are incubated in the incubated for their growth. In the last day we observed the gram-stain technique.

ACTIVITY LOG FOR THE NINETH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	we went to the microbiology lab and observed the tests done in the lab.	I have observed the Gram-stain technique.	Avk
Day -2	we went to the microbiology lab and observed the tests done in the lab.	I have observed the Gram-stain technique.	Avk
Day -3	we went to the microbiology lab and observed the tests done in the lab.	I have observed the Gram-stain technique.	Avk
Day -4	we went to the microbiology lab and observed the tests done in the lab.	I have observed the ziehl-Heelsen stain technique.	Avk
Day -5	we went to the microbiology lab and observed the tests done in the lab.	I have observed the ziehl-Neelsen stain technique.	Avk
Day -6	we went to the microbiology lab and observed the tests done in the lab.	I have observed the ziehl-Neelsen stain technique.	Avk

WEEKLY REPORT

WEEK - 9 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In this week also we were allotted in the same microbiology lab. in the first three days of this week we observed the gram-stain technique. It is a method of staining used to classify bacterial species into two large groups:- gram-positive bacteria and gram-negative bacteria. Gram staining differentiates bacteria by the chemical and physical properties of their cell walls. It is almost always the first step cell walls. It is a valuable diagnostic tool in the hospitals. And in the last three days of their week we observed the ziehl-neelsen staining technique that is used in the lab. It is a type of acid fast stain used to identify acid-fast organisms, mainly mycobacteria. The acid fast bacilli are bright crystal violet colour and gram negative bacteria appears pink or red in the colour by counter staining.

ACTIVITY LOG FOR THE TENTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	we went to the microbiology lab and observed the test done in the lab.	I have observed the preparation of nutrient culture medium.	AVK
Day - 2	we went to the microbiology lab and observed the test done in the lab.	I have observed the preparation of nutrient culture medium.	AVK
Day - 3	we went to the microbiology lab and observed the test done in the lab.	I have observed the structure on the culture medium.	AVK
Day - 4	we went to the microbiology lab and observed the test done in the lab.	I have observed different dust buns for different works.	AVK
Day - 5	we went to the microbiology lab and observed the test done in the lab.	I have observed different types of bio-chemicals.	AVK
Day - 6	we went to the microbiology lab and observed the test done in the lab.	I have observed different dust buns for different types of biomedical works.	AVK

WEEKLY REPORT

WEEK - 10 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report:

In this week we were in the microbiology lab and observed the preparation of nutrient culture medium. It is used as an organic nitrogen source in microbiology culture media for cultivation of a variety of bacteria and fungi for a culture media. Is a preparation of essential minerals, nutrients and carbon source for the better growth of microorganisms generally and mainly peptone is used in the culture media. In the third day we observed the streaking technique used in microbiology for the isolation of single colonies of microorganism. Even from a mixed species (8) from some species. In the last three days we observe & the disposal of waste [lab waste] in different three - your types are used in the organization three are red, blue, yellow and green according to the types of waste material we are going dispose.

ACTIVITY LOG FOR THE ELEVENTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	We were allotted to the blood sample collection area	I have learned the method to collect blood from the patient.	AB
Day -2	We were allotted to the blood sample collection area	I have learned the method to collect blood from the patient.	AB
Day -3	We were allotted to the blood sample collection area	I have learned the method to collect blood from the patient.	AB
Day -4	We were allotted to the blood sample collection area	I have learned the method to collect blood from the patient.	AB
Day -5	We were allotted to the blood sample collection area	I have learned the method to collect blood from the patient.	AB
Day -6	We were allotted to the blood sample collection area	I have learned the method to collect blood from the patient.	AB

WEEKLY REPORT

WEEK - 11 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In this entire week we were allowed in the blood sample collection area, here ten patients who needs to undergo blood test are have to give their blood, firstly ten patient details were recorded and then the amount of blood taken is according to the types of test they undergo and the sample were proved in the sample tubes, these tubes have the patient's ID number, these tubes sample in the organization.

