

Model Program Book

SEMESTER INTERNSHIP

Designed & Developed by

**ANDHRA PRADESH
STATE COUNCIL OF HIGHER EDUCATION**

(A STATUTORY BODY OF GOVERNMENT OF ANDHRA PRADESH)

SEMISTER INTERNSHIP

Name of the Student :- Gollapalli . Sravani

Name of the college :- Government Degree college [Men] sklm

Registration number :- 2022001056011

Period of Internship :- From : 7/12/2022 To : 18/3/2023

Name and Address of the Intern Organization :-

Government General Hospital, Balaga, Main Road, Srikakulam.

Dr. B.R. Ambedkar

University

YEAR

An Internship Report on

Medical field

(Title of the Semester Internship Program)

Submitted in accordance with the requirement for the degree of

III CBMB

Under the Faculty Guideship of

D. Ravindra

(Name of the Faculty Guide)

Department of

Govt. Degree college (Men), sklm.

(Name of the College)

Submitted by:

GOLLAPALLI. SRAVANT

(Name of the Student)

Reg.No: 2022001056011

Department of Microbiology

Govt. Degree college [M] Srikakulam

(Name of the College)

Student's Declaration

I, GOLLAPALLI SRAVANI a student of _____
Program, Reg. No. 2022001056011 of the Department of CBMB, GDC (MEN)
College do hereby declare that I have completed the mandatory internship
from 7-12-2022 to 18-3-2023 in Govt. General Hospital. (Name of
the intern organization) under the Faculty Guideship of
D. Ravindra. (Name of the Faculty Guide), Department of
Botany Govt Degree college (Men) Srikakulam.
(Name of the College)

G. Sraavani
(Signature and Date)

Official Certification

This is to certify that GOLLAPALLI, SRAVANI (Name of the student) Reg. No. 2022001056011 has completed his/her Internship in G.G.H Sklm. (Name of the Intern Organization) on Medical (Title of the Internship) under my supervision as a part of partial fulfillment of the requirement for the Degree of III CBMB in the Department of Govt Degree College(M) (Name of the College).

This is accepted for evaluation.

D. Ray

(Signatory with Date and Seal)

Endorsements

Lecturer in Botany
Govt. Degree College
SRIKAKULAM

Faculty Guide

D. Ray

Certificate from Intern Organization

This is to certify that GOLLAPALLI. SRAVANT (Name of the intern)
Reg. No 2022001056011 of GDC (MEN) (Name of the
College) underwent internship in Govt General Hospital (Name of the
Intern Organization) from 7-12-2022 to 18-3-2023

The overall performance of the intern during his/her internship is found to be
Satisfactory (Satisfactory/Not Satisfactory).

K. Saneel
Authorized Signatory
Dr. K. SANEEL, M.D.
Professor & HOD
Department of Bio Chemistry
Government Medical College
SRIKAKULAM-532 001

L. Ramesh
16/5/2023
Civil Surgeon, RMO
Govt. General Hospital
- SRIKAKULAM

Acknowledgements

We are highly obliged to respected Dr. shri pola Bhaskar commissioner for providing a great opportunity for internship.

We are grateful to our Dr. P. Susekha principle GDC [M] Srirakulam for her sincere encouragement towards internship.

We are thankful to sir B. Mohan Rao coordinator for internship for his continuous co-ordination and communication with students.

We are grateful to D. Ravindra lecturer in Botany class mentor for his continuous monitoring for the entire internship.

RMO Assistant Professor, HOD and Lab technicians of GGH thank you so much for giving the opportunity to complete my internship at GGH. I have learnt so much and appreciate the time you spent leading my new skills and useful medical tests.

Contents

1. Title page.
2. An internship report.
3. Instructions to students
4. student declaration.
5. student official certification.
6. certificate from intern organization.
7. acknowledgements.
8. chapter 1: executive summary.
9. chapter 2: overview of the organization.
10. chapter 3: Internship part.
11. chapter 4: Activity log book from 1st week to 12th week.
12. chapter 5: Internship outcomes description.
13. student self evaluation.
14. evaluation by the supervisor.
15. Internship photos & videos.
16. Internal & external evaluation.

