Acknowledgements

The successful completion of this internship report would not have been possible without the support and assistance of many individuals and organization. I feel immensely blessed to have gotten this during the course of my internship program of four months. I would like to thank each and every one of them involved in this programme.

I am indebted to my college teacher and principal for their vision, encouragement and enduring interest in the internship.

And my special thanks must be given to the teachers and lab technician students of government general hospital, Soukikulam for their feed back, which achieved my skills and development.

my last and most important thanks like to all those who made this report possible and became a reality with their kind assistance.

CHAPTER 5: OUTCOMES DESCRIPTION

Describe the work environment you have experienced (in terms of people interactions, facilities available and maintenance, clarity of job roles, protocols, procedures, processes, discipline, time management, harmonious relationships, socialization, mutual support and teamwork, motivation, space and ventilation, etc.)

Interns work environment is one of the report of interns anxiety addressed in the report Interaction with the people in the hospital they are very supportive and encouraged us very well

In hospital so many facilities are available which are very helpful to the patients I have an interaction with the professors and teachers; I have learned so many things about the medical department they teach us every management process and also team work and how to socialize with patients.

Free management is available in the hospital and the money for the treatment is also free of services for the poor people.

prof. 12
19/7/23

Describe the real time technical skills you have acquired (in terms of the job-related skills and hands on experience)

There are some technical skills, here I have acquired from this internship.

I had learned to hold Communication and build relationship with the people worked with me. I learned that every department has its own Culture. I have learned the blood sample Collection technique in the laboratory.

I observed and learned about the process of Centrifugation and its importance in the laboratory. Also, I kept learning all the tests in the biochemistry lab. I learned the importance of the accuracy and also I am able to learn how to analyze this data.

Describe the managerial skills you have acquired (in terms of planning, leadership, team work, behaviour, workmanship, productive use of time, weekly improvement in competencies, goal setting, decision making, performance analysis, etc.

There are also some managerial skills, I had acquired in this internship. I learned how to effectively deal with the people and developing managerial skills is more important to all professional as a leader.

I planned about dealing with respect to some people from the interaction and we arranged our work plan. Culture from productive use of time.

We have kept notes for the observation. I had on discussion about all the and G is our working style.

As per the final day, I have discussed about our performance is upgraded.

Describe how you could improve your communication skills (in terms of improvement in oral communication, written communication, conversational abilities, confidence levels while communicating, anxiety management, understanding others, getting understood by others, extempore speech, ability to articulate the key points, closing the conversation, maintaining niceties and protocols, greeting, thanking and appreciating others, etc.,)

I have improved my Communication skills in the internship at the Government General Hospital in Srirachulam.

I have allotted to the Biochemistry department. As I have been interacting with the teachers and lab technician students as per the work. Daily we have an interaction with the people in the hospital which has improved my Communication skills.

I have an interaction with the patients in hospital on their disease, which has improved my understanding others and also deal Communication skills one

week, I allotted to the sample Collection ward which improves my anxiety management and improved maintaining niceties and greeting, closing the conversation.

Describe how could you could enhance your abilities in group discussions, participation in teams, contribution as a team member, leading a team/activity.

The government has taken an big decision in implementing the technology in medical department system to amplify transformation of hospitals.

I have been enhance my skills in this internship. In this period of time due to the group discussions and classes were taken by the teachers to enhance our knowledge and we are practicing, practically in the hospital.

once in a day they have arranged group discussion for the Patient health Care.

I have also participated in the team work conducted by the department heads in the hospital. In the /en of team only, we practiced and participated in several activities like sample collection and the /en gives to the patients in this we have to check and tell to them. In this way we enhance our abilities and knowledge and communication skills.

Describe the technological developments you have observed and relevant to the subject area of training (focus on digital technologies relevant to your job role)

The government has taken a big decision in implementing technology in medical department system to amplify transformation of hospitals. The Government General Hospital in Serikattulam department of vascular and endovascular surgery at Government general hospital offers treatment for various conditions related to vascular system.

our exceptional team of specialised and advanced health care technology deliver the best treatment outcome for each patient that they are able to a happy healthy life.

* Patients with the best health care

* Innovative, modern

* Advanced technology

* Treatment for a healthy life style
