Instructions to Students

Please read the detailed Guidelines on Internship hosted on the website of AP State Council of Higher Education <https://apsche.ap.gov.in>

1. It is mandatory for all the students to complete Semester internship either in V Semester or in VI Semester.
2. Every student should identify the organization for internship in consultation with the College Principal/the authorized person nominated by the Principal.
3. Report to the intern organization as per the schedule given by the College. You must make your own arrangements for transportation to reach the organization.
4. You should maintain punctuality in attending the internship. Daily attendance is compulsory.
5. You are expected to learn about the organization, policies, procedures, and processes by interacting with the people working in the organization and by consulting the supervisor attached to the interns.
6. While you are attending the internship, follow the rules and regulations of the intern organization.
7. While in the intern organization, always wear your College Identity Card.
8. If your College has a prescribed dress as uniform, wear the uniform daily, as you attend to your assigned duties.
9. You will be assigned a Faculty Guide from your College. He/She will be creating a WhatsApp group with your fellow interns. Post your daily activity done and/or any difficulty you encounter during the internship.
10. Identify five or more learning objectives in consultation with your Faculty Guide. These learning objectives can address:
 - a. Data and Information you are expected to collect about the organization and/or industry.
 - b. Job Skills you are expected to acquire.
 - c. Development of professional competencies that lead to future career success.
11. Practice professional communication skills with team members, co-interns, and your supervisor. This includes expressing thoughts and ideas effectively through oral, written, and non-verbal communication, and utilizing listening skills.
12. Be aware of the communication culture in your work environment. Follow up and communicate regularly with your supervisor to provide updates on your progress with work assignments.

CHAPTER 1: EXECUTIVE SUMMARY

The internship report shall have a brief executive summary. It shall include five or more Learning Objectives and Outcomes achieved, a brief description of the sector of business and intern organization and summary of all the activities done by the intern during the period.

I have allotted 3 months internship in the medical department by the Government of AP.

After allotment I went to join at GGH Srikakulam. After my joining and reporting, I was assigned different works at different labs, by HOD of microbiology for the duration of 3 months. During this period, I have learnt a lot. Dr. T. Sriisha ma'am taught us about the training techniques, incubation etc. It was a very great lecture and helpful for us. Theoretically we acquired knowledge given by Dr. T. Sriisha.

Practical knowledge we gain from lab technicians. They showed us demonstration, I spent most of the time in labs. we involved in conducting tests. I had conducted test like collection of blood samples from patients for the test. From this work of internship in the medical department, I had improved a lot by knowing about various medical tests and how to treat the patients with patience.

CHAPTER 2: OVERVIEW OF THE ORGANIZATION

Suggestive contents

- A. Introduction of the Organization
- B. Vision, Mission, and Values of the Organization
- C. Policy of the Organization, in relation to the intern role
- D. Organizational Structure
- E. Roles and responsibilities of the employees in which the intern is placed.
- F. Performance of the Organization in terms of turnover, profits, market reach and market value.
- G. Future Plans of the Organization.

I worked in the medical department as an intern in Government General Hospital, Sreekrishnam. Medical department plays an important role in every sector. I observed many things in the hospital, different categorised faculty are serving the patients everywhere. My work and experience as an intern in hospital was very appreciable. I interacted with my senior faculty members with honourably. I spend nearly 6 hours with the faculty in the lab of the hospital and I got to know the various medical services and ~~the~~ medical diagnosis which are used to treat various types of diseases.

The organisation which I had worked in medical field. The Government General Hospital was well organised with facilities and ~~all~~ with a skilled faculty having a well mannered behaviour.

CHAPTER 3: INTERNSHIP PART

Description of the Activities/Responsibilities in the Intern Organization during Internship, which shall include - details of working conditions, weekly work schedule, equipment used, and tasks performed. This part could end by reflecting on what kind of skills the intern acquired.

I worked in Government General Hospital, Seikakubon in the department of medical. I worked in the lab. I did many tests like Blood count, Gram staining process, and we observed the ICTC.

In the lab, there are two sectors of departments they are microbiology and Biochemistry.

They ~~are~~ were many ~~very~~ skilled in operating the equipments in that particular department. There they are conducting various ~~ty~~ tests with full all alertness and with full of self caring during collection of blood sample.