CHAPTER 1: EXECUTIVE SUMMARY

The internship report shall have a brief executive summary. It shall include five or more Learning Objectives and Outcomes achieved, a brief description of the sector of business and intern organization and summary of all the activities done by the intern during the period.

I have allotted 4 months internship in the medical department by the Govt. of A.P.

After allotment I went to join at G.G.H. Srikakulam. After my joining I was assigned different works at different labs, by HOD of microbiology for the duration of 4 months. During my period I learned a lot. Dr. Suhashini mam taught us about the training techniques, incubation etc. It was a very great lecture and helpful for us. Theoretically we acquired knowledge given by Dr. Suhashini.

Practical knowledge we gain from lab technicians. They showed us demonstration. I spent most of the time in labs. We involved in conducting tests. I had conducted test like blood groups. Haemoglobin test and collected blood samples from patients for the test. From this work of Internship in the medical department. I had improved a lot by knowing about various medical tests and how to treat the patients with patience.

I am very much impressed by the faculty and lab technicians of the hospital and the interaction with the patients taught me a lot.

CHAPTER 2: OVERVIEW OF THE ORGANIZATION

Suggestive contents

- A. Introduction of the Organization
- B. Vision, Mission, and Values of the Organization
- C. Policy of the Organization, in relation to the intern role
- D. Organizational Structure
- E. Roles and responsibilities of the employees in which the intern is placed.
- F. Performance of the Organization in terms of turnover, profits, market reach and market value.
- G. Future Plans of the Organization.

I worked in the medical department as a intern in GGH srirakulam. Medical department plays an important role in every sector. I observed many things in the hospital, different categorised faculty are serving the patient very well. My work and experience as a intern in Hospital was very appreciable. I interacted with my senior faculty members with honourably. I spend nearly 6 hours with the faculty in the lab of the hospital and I got to know the various medical machines which are used for various tests.

The organization which I had worked in the medical field. The GGH was well organised with all facilities and well worked faculty with well mannered behaviour.

In my point of view the organisation I had worked was very good with full of patience with 100% well treatment and with well experienced and workaholic doctors and nurses.

CHAPTER 3: INTERNSHIP PART

Description of the Activities/Responsibilities in the Intern Organization during Internship, which shall include - details of working conditions, weekly work schedule, equipment used, and tasks performed. This part could end by reflecting on what kind of skills the intern acquired.

I worked in GGH hospital, Srirangam in the department of Medical. I worked in the lab. I did many tests like PCR, electrolysis and total blood count and Haemoglobin.

In the lab, they are two sectors of departments are held they are Biochemistry and culture. They were many machines with highly sophisticated techniques and tools are there for conducting various tests for patients very accurately. I did many test with full of alertness and with full of self caring during collection of blood samples and in urine tests.

I conducted many tests like blood group determination etc under the supervision of my six madams.

Due to this internship I got to know the various due and various tests for it to concluded and report them with modern superficial technology.

ACTIVITY LOG FOR THE FIRST WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	I have joined in the given internship organisation.	we observed the surroundings and Hospital inside.	<u>Avb</u>
Day - 2	Interaction with Lab technician and staff. Disposal of different dustbins.	Interaction with sis and madam's disposal waste in different colour bins.	<u>Avb</u>
Day - 3	I was allotted in the Microbiology lab.	I observed the instruments in the lab.	<u>Avb</u>
Day - 4	on this week learned the Gram stain procedure.	I learned the Gram stain procedure.	<u>Avb</u>
Day - 5	I observed the test procedure.	I learned the staining test procedure.	<u>Avb</u>
Day - 6	I observed the plate streaking in the incubator.	I gain knowledge how the plates are incubated.	<u>Avb</u>

WEEKLY REPORT

WEEK - 1 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In this first week we are allotted in microbiology department. we observed the instruments present in the lab and use of dustbins. By this I learned to put that dust materials in that particular coloured dust bin. As a part of internship many students joined in GGH. so the staff divided students into different departments. Firstly I was allotted in the microbiology lab. I observed the instruments in the lab. Next day morning Assistant professor of microbiology taught us how to prepare smear staining of microbes, streak plate methods and how to incubate the microbes.

