Instructions to Students

Please read the detailed Guidelines on Internship hosted on the website of AP State Council of Higher Education <https://apsche.ap.gov.in>

1. It is mandatory for all the students to complete Semester internship either in V Semester or in VI Semester.
2. Every student should identify the organization for internship in consultation with the College Principal/the authorized person nominated by the Principal.
3. Report to the intern organization as per the schedule given by the College. You must make your own arrangements for transportation to reach the organization.
4. You should maintain punctuality in attending the internship. Daily attendance is compulsory.
5. You are expected to learn about the organization, policies, procedures, and processes by interacting with the people working in the organization and by consulting the supervisor attached to the interns.
6. While you are attending the internship, follow the rules and regulations of the intern organization.
7. While in the intern organization, always wear your College Identity Card.
8. If your College has a prescribed dress as uniform, wear the uniform daily, as you attend to your assigned duties.
9. You will be assigned a Faculty Guide from your College. He/She will be creating a WhatsApp group with your fellow interns. Post your daily activity done and/or any difficulty you encounter during the internship.
10. Identify five or more learning objectives in consultation with your Faculty Guide. These learning objectives can address:
 - a. Data and Information you are expected to collect about the organization and/or industry.
 - b. Job Skills you are expected to acquire.
 - c. Development of professional competencies that lead to future career success.
11. Practice professional communication skills with team members, co-interns, and your supervisor. This includes expressing thoughts and ideas effectively through oral, written, and non-verbal communication, and utilizing listening skills.
12. Be aware of the communication culture in your work environment. Follow up and communicate regularly with your supervisor to provide updates on your progress with work assignments.

13. Never be hesitant to ask questions to make sure you fully understand what you need to do your work and to contribute to the organization.
14. Be regular in filling up your Program Book. It shall be filled up in your own handwriting. Add additional sheets wherever necessary.
15. At the end of internship, you shall be evaluated by your Supervisor of the intern organization.
16. There shall also be evaluation at the end of the internship by the Faculty Guide and the Principal.
17. Do not meddle with the instruments/equipment you work with.
18. Ensure that you do not cause any disturbance to the regular activities of the intern organization.
19. Be cordial but not too intimate with the employees of the intern organization and your fellow interns.
20. You should understand that during the internship programme, you are the ambassador of your College, and your behavior during the internship programme is of utmost importance.
21. If you are involved in any discipline related issues, you will be withdrawn from the internship programme immediately and disciplinary action shall be initiated.
22. Do not forget to keep up your family pride and prestige of your College.

Acknowledgements

The successful completion of the internship report would not have been possible without the support and assistance of many individuals and organisations.

I feel immensely blessed to have gotten this during the course of my internship program of four months.

I would like to take this opportunity to offer my earnest administration to each and every one of them involved in this programme.

I am indebted to my college teacher and principal for their vision, encouragement and enduring interest in the internship.

And my special thanks must be given to teachers and lab technician students of government general hospital Srikakulam for their feedback, which achieved my skills & development.

My last and most important thanks to all those who made this report possible & become a reality with their kind assistance.

CHAPTER 1: EXECUTIVE SUMMARY

The internship report shall have a brief executive summary. It shall include five or more Learning Objectives and Outcomes achieved, a brief description of the sector of business and intern organization and summary of all the activities done by the intern during the period.

I have allotted 4 months internship in the medical department by the Government of A.P.

After allotment I went to join at Government General Hospital Srikakulam. After my joining I was assigned different works at different labs, by HOD madam of microbiology for the ~~duration~~ of 4 months. During my period. I learnt about from Dr. T. Susha madam from microbiology, Venkata Ramana Murthy Sir from I.C.T.C and Ramakrishna Sir from biochemistry.

Practical knowledge we gain from lab technicians. They showed us demonstration. I spent most of the time in labs. we involved in ~~conducting~~ test. I had conducted test like blood samples from patients for the test. From this work of internship in the medical department. I had improved a lot by knowing about various medical tests and how to treat patients with patience.

CHAPTER 2: OVERVIEW OF THE ORGANIZATION

Suggestive contents

- A. Introduction of the Organization
- B. Vision, Mission, and Values of the Organization
- C. Policy of the Organization, in relation to the intern role
- D. Organizational Structure
- E. Roles and responsibilities of the employees in which the intern is placed.
- F. Performance of the Organization in terms of turnover, profits, market reach and market value.
- G. Future Plans of the Organization.

I worked in the medical department as a interns in government general hospital ssikakulam. medical department plays an impendant role in every sector. I observed many things in the hospital, different catigouised faculty are serving the pottence very well. my work and ~~experience~~ as a intern in hospital was very appreciable. I interacted with my senior faculty members with honourably. I spend nearly 6 hours with the faculty in the lab of the hospital and I got to know the various medical machines which are used for various stage.