I conducted ~~no~~ some tests like blood sample determination etc., under the supervision of lab technicians.

After conducting those tests we used to clean there and washed our hands and cleanse ourselves with sanitizers to avoid spreading and communicable diseases.

CHAPTER 5: OUTCOMES DESCRIPTION

Describe the work environment you have experienced (in terms of people interactions, facilities available and maintenance, clarity of job roles, protocols, procedures, processes, discipline, time management, harmonious relationships, socialization, mutual support and teamwork, motivation, space and ventilation, etc.)

The internship work environment is of the aspects of interns quality addressed in this report. The people at Government General Hospital welcomed me heartfully and with good interactive staff.

First and foremost had trained and examined many things like test and medical procedure. I had worked most of the time in ~~lab~~, and my lab seniors / madams explained and trained very well, we are the interns as team were very active and focused in the work.

we were also ~~given~~ space for our procedure. which made our internship very useful for us.

Describe the real time technical skills you have acquired (in terms of the job-related skills and hands on experience)

There are many technical skills that I have acquired from this medical internship. I have to know about how to put my knowledge and skills into the practice such as an intern in medical field. I learned how to communicate and build relationships with the people I had been worked.

I learned that every department of organisation has its own importance and role.

As an intern, I discovered it's essential to be take the importance of the work of the medical field and its content for future. I learned that sometimes asking for feedback or receiving feedback is difficult to hear but it will have a significant impact on your future career and success.

Describe the managerial skills you have acquired (in terms of planning, leadership, team work, behaviour, workmanship, productive use of time, weekly improvement in competencies, goal setting, decision making, performance analysis, etc.

we have improved more about the lab and medical test and various disease etc. and many medical procedure in this internship at Government General Hospital in the department of medical.

As we have been interacted with the faculty of the lab technicians and ~~nurses~~ etc. As we assigned to work and to learn more about every medical test and its importance. At first time we felt very tense, but now we are confident while communication as we conversating understanding others.

we also come to getting understood by other. we improved our speech skills from prepared level to extempore level we have developed from a student to an intern we also developed so much of interacting skills in our way. ~~made~~ students better.

100% 19/7/23

Describe how you could improve your communication skills (in terms of improvement in oral communication, written communication, conversational abilities, confidence levels while communicating, anxiety management, understanding others, getting understood by others, extempore speech, ability to articulate the key points, closing the conversation, maintaining niceties and protocols, greeting, thanking and appreciating others, etc.,)

There are also some managerial skills ; have acquired from this internship , I learned how to ~~eff~~ effectively deal with people . Developing management skills is important to all professionals . As a team we planned about scheduling with respect to time and we all acted as a leader and trainer for every ~~week~~ enthusiastically . we arranged our work place culture for productive use of time .

we have kept notes for observing everything improvement of our weekly work , we dream about the have kept our goals for the journey we also have developed decision making skills which are very essential in futures . As per the final day , we have discovered about our performance was upgraded .

proof 12
19/7/23

Describe how could you could enhance your abilities in group discussions, participation in teams, contribution as a team member, leading a team/activity.

The Government General Hospital Suckakulam department of vascular and endovascular surgery at Government General Hospital offer's treatment for various condition related to vascular system. Our vascular core centre deliver intervention in blood vessels.

Our exceptional team of specialisation and advanced health care technology deliver the best treatment outcomes for each patient. Be able to live a healthy and happy life.

- * Patients with the best health care.
- * Innovative medicines
- * Advanced technology
- * Treatment for a healthy life style.

Describe the technological developments you have observed and relevant to the subject area of training (focus on digital technologies relevant to your job role)

The Government has taken a big step in implementing technology in medicine system to amplify digital and medical modern technological transformation for hospitals.

The Government General Hospital Serkukulam, was well modern ~~sophisticated~~ devices in the procedure.

The HR and medical support updates the information of hospitals through their valuable words. They scan faces and taken the attendance of all students for checking.

The present system followed and upgraded and switched in every ~~standards~~ we have also used the technological ~~devices~~ for every tasks related to internship everyone in the internship work learned very enthusiastically for everyone is future

In the lab where are well sophisticated expensive with modern technological devices are there for concluded / investigate every report for the test accurately.