By the lecture of madam, I had learned many new things which I don't know before. This week as a microbiology student, I learnt about microbes.

ACTIVITY LOG FOR THE SECOND WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	First day on second week we observed and learnt smear preparation.	learnt the smear preparation.	<u>AUK</u>
Day - 2	we observed the slides are cleaned with tissue and placed in rack & viewed under microscope.	Learnt about how to clean the slide with out damage the skinning part.	<u>AUK</u>
Day - 3	we observed the organism under microscope. staphylococci are round in shape at cluster type.	observed the GPC organisms under microscope.	<u>AUK</u>
Day - 4	on the fourth day learnt about ziehl-Neelsen staining.	Learnt about zn staining.	<u>AUK</u>
Day - 5	we observed the procedure and the smear slides viewed under microscope.	observed the organisms under microscope.	<u>AUK</u>
Day - 6	on this day I was allotted in glassware washing room.	learnt about how to clean the glassware with out damage.	<u>AUK</u>

WEEKLY REPORT

WEEK - 2 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In this second week first day we learnt about smear preparation. By this method I learned about how to prepare smear. Next day morning to clean the slides with tissue and placed in rack and viewed under microscope. Next day we observed the organism under microscope. In this method Gram positive organism stains with crystal violet and appears violet colour. Gram negative organism stains with safranin and appears pink colour. on the next day we learnt about ziehl-Neelsen staining procedure. In this method bacilli should be counted and results are given in grading in oil immersion object. Next day I was allotted in glassware washing room. By this method I gave some knowledge about how to clean the glassware like conical flasks, petri plates, test tubes etc, with hypochloride solution without any damage.

By this week, I learned and about some tests are done in microbiology department.

ACTIVITY LOG FOR THE THIRD WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	on the first day of this week learnt about clean the glass ware in washing room.	learnt about how to clean the glass ware.	<u>AVK</u>
Day - 2	I was allotted in VRDL lab.	I observed the instruments in the lab.	<u>AVK</u>
Day - 3	I observed the some instruments and their work done in the lab.	I observed the instruments and procedures in lab.	<u>AVK</u>
Day - 4	I observed the centrifuge machine how to working and separating substances using force of centripetal force.	I learned about centrifuge machine and their functions.	<u>AVK</u>
Day - 5	I observed Hi-media machine and operating procedure.	I learned about how to operate the Hi-media machine and functions.	<u>AVK</u>
Day - 6	I observed the GEN fast machine operating and working procedure.	I learned about how to work the GEN fast machine.	<u>AVK</u>

WEEKLY REPORT

WEEK - 3 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In this week, I was allotted in VRDL (Virus Research and Diagnostic Laboratory). I observed some instruments present in the VRDL lab. I observed some instruments and their functions in the VRDL laboratory. In this lab I observed the centrifuge machine and how to work and separating substances using force of centripetal force to separate the various components of a fluid, of different densities or liquids from solids. On the next day morning I observed Hi-media machine and operating procedure. By this method I gave some knowledge. Next day I observed GEN-FAST machine and their functions of the machine. I learned about how to prepare operate this machine & functions of machine.

By this entire week I learnt about Instruments and their functions in VRDL laboratory.

ACTIVITY LOG FOR THE FORTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	on first day of this week observed that how the media prepared for the micro-organisms.	observed the media preparation.	<u>AVK</u>
Day - 2	on second day learned about Nutrient agar preparation.	understand the nutrient agar preparation.	<u>AVK</u>
Day - 3	on fourth ^{third} day observed the MacConkey Agar media preparation.	understand the MacConkey Agar media preparation.	<u>AVK</u>
Day - 4	on Fourth day learned about blood Agar preparation.	understand the Blood agar preparation.	<u>AVK</u>
Day - 5	on the fifth day observed the Simmon's citrate Agar preparation.	understand the citrate agar preparation.	<u>AVK</u>
Day - 6	on sixth day observed the Bile broth preparation.	Learned about Bile broth preparation.	<u>AVK</u>

WEEKLY REPORT

WEEK - 4 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: on first day of this week we observed how to prepare media for the microorganisms. Next day I learned about nutrient agar preparation. It is used for subculture for isolation organism for maintenance purposes or to check the purity of subculture for isolation plates for biochemical tests. on the next day how to prepare macconkey agar media preparation. In this media is used for the isolation gram-negative enteric bacteria and the difference of lactose fermenting from lactose-non-fermenting-gram negative bacteria. Next day I observed simon's citrate agar preparation. And also next day I observed how to prepare bile broth and their functions. It is used for presumptive identification & confirmation of coliform bacteria.