ACTIVITY LOG FOR THE TWELVETH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	we were sent to the biochemistry lab and observed the test done in the lab.	I have observed the process of Bilirubin test	(A)
Day -2	we were allotted to the bio-chemistry lab and observed the test done in the lab.	I have observed the process of Bilirubin test	(6)
Day -3	we were allotted to the bio-chemistry lab and we observed the test done in the lab.	I have observed the process of Bilirubin test.	(6)
Day -4	we were allotted to the bio-chemistry lab and we observed the test done in the lab.	I have observed the process of calcium test	(A)
Day -5	we were allotted to the bio-chemistry lab and we observed the test done in the lab.	I have observed the process of calcium test	(A)
Day -6	we were allotted to the bio-chemistry lab and we observed the test done in the lab.	I have observed the process of calcium test	(A)

WEEKLY REPORT

WEEK = 12 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report:

In this week we were allotted to the Biochemistry lab, and observed the equipments in the laboratory. In the first three days of the week we observed the bilirubin test in the lab, it is a yellow pigment that's in blood and stool. A bilirubin in the body in the organization they test for direct bilirubin attached by the liver to glucuronic acid is called direct bilirubin, and for total bilirubin. All the bilirubin in your body's blood together is called total bilirubin. High bilirubin can involve jaundice. Total bilirubin normal value - 0.2-1 mg/dl and direct bilirubin value is 0-0.4 mg/dl in the last three days of this week we observed the calcium test to measure the amount of calcium in your blood. If there is too much (or) too little calcium in the blood, it may be a sign of a wide range of conditions. Normal calcium value in the blood is 8-11 mg/dl.

ACTIVITY LOG FOR THE THIRTEENTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	we were allotted to the bio-chemistry lab and we observed the test done in the lab.	I have observed the process of creatinine test	Q
Day -2	we were allotted to the bio-chemistry lab and we observed the test done in the lab.	I have observed the process of creatinine test	Q
Day -3	we were allotted to the Bio-chemistry lab and observed the test done in the lab.	I have observed the process of creatinine test	Q
Day -4	we were allotted to the Bio-chemistry lab and we observed the test done in the lab.	I have observed the uric acid test.	Q
Day -5	we were allotted to the Bio-chemistry lab and we observed the test done in the lab.	I have observed the uric acid test..	Q
Day -6	we were allotted to the Bio-chemistry lab we observed the test done in the lab.	I have observed the uric acid test..	Q

WEEKLY REPORT

WEEK - 13 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In this week in the Bio-chemistry lab for first three days we observed the creatinine test, it is a measure to know how well your kidneys were performing this job of filtering waste from your blood, it is a chemical compound left over from energy-producing process in your body, healthy kidneys filter creatinine out of the blood. Creatinine exists in your body as a waste product in urine, normal value of creatinine in the blood is 0.5-1.5 mg/dL.

In the last three days of this week we observed the uric acid test. It measures the amount of uric acid in a sample of blood. It is a normal waste product that your body makes when it breaks down chemicals called purines, they come from your cells when they die. The high uric acid in blood can form needle-shaped crystals, in and around joints.

ACTIVITY LOG FOR THE FOURTEENTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	we went allotted to the bio-chemistry lab and we observed the test done in the lab.	I have observed the glucose test.	A
Day -2	we were allotted to the Bio-chemistry lab and we observed the tests done in the lab.	I have observed the glucose test.	A
Day -3	we were allotted to the Bio-chemistry lab and we observed the tests done in the lab.	I have observed the glucose test.	A
Day -4	we were allotted to the bio-chemistry lab and we observed the done in the lab.	I have observed the total cholesterol test.	A
Day -5	we were allotted to the Bio-chemistry lab and we observed done in the lab.	I have observed the total cholestrol test.	A
Day -6	we were allotted to the bio-chemistry lab test lab	I have observed the total cholesterol test	A