The organisation which I ~~had~~ worked in medical field. The government general hospital was well organised with facilities and well worked faculty with well mannered behaviour.

In my point of view the organization I had worked was very good with full of pottence with 100% well treatment and with well experienced and work alcoholic doctors and nurses.

CHAPTER 3: INTERNSHIP PART

Description of the Activities/Responsibilities in the Intern Organization during Internship, which shall include - details of working conditions, weekly work schedule, equipment used, and tasks performed. This part could end by reflecting on what kind of skills the intern acquired.

I worked in government general hospital, srirakulam in department of medical, I worked in the lab. I did many tests like blood count, gram staining process, and total etc.

In the lab, they are two sectors of departments are held. They are microbiology and biochemistry.

They were many machines with highly sophisticated techniques and tools are there for conducting various test with full of alertness and with full of self caring during collection of blood samples.

I conducted many tests like blood sample determination etc under the supervision of my sirs & madams.

After the work we used to clean our hand very well with sanitizers.

Due to this internship I go to know the various due and various tests for it to concluded and report them with modern superficial technology.

CHAPTER 5: OUTCOMES DESCRIPTION

Describe the work environment you have experienced (in terms of people interactions, facilities available and maintenance, clarity of job roles, protocols, procedures, processes, discipline, time management, harmonious relationships, socialization, mutual support and teamwork, motivation, space and ventilation, etc.)

The internship work environment is of the aspects of interns quality addressed in this report. The people at Government General hospital were welcomed me heartfully and with good interactive staff.

First and foremost I had trained and observed many things like tests and medical lab procedures. I had worked most of the time in labs, and my labours/maidams examined and trained very well. We are the interns were very active and focused in the work.

We were also given space for our procedure which made our internship very useful for us.

Describe the real time technical skills you have acquired (in terms of the job-related skills and hands on experience)

There are many technical skills that are acquired from this medical internship. I have to know about how to put my knowledge and skills into practice such as an inter in medical field. I learned how to communicate and build relationship with the people I had been worked.

I learned that every department of organization has its own importance and role.

As an intern, I discovered its essential to be take the importance of the work of the medical field and its content for future. I learned that sometimes asking for feedbacks. as receiving feedback is difficult to her but it will have a significant impact on your future carrier and success.

Describe the managerial skills you have acquired (in terms of planning, leadership, team work, behaviour, workmanship, productive use of time, weekly improvement in competencies, goal setting, decision making, performance analysis, etc).

There are also some managerial skills I have acquired from this internship. I learned how to effectively deal with people. Developing management skills is important to all professionals. As a team we planned about scheduling with respect to time and we all acted as leader and trained for every week enthusiastically. we arranged our workplace culture for productive use of time.

we have kept notes for observing everything improvement of our weekly wise, we dream about the having kept pros and cons in our working style we all kept our goals for journey we also have developed decision making skills which are very essential in futures. As per the final day, we have discovered about our performance was upgraded.

Describe how you could improve your communication skills (in terms of improvement in oral communication, written communication, conversational abilities, confidence levels while communicating, anxiety management, understanding others, getting understood by others, extempore speech, ability to articulate the key points, closing the conversation, maintaining niceties and protocols, greeting, thanking and appreciating others, etc.,)

we have improved more about the lab and medical test and various disease e.t.c and many medical procedure in the internship at Government general hospital in the department of medical.

As we have been interacted with the faculty of the lab technicians and nurses e.t.c. As we assigned to work and to learn more about every medical test and its importance. At first time we felt very low, but we are confident while communication as we conversating understanding others.

we also come to getting understood by other we improved our speech skills from prepared level to extren level we have developed from astudent to an intern. we also developed so much of interacting skills in our way which made students better

Describe how could you could enhance your abilities in group discussions, participation in teams, contribution as a team member, leading a team/activity.

The government general hospital ssitakulam department of vascular and end vascular survey at government general hospital offer's treatment for various condition related to vascular system. our vascular core centre deliver to intersection in blood vessels.

Our Exceptional team of specialisation and advanced health care technology delivers the best treatment outcomes for each patient. be able to live a healthy and happy life.

- * patients with the best health care.
- * Innovative technology
- * Advanced medicines & technology.
- * Treatment for a healthy life style.

Describe the technological developments you have observed and relevant to the subject area of training (focus on digital technologies relevant to your job role)

The govt has taken a big step in implementing technology in medical system to amplify digital and medical modern technological transformation for hospitals.

The Government General Hospital srikulam was modern sophisticated devices in the procedure.

The HR and ~~medical~~ superident updates the information of hospital through their valuable cords. They taken the attendance of all students regularly.

The present system followed and upgraded and enriched in every standards we have also used the technological devices for every time related to internship. everyone in the internship work learned by very enthusiastically for every one in future.

In the lab where are well sophisticated expensive with modern technological devices are there for concluded / investigate every report for the test accurately.