By this entire week I learned about some types of agar media preparation.

ACTIVITY LOG FOR THE FIFTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	we were allotted to the blood sample collection area.	I have learned the method to collect blood from patient.	@
Day - 2	we were allotted to the blood sample collection area.	I have learned the collection blood from the patient.	@
Day - 3	we were allotted to the blood sample collection area.	I learned about collection of blood from the patient.	@
Day - 4	we were allotted to the blood sample collection area.	I learned about collection of blood from the patient.	@
Day - 5	we were allotted to the blood sample collection area.	I learned about collection of blood from the patient.	@
Day - 6	we were observed to the blood sample collection area.	I learned about collection of blood from the patient.	@

WEEKLY REPORT

WEEK - 5 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: we have allotted in the blood sample collection. First day i observed test tubes it is send to this diffexent lab for the conduction of tests. In this tests Red colour test tubes are used for Biochemistry laboursatory. skyblue colour test tube is used for pathology laboursatory, d-dimer, PT-INR, coa-gulation tests. Gray colour test tube is used only for sugar tests. In this sample collection area i learned about collection how to collect the blood sample for patients.

In this entire week i learned about sample collection how to collect the sample from the patients.

ACTIVITY LOG FOR THE SIXTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	I was allotted in ICTC [Integrated counselling and Testing centre] lab.	I have observed the counsellor & he counseling the patients.	
Day - 2	I observed the room and instruments present in the lab.	I observed instruments in the lab.	
Day - 3	On the third day I observed the tests and procedure.	I learned about the tests and procedure.	
Day - 4	In HIV lab the collection of patients sample been done.	I was observed and learned the sample collection.	
Day - 5	In HIV labs we observed some tests.	We observed the methods of HIV.	
Day - 6	In this lab they are 3 types of tests done. ① combs ② Mexiscreen ③ test ^{test} -80.	I observed the methods of HIV.	

WEEKLY REPORT

WEEK - 6 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: I was allotted in the ICTC [Integrated counselling and testing centre] laboratory. I observed the counsellor room and surrounding places. I observed the room and some instruments present in the lab. On the next day I observed the tests and their procedure done in the laboratory. Counsellor is taken class to us about how to effect HIV, symptoms and preventions methods of HIV. On the next day in the lab we observed some tests like ① comb Aids test ② Mexi screen ③ signal HIV test done in the HIV laboratory. I am also learned about how to collect sample and numbering in the patient sample in the test tube. I did some tests in the HIV lab. In this entire week I learned HIV tests.

ACTIVITY LOG FOR THE SEVEN WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	In the first day in this week I observed the counsellor's room.	I observed and learned about counselling.	
Day - 2	In the second day I observed the test and procedure of tests.	I learned the test procedures.	
Day - 3	On the third day in HIV lab I learned about symptoms & control methods.	I learned about HIV symptoms and control methods.	
Day - 4	On the fourth day I learned how to write patient details.	Learned about how to enter patient details.	
Day - 5	I observed and learned how the patient details present in requisition form.	Learned about how to enter patient details.	
Day - 6	I learned about requisition forms are entered into registered book.	Learned about how to enter patient details in register book.	

WEEKLY REPORT

WEEK - 7 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report:

In this week in the third day I observed the counsellor room. I observed and learned about counselling. In the second day I observed the given tests and procedures of tests. on the third day in the HIV lab. I learned about symptoms and control methods of HIV virus. How to attack the HIV and their preventional methods. on the fourth day I learned about how to write patient details and enter into the record book. I observed and learned how the patient details present in requisition form. on the next day how to enter the patient details in register book.

In the entire week I observed and learned about HIV and its symptoms and control measures.