WEEKLY REPORT

WEEK - 14 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: On this week in the Bio-chemistry lab we observed the glucose and cholesterol tests, first day we observed the fasting blood sugar test to measure the blood glucose level after not eating [not-eating] second day observed the glucose post-prandial test to see how the body responds to sugar and starch after you eat to measure the amount of glucose circulation in the blood. Normal value of glucose [fasting] is 70-126 mg/dL and normal value of glucose [postprandial] is 70-140 mg/dL. In the last three days of this week we observed the total cholesterol test a measure of the total amount of cholesterol in the blood it includes Σ ML / ADI, VLDL) triglycerides the normal value of total cholesterol is 150-250 mg/dL.

ACTIVITY LOG FOR THE FIFTEENTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	We were allotted to the Bio-chemistry lab and we observed the test done in the lab.	I have observed the total protein test.	AP
Day -2	We were allotted to the Bio-chemistry lab and we observed the test done in the lab.	I have observed the total protein test.	AP
Day -3	We were allotted to the Bio-chemistry lab and we observed the test done in the lab.	I have observed the albumin test.	AP
Day -4	We were allotted to the Bio-chemistry lab and we observed the test done in the lab.	I have observed the Amylase test.	AP
Day -5	We were allotted to the Bio-chemistry lab and the test done in the lab	I have observed the triglycerides test.	AP
Day -6	We were allotted to the Bio-chemistry lab and the test done in the lab	I have observed the urea test.	AP

WEEKLY REPORT

WEEK - 15 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: This is the best of the internship in the organization; in this week we observed many tests, test are performed in the Bio-chemistry lab. The first one is total protein test to measure the amount of protein in the blood it is normal value is 6-8 g/L next test is albumin test to measure the amount of protein in the blood it is normal value of albumin in the blood to measure the amount of amylase enzyme in the blood it's normal value is 22-80 IU/L In the next day we observed the triglycerides test to measure the amount of fat in your it is normal value is 15.40 mg/dL.

CHAPTER 5: OUTCOMES DESCRIPTION

Describe the work environment you have experienced (in terms of people interactions, facilities available and maintenance, clarity of job roles, protocols, procedures, processes, discipline, time management, harmonious relationships, socialization, mutual support and teamwork, motivation, space and ventilation, etc.)

Intern work environment is one of the aspects of intern quality addressed in their report. In fitness of people in vacation on medical department on Govt general hospital work a good interactive skill we are available their hospital is very clean and green and repeat to patients and recognition.

In hospital management is a nice harmonious relationships in close to all and station.

Support to every one and some motivation speech etc...

Describe the real time technical skills you have acquired (in terms of the job-related skills and hands on experience)

There are some technical skills have acquired from this internships.

I had knowledge about how to put my knowledge and skills into practice such as maintaining. I had learned to hold communication and build relationships every department and build relationship culture quickly learned that every company has its own culture as intern. Health care skills and those skills there are hospital for people working in a health care role in patients to learn a positive attitude can be very help for with college and patients and walking and receiving feed back is very important.

Describe the managerial skills you have acquired (in terms of planning, leadership, team work, behaviour, workmanship, productive use of time, weekly improvement in competencies, goal setting, decision making, performance analysis, etc.

There are also some managerial skills I have acquired from this internship. I learned how to effectively deal with people. Developing managerial skills is more important to all professionals as lesser planned about dealing with respect to same and we all acted as a lateral for every week we arranged as work place culture for productive use of time. We have kept notes for observing everyone improving weekly wise we are with discussions about all profound crisis in over working style we all have kept our goals for this journey as per the final day we have discussed about our Potent is upgraded.

Describe how you could improve your communication skills (in terms of improvement in oral communication, written communication, conversational abilities, confidence levels while communicating, anxiety management, understanding others, getting understood by others, extempore speech, ability to articulate the key points, closing the conversation, maintaining niceties and protocols, greeting, thanking and appreciating others, etc.,)

We have improved our communication skills in this internship at Govt. General hospital SKIM. As we have been interacting work with each other. I likely need to interact with patient and our workers, communication skills are those that make communicating with our patients easier including active listening might need to explain test results to patient we appreciate you sending feed back nicely friendly and positively appreciating to patients.