ACTIVITY LOG FOR THE EIGHTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day -1	In HIV lab they are some tests like ① COMB Aids, ② Mexiscreen ③ signal tests.	I observed some tests done in HIV lab.	
Day -2	I observed COMB. AIDS method done in HIV lab.	I observe how to test done in the lab.	
Day -3	I observed all the test pouches, reagents and specimen in room.	I learned about the test procedure - res.	
Day -4	In the sample first label the patient identification number.	I learned about numbering in the sample.	
Day -5	I observed the two types of wells and add sample diluent.	I learned about how to add sample diluent in wells.	
Day -6	I learned the patient sample how to add in each well order wise.	I learned about how to add patient sample in the well.	

WEEKLY REPORT

WEEK - 8 (From Dt..... to Dt: Dt.....)

Objective of the Activity Done:

Detailed Report:

In this entire week the first day in HIV lab they are some tests done in the laboratory. In this entire observed the tests in the laboratory. I observed comb aids method done in HIV-lab. I observe the procedure of comb-Aids test and how to add the specimens in the sample. In the next day sample first label the patient identification number. I learned about how to numbering in the sample test tubes. In the next day. In COMB-AIDS test I observed how to add sample diluent in the wells. Next day I learned the patient sample how to add in each well order wise. I learned how to add patient sample in the well.

In this entire week, I learned about the tests done in the lab.

ACTIVITY LOG FOR THE NINTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	I observed the combs into wells order wise keep it for 10 min incubation.	I learned about how to incubate the sample.	cup
Day - 2	I observed how to apply wash buffer solution in a tray.	I learned how to apply wash buffer solution.	cup
Day - 3	I observed to apply the signal gold reagent in the sample.	I learned about signal gold reagent.	cup
Day - 4	I observed combs and wash with buffer solution and blot vertical on tissue paper.	I learned about the comb Aids test and observe the results.	cup
Day - 5	I observed the combs containing signal gold reagent and keep it for 10 minutes.	Learned about how to apply signal gold reagent.	cup
Day - 6	I learned the test and result is as per referal colour index.	Learned about how to know result in the colour.	cup

WEEKLY REPORT

WEEK - 9 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In the first day of this week, I observed the combs into wells order wise keep it for 10 min incubation. I learned about how to incubate the sample. In the second day how to apply wash buffer solution in a tray without any damage, and also how to apply signal gold reagent in the sample. I observed the combs and wash with buffer solution and blot vertical on tissue paper. The combs contain signal gold reagent and keep it for 10 minutes. In the next day learnt the result and is as per referral colour index. The HIV is negative the strip has light pink coloured 1 dot is appeared. When HIV is positive light pink coloured 2 dots are appeared - red.

In this entire week I learned about how to apply the reagents and this tests are done in the lab.

ACTIVITY LOG FOR THE TENTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	I observed the Mesi-screen test procedure done in the lab.	I learned about Mesi-screen HIV-1-2 procedure.	
Day - 2	I observed the test devices and patient identification number in each device.	I learned about how to numbering in patient sample.	
Day - 3	I observed serum/plasma is add in the test device.	Learned about how to apply serum in device.	
Day - 4	I observed the 3 drops of buffer solution to the test device.	Learned about how to apply buffer solution.	
Day - 5	I observed the results interpret, immediately in the test device.	Learned how the results are interpret.	
Day - 6	I observed the results indicated colour is formed in the device.	I learned about the coloured result are formed.	

WEEKLY REPORT

WEEK - 10 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In this week 1st day I observed the mexiscreen test procedure done in the lab. This mexiscreen test about HIV-1-2 procedure. In second day the test device and patient identification number in each device. I gave some knowledge about HIV and their procedure in some tests. In the next day serum/plasma is added in the test device. This plasma process how to apply serum in device. I observed 3 drops of buffer solution added to the test device. In the next day observed the results immediately in the device. I observed the results indicated colour is formed in the device.

In this entire week how the mexiscreen test was done in the HIV laboratory. In this process I gave some knowledge about this test.

ACTIVITY LOG FOR THE ELEVENTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	I observed and learned how patients details enter into the registers book.	Learned about how to write registers book.	cy
Day - 2	I Learned about how Patients details fill in the requisition form.	Learned about how to fill requisition form.	cy
Day - 3	I learned patients details entered into the registered book.	Learned how enter patients details in register book.	cy
Day - 4	I observed the SIGNAL HIV test done in HIV lab.	Learned how to SIGNAL HIV test done in lab.	cy
Day - 5	I observed the test procedure in brief and see the result.	I learned about this test procedure.	cy
Day - 6	I observed and learned how the result is formed in the device.	I learned the result in the device.	cy

WEEKLY REPORT

WEEK - 11 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In this week i observed and learned how patients details enter into the register book. In this register book day wise report is filled in this book. The results are wrote in book daily. In that book some cases are Negative, and rarely some cases are positive in that tests. In this i gave some knowledge. In the next day i learned about how to fill the form. I learned how to fill patients details. In next day i observed SIGNAL HIV test done in HIV lab. I learned how to the test done in the laboratory. And also i observed and learned how the result is formed in the device.

In this entire week i gave some knowledge about tests and how to tests are done.

ACTIVITY LOG FOR THE TWELVETH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	I was allotted in the Biochemistry lab.	observed the Biochemistry lab.	Aw
Day - 2	In second day we observed the tests are done in the lab.	Learned about the type of test done in the lab.	Aw
Day - 3	In third day sugar profile test is done in the laboratory.	Learned about sugar profile test.	Aw
Day - 4	In fourth day we observe the renal profile test.	Learned about Renal profile test (RFT)	Aw
Day - 5	In fifth day we observe the total bilirubin and Direct bilirubin.	Learned about liver profile test (LFT)	Aw
Day - 6	In sixth day observed the patient details.	Learned how to enter patient details.	Aw

WEEKLY REPORT

WEEK - 12 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: I was allotted in Biochemistry lab. I observed some instruments done in the laboratory. Next day I observed some tests done in the lab. In the third day I observed sugar profile test. The process of this test and how to the test process in the laboratory. I observed and learned about sugar profile test. In Next day we observed the renal profile test (RFI). The process and the test is observed. Next day we observe the total bilirubin and direct bilirubin test. I learned about how the test done in the lab. In the sixth day I observed the patient details. In this I learned how to enter patient details in the book.

In this week I learned some tests are done in the laboratory.

ACTIVITY LOG FOR THE THIRTEENTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	I observed the process of Bilirubin test.	Learned about bilirubin test.	@
Day - 2	I observed the sugar test done in the lab.	Learned about sugar test.	@
Day - 3	I observed the sugar values and in glucose fasting, random values.	Learned about some types of sugar tests.	@
Day - 4	I observed the creatinine test done in the laboratory.	Learned about creatinine test.	@
Day - 5	I observed the creatinine test done in lab.	Learned about creatinine test.	@
Day - 6	I observed the Blood sugar test done in biochemistry lab.	Learned about Blood sugar test.	@

WEEKLY REPORT

WEEK - 13 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In this week I observed the process of Bilirubin test done in the Biochemistry laboratory. I observed the sugar test done in the lab. In this how to learn and process of sugar test. I observe the sugar values and in glucose test. In this how to the values in fasting time, Random and glucose post prandial, after lunch, these are the values done in lab. And also I observed the creatinine test done, the process and procedure of the test in the lab. And also I learned the blood sugar test in the laboratory. In this tests, how to process the tests are done in the Biochemistry lab.

In this entire week I observed and learned about how the tests done in laboratory.

ACTIVITY LOG FOR THE FOURTEENTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	I observed that the use of centrifuge machine.	Learned about centrifuge machine.	@
Day - 2	I observed the RBS, RFT and LFT test done in the lab.	Learned about RFT, LFT, test procedures.	@
Day - 3	I observed the Red test tube is placed in the centrifuge machine.	Learned about how to place the test tubes in centrifuge.	@
Day - 4	After 2 minutes the blood and serum get separated in centrifugation.	Learned about separation of blood and serum.	@
Day - 5	we observed RBS, LFT, RFT test only serum are taken for test not blood.	we learned about that only serum is used for the tests.	@
Day - 6	we observed different types of Pipettes, are present in the laboratory.	we learned about different types of Pipettes.	@

WEEKLY REPORT

WEEK - 14 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report:

In this week I observed that the instruments and uses of the instruments. I observed use of centrifuge machine and learned about the machine. This machine process and function and how to balance the test tubes and also how to work and separating substances using the force of centripetal force. I learned about LFT and RFT, and RBS tests done in the laboratory. I observed the test tube done placed in the centrifuge machine. In this machine separation of blood and serum get separated. These tests serum are taken for test not blood. We observe different types of pipettes, are present in the laboratory.