Describe how could you could enhance your abilities in group discussions, participation in teams, contribution as a team member, leading a team/activity.

The government has taken a big step in implementing technology in medical department system to employ digital transformations of hospital.

The Govt. General hospital Srikakulam department of vascular and endovascular surgery at general hospital after treatment for various conditions related to vascular system as vascular care center deliver in terminations in blood vessels our exceptional team of specialisation and advanced health care technology deliver the best treatment outcomes for each patient be able to live a healthy and happy life.

- > patients with the best health care.
- > Innovative medicines.
- > Advanced technology.
- > Treatment for a healthy life style.

Describe the technological developments you have observed and relevant to the subject area of training (focus on digital technologies relevant to your job role)

Intern work is one of the most skills in the work plan.

We the interns of GGH Srikakulam formed as a team of enhance and improve our work in an effective was positively as we have no family wish over week one of as will lead the team to took leadership. We have discussion with each other about work performance working as a team members and also as leader make me know about how to work as a team member its more important in the team is my way to internal co-operate and manage them as empty in every activity I gave the experience and knowledge about team work.

Student Self Evaluation of the Short-Term Internship

Student Name: DEVUPALLI. KEERTHIKA Registration No: 2022001056007

Term of Internship: From: 7th DEC To: 18th march 2023

Date of Evaluation:

Organization Name & Address: Government General hospital
(GGH) Srikakulam

Please rate your performance in the following areas:

Rating Scale: Letter grade of CGPA calculation to be provided

1	Oral communication	1	2	3	4	5
2	Written communication	1	2	3	4	5
3	Proactiveness	1	2	3	4	5
4	Interaction ability with community	1	2	3	4	5
5	Positive Attitude	1	2	3	4	5
6	Self-confidence	1	2	3	4	5
7	Ability to learn	1	2	3	4	5

Evaluation by the Supervisor of the Intern Organization

Student Name: Devupalli Keerthika

Registration No: 2022001056007

Term of Internship: From: 7/12/22

To: 18/3/23

Date of Evaluation:

Organization Name & Address: Govt. General Hospital, Srikakulam

Name & Address of the Supervisor
with Mobile Number

Please rate the student's performance in the following areas:

Please note that your evaluation shall be done independent of the Student's self-evaluation