In this the instruments and some tests are done in the lab.

ACTIVITY LOG FOR THE FIFTEENTH WEEK

Day & Date	Brief description of the daily activity	Learning Outcome	Person In-Charge Signature
Day - 1	I observed the tests done in biochemistry laboratory.	I observed how to test the creatinine test.	@
Day - 2	I observed the tests done in biochemistry laboratory.	Learned about sugar profile test.	@
Day - 3	I observed the Renal profile test done in the lab.	Learned about Renal profile test.	@
Day - 4	I observed the total bilirubin test.	Learned about total bilirubin test.	@
Day - 5	I observed the Glucose test done in the lab.	Learned about glucose test.	@
Day - 6	I observed the Blood sugar test done in the lab.	Learned about sugar level in blood.	@

WEEKLY REPORT

WEEK - 15 (From Dt..... to Dt.....)

Objective of the Activity Done:

Detailed Report: In this entire week I observed the tests done in the laboratory. I observed the creatinine test done in the lab. Next day I learned about sugar profile test. In the next day I observed the renal profile test done in the lab. In this process how the test profile and process of the test. On the next day I observed the bilirubin test. In this test total bilirubin and direct bilirubin process are done in that lab. In the next day Glucose test done in the lab. The glucose test the normal and after lunch values are done in the laboratory. I observed the blood sugar test done in the lab. learned about sugar percentage in the blood and the values.

In this entire week I observed and learned about these tests.

CHAPTER 5: OUTCOMES DESCRIPTION

Describe the work environment you have experienced (in terms of people interactions, facilities available and maintenance, clarity of job roles, protocols, procedures, processes, discipline, time management, harmonious relationships, socialization, mutual support and teamwork, motivation, space and ventilation, etc.)

The internship work environment is one of the aspects of interns quality addressed in this report. The people at G.G.H. Hospital were welcomed me artfully and with good interactive staff.

First and foremost i had trained and examined many things like test and medical procedure. I had worked most of the time in lab, and my lab sirs/ madams explained and trained very well. We are the interns as team were very active and focused in the work.

We were also given space for our procedure which made our inteeship very useful for us.

Describe the real time technical skills you have acquired (in terms of the job-related skills and hands on experience)

There are many technical skills that I have acquired from this medical internship. I have to know about how to put my knowledge and skills into the practice such as an intern in medical field. I learned how to communicate and build relationship with the people I had been worked.

I learned that every department of organization has its own importance and role. As an intern, I discovered its essential to be take the importance of the work of the medical field and its content for future. I learned that sometimes asking for feedback or receiving feedback is difficult to hear but it will have a significant impact on your future career and success.

Describe the managerial skills you have acquired (in terms of planning, leadership, team work, behaviour, workmanship, productive use of time, weekly improvement in competencies, goal setting, decision making, performance analysis, etc.

There are also some managerial skills I have acquired for this internship. I learned how to effectively deal with people. Developing management skills is important to all professionals. As a team we planned about scheduling with respect to time and we all acted as a leader and trainee for every week enthusiastically. We arranged our work place culture for productive use of time.

We have kept notes for observing every thing improvement of our weekly wise, we dream about the have kept pros and con's in our working style we all kept our goals for the journey we also have decision making skills which are very essential in futures. As per the final day. We have discovered about our performed was upgraded.

Describe how you could improve your communication skills (in terms of improvement in oral communication, written communication, conversational abilities, confidence levels while communicating, anxiety management, understanding others, getting understood by others, extempore speech, ability to articulate the key points, closing the conversation, maintaining niceties and protocols, greeting, thanking and appreciating others, etc.,)

We have improved more about the lab and medical test and various disease etc... and many medical procedure in this internship at GGH Hospital in the department of medical.

As we have been interacted with the faculty of the lab technicians and nurses etc. As we assigned to work and to learn more about every medical test and its importance. At first time we felt very time, but now we are confident while confident communication as we conversating understanding others.

we also come to getting understanding by other we improved our speech skills from prepared level to extempore level we have developed from a student to an intern we also developed so much of interacting skills in our way which made students better.

Describe how could you could enhance your abilities in group discussions, participation in teams, contribution as a team member, leading a team/activity.

The Govt General Hospital srirakulam department of vascular and Endovascular surgery at govt general Hospital offers treatment for various condition related to vascular system. our vascular core. centre delivers intervestion in blood vessels.

our Exceptional team of specialisation and advanced health care technology delivers the best treatment outcomes for each patient. Be able to live a healthy and happy life.

- * patients with the best health care.
- * Innovative medicines.
- * Advanced technology.
- * treatment for a healthy life style.

Describe the technological developments you have observed and relevant to the subject area of training (focus on digital technologies relevant to your job role)

The Government has taken a big step in implementing technology in medical system to amplify digital and medical modern technological transformation for hospitals.

The G.G.H Hospital Srikakulam was will modern sophisticated devices in the procedure.

The HR and medical superdent updates the information of hospital through their valuable words. They seen faces and taken the attendance of all students for checking.

The present system followed and upgraded and enriched in every standards we have also used the technological devices for every takes related to internship. Everyone in the internship work learned very enthusiastically for everyone is future.

In the lab where are well sophisticated expensive with modern technological devices are there for concluded / investigate every report for the test accurately.

Student Self Evaluation of the Short-Term Internship

Student Name: GOLLAPALLI SRAVANI

Registration No:

Term of Internship:

From: 7/12/2022

To: 18/3/2023

Date of Evaluation:

Organization Name & Address: Government General Hospital, Srikakulam.

Please rate your performance in the following areas:

Rating Scale:

Letter grade of CGPA calculation to be provided

1	Oral communication	1	2	3	4	5
2	Written communication	1	2	3	4	5
3	Proactiveness	1	2	3	4	5
4	Interaction ability with community	1	2	3	4	5
5	Positive Attitude	1	2	3	4	5
6	Self-confidence	1	2	3	4	5
7	Ability to learn	1	2	3	4	5
8	Work Plan and organization	1	2	3	4	5
9	Professionalism	1	2	3	4	5
10	Creativity	1	2	3	4	5
11	Quality of work done	1	2	3	4	5
12	Time Management	1	2	3	4	5
13	Understanding the Community	1	2	3	4	5
14	Achievement of Desired Outcomes	1	2	3	4	5
15	OVERALL PERFORMANCE	1	2	3	4	5

Evaluation by the Supervisor of the Intern Organization

Student Name: GOLLAPALLI · SRAVANI

Registration No: 2022001056011

Term of Internship:

From: 7-12-2022

To: 18-3-2023

Date of Evaluation:

Organization Name & Address: Government General Hospital, Srikakulam.

Name & Address of the Supervisor
with Mobile Number

Please rate the student's performance in the following areas:

Please note that your evaluation shall be done independent of the Student's self-evaluation

Rating Scale: 1 is lowest and 5 is highest rank

1	Oral communication	1	2	3	4	5
2	Written communication	1	2	3	4	5
3	Proactiveness	1	2	3	4	5
4	Interaction ability with community	1	2	3	4	5
5	Positive Attitude	1	2	3	4	5
6	Self-confidence	1	2	3	4	5
7	Ability to learn	1	2	3	4	5
8	Work Plan and organization	1	2	3	4	5
9	Professionalism	1	2	3	4	5
10	Creativity	1	2	3	4	5
11	Quality of work done	1	2	3	4	5
12	Time Management	1	2	3	4	5
13	Understanding the Community	1	2	3	4	5
14	Achievement of Desired Outcomes	1	2	3	4	5
15	OVERALL PERFORMANCE	1	2	3	4	5