Rating Scale: 1 is lowest and 5 is highest rank

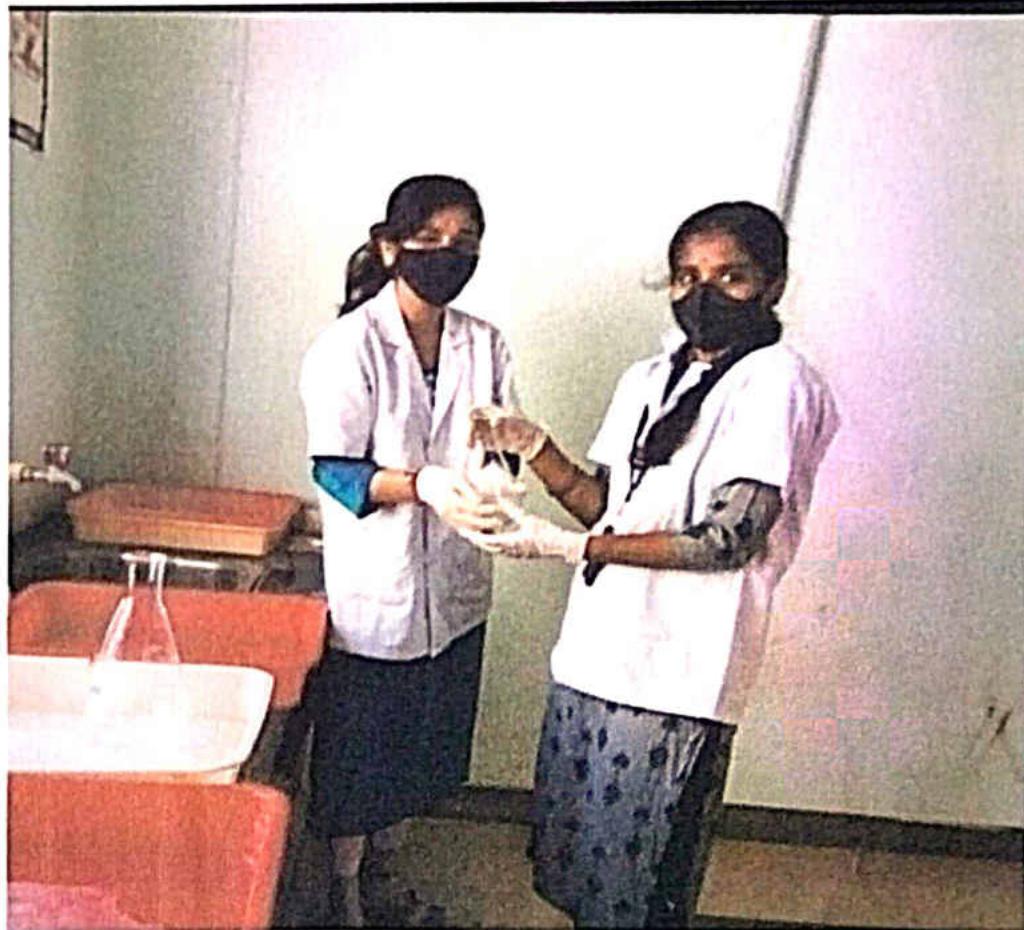

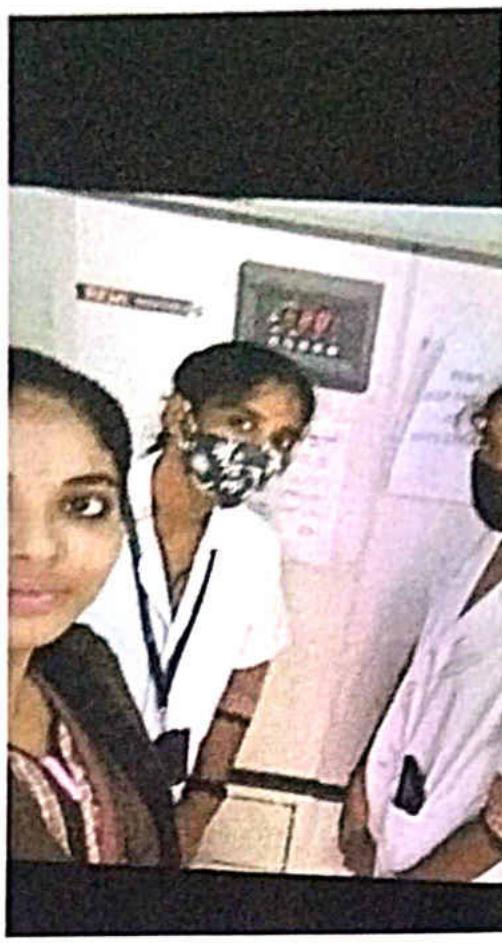

1	Oral communication	1	2	3	4	5
2	Written communication	1	2	3	4	5
3	Proactiveness	1	2	3	4	5
4	Interaction ability with community	1	2	3	4	5
5	Positive Attitude	1	2	3	4	5
6	Self-confidence	1	2	3	4	5
7	Ability to learn	1	2	3	4	5
8	Work Plan and organization	1	2	3	4	5
9	Professionalism	1	2	3	4	5
10	Creativity	1	2	3	4	5
11	Quality of work done	1	2	3	4	5
12	Time Management	1	2	3	4	5
13	Understanding the Community	1	2	3	4	5
14	Achievement of Desired Outcomes	1	2	3	4	5
15	OVERALL PERFORMANCE	1	2	3	4	5
